The School Board of Trustees/Governing Board recognizes that charter schools may assist the district in offering diverse learning opportunities for district students. In considering any petition to establish a charter school within the district, the Board shall give careful consideration to the potential of the charter school to provide students with a high quality education that enables them to achieve to their fullest potential.

6207.5 A request by a charter school to participate as a local educational agency in a special education local plan area may not be different from a similar request made by a school district. 56207.5 (a) The Special Education Local Plan Area shall comply with Section 56140.

56207.5 (b) The charter school shall participate in state and federal funding for special education and the allocation plan developed pursuant to subdivision (I) of Section 56195.7 or Section 56836.05 in the same manner as other local educational agencies of the Special Education Local Plan Area.

56207.5 (c) The charter school shall participate in governance of the Special Education Local

Plan Area in the same manner as other local educational agencies of the Special Education Local Plan Area.

This policy applies to all charter schools that are chartered by the Vallejo City Unified School District Special Education Local Plan Area or by the State Board of Education in which oversight responsibilities have been assigned to the VCUSD pursuant to Education Code section 47605 (k) (l). This policy does not apply to a charter school that was chartered by, or assigned to, an entity that is not a member of the Special Education Local Plan Area.

As students enrolled in charter schools are entitled to special education services provided in a similar manner to students enrolled in the public schools, charter schools within the Special Education Local Plan Area and a charter school shall comply with all requirements of state and federal law regarding the provision of special education services (Education Code section 56000 et.seq. Individuals With Disabilities Act 20 U.S.C. Chapter 33).

As students enrolled in charter schools are entitled to special education services provided in a similar manner to students enrolled in the public schools, charter schools within the Special Education Local Plan Area and a charter school shall not discriminate against any pupil in its admission criteria on the basis of disability.

Charter petitioners must delineate in their petition or in a Memorandum of Understanding (MOU) the entity responsible for providing special education instruction and services. This document must reference any anticipated transfer of special education instruction and services. This document must reference any anticipated transfer of special education funds between the granting entity and the charter school and any provisions for sharing deficits in funding. This document must affirm, in writing, that the district where the students reside, if different from the chartering entity, is not responsible for providing special education services to students that are enrolled in the charter school. The written agreement must also state that prior to final approval of a request to be deemed an Local Education Agency (LEA), the charter school will be deemed a public school within the chartering entity.

Public School Within the School District

Charter schools that are deemed to be public schools within the chartering entity will participate in state and federal funding in the same manner as other schools or programs within the chartering entity. The chartering entity will be responsible for ensuring that all children with disabilities enrolled in the charter school receive special education and designated instruction and services in a manner that is consistent with all applicable provisions of state and federal law. The chartering entity will determine the policies and procedures necessary to ensure that the protections of special education law extend to students in the charter school in the same manner as students enrolled in other schools or programs administered by the chartering entity.

The chartering entity will:

Section B: Governance and Administration

SELPA Vallejo City Unified School District

Fiscal Year 2023-24

1. receive all applicable special education funds as specified in the SELPA Assembly Bill 602 Funding Allocation Plan. The allocation per ADA in the charter school will be the same as that received by the chartering entity;
2. represent the needs for the charter school in the SELPA governance structure;
3. be responsible for ensuring that all eligible students enrolled in the charter school are appropriately referred, assessed, and served in a timely manner;
4. be responsible for procuring and funding appropriate special education services wherever the student may reside; and
5. provide necessary special education services or contract for these services with public or nonpublic educational agencies.

When the chartering entity is the District, the charter school must be held fiscally responsible for a fair share of any encroachment on District general funds that is created by the provision of special education services throughout the District. The District and the charter school may enter into agreements whereby the charter school is billed for excess costs associated with providing special education services to identified students, including the administration of special education programs.

**B. Charter Schools as Independent LEA**

If a charter school wishes to be an LEA, they must apply to a district in a multi-district SELPA for authorization of their charter. Should a charter school apply to be an LEA, the SELPA will treat applications by charter schools to be independent LEAS in the same manner that the SELPA treats applications by other districts and LEAs and may refer such applications to neighboring multidistrict SELPAS.

**APPROVAL AND RENEWAL OF CHARTERS**

**Role of the SELPA Director**

Prior to approval of a new charter school, or renewal of an existing charter school, the SELPA Director shall consult with the Board of Trustees/Governing Board of the District or designee to ensure that the charter school responds to District and SELPA guidelines and timelines as they relate to special education. The SELPA Director shall review all proposed charter petitions, including petitions for renewal and advise the Board of Trustees/Governing Board on whether the petition contains reasonable assurances that all eligible students enrolled in the Charter School will receive appropriate special education services in accordance with state and federal law and the SELPA Local Plan for Special Education (Local Plan).

**B. Required Contents of Charter Petitions**

Section B: Governance and Administration

SELPA

Fiscal Year

Petitions must provide that no student otherwise eligible to enroll in the charter school be denied enrollment due to a disability or to the charter school's inability to provide necessary services. Each charter petition must also contain a reasonably comprehensive description of the charter school's educational program, as it relates to the provision of special education services, including the following:

1. The specialized instruction and services available at the charter school;
2. The procedure for ensuring that students are referred, assessed, and served in a timely manner;
3. Assurances that staff members providing special education services are appropriately credentialed;
4. Assurances that the facility used by the charter school does not present physical barriers that would limit an eligible student's full participation in the educational and extracurricular programs and that the school will comply with Section 504 of the Rehabilitation Act of 1973 (34 CFR 104) (hereinafter "504");
5. Assurances that disenrollment, suspension, and expulsion procedures comply with the protections of federal and state law afforded to special education and Section 504 eligible students; and
6. Alternative Dispute Resolution procedures that will apply to any disputes between educational entities, including the SELPA, regarding the provision of special education services in the charter school.

**CATEGORIES OF CHARTER SCHOOLS**

For the purpose of providing special education services, charter schools shall be deemed either a public school within the chartering district, or an LEA that receives funds and provides services independent of the chartering entity. All approved charter schools will be deemed public schools within the chartering entity until the charter school has been deemed an LEA and accepted into a SELPA.

**Denial of Petition**

The Board shall deny any petition to authorize the conversion of a private school to a charter school or that proposes to serve students in a grade level that is not served by the district, unless the petition proposes to serve students in all grade levels served by the district. (Education Code 47602, 47605; 5CCR 11965)

Any other charter petition shall be denied only if the Board presents written factual findings

2. The petitioners are demonstrably unlikely to successfully implement the program set forth in the petition;
3. The petition does not contain the number of signatures required;
4. The petition does not contain an affirmation of each of the conditions described in Education Code 476059(d)
5. The petition does not contain reasonably comprehensive descriptions of the charter provisions in education Code 47605 (b).

The Board shall not deny a petition based on the actual or potential costs of serving students with disabilities.

If the Board denies a petition, the petitioners may choose to submit the petition to the County Board of Education and, if then denied by the County Board, to the SBE. (Education Code 47605)

6. Identify and describe the representation and participation of the SELPA community advisory committee (CAC) pursuant to EC Section 56190 in the development of the local plan: [EC 56194(a)(b)(d); EC 56195.9(a)]

9. Describe the contractual agreements and the SELPA's system for determining the responsibility of participating agency for the education of each student with special needs residing within the geographical area served by the plan: [EC 56195.7. EC 56195.1(b)(c)]

The concept of regional services is to provide a continuum of options necessary to ensure appropriate special education services to students with disabilities are available. VCUSD SELPA will coordinate with other agencies for those students who require regionalized services offered outside the District or to provide other necessary and appropriate services not available in the District.

'Regionalized services' does not mean that every service and placement required for students with disabilities must be available at each site. The concept of regionalized service is to ensure that, even for those services that are less frequently needed, the services will be available within the District or region at District expense. It further means that the District is responsible to provide those services required by a child's Individual Education Program (IEP).

The District has elected to provide some special education services in regionalized settings. For example, students with severe disabilities requiring transportation will be provided regionalized services at selected sites within the District.

b. The local method used to distribute federal and state funds to the SELPA RLA/AU and to LEAs within the SELPA: [EC 56205(a)(12)(D) (ii)(II); EC 56195.7(i)]

The Superintendent or designee collaborates with the SELPA Director in determining budget and funding priorities for students with disabilities.

These budget priorities align with the district's vision, goals and priorities ratified to improve education outcomes with students who have an IEP.

Based upon these priorities, a budget is developed and included in the proposed budget adopted by the Board of Education each year.

The Local Plan shall be reviewed at least every three years or whenever new state or federal legislation, regulations, and/or guidelines, or major changes in funding or services indicate the need for possible modification of the Local Plan or there is a change to the governance structure, membership, or policy-making process of the SELPA. Both the annual budget and service plan for the District are reviewed, at least annually by the

Finance Department, Special Education Director, CAC, and the Superintendent's Cabinet. All policies implemented in the single district SELPA are developed consistent with the district Administrative Procedures.

The district shall also adopt policies for the programs it operates under the local plan, including: nonpublic services, review of placement of students with disabilities and their IEPs, when necessary, procedural safeguards, resource specialists, transportation, information on the number of individuals with exceptional needs who are being provided special education and related services, and caseloads. (Education Code 56195.8) This information may be included as part of the local plan.

12. Describe how specialized equipment and services will be distributed within the SELPA in a manner that minimizes the necessity to serve students in isolated sites and maximizes the opportunities to serve students in the least restrictive environments: [EC 56206]

Low Incidence funds provided by the State to allow for the purchase of specialized books, materials, and equipment are necessary due to the adverse educational impact of a low incidence disability on access to instruction and learning. Low Incidence funding is intended to supplement and not supplant other available funding for books and materials.

"Low Incidence disability" means a severe disabling condition with an expected incidence rate of less than one (1) percent of the total statewide enrollment in kindergarten through grade twelve (12). For purposes of this definition, severe disabling conditions are hearing impairments, vision impairments, and severe orthopedic impairments, or any combination thereof. The SELPA is responsible for ensuring that each student who has been identified as a student with a "low incidence" disability receives the required instructional support as indicated on the IEP.

The SELPA Director is responsible for ensuring that all eligibility requirements are met prior to approving any expenditure of these funds.

**Eligibility**

The recommendation for the use of Low Incidence equipment is an Individual Education Plan (IEP) team determination made only after an assessment has been completed and during an IEP team meeting. It is not a unilateral decision made by a parent, classroom teacher or other related service provider such as a Speech and Language Pathologist, Occupational Therapist, Physical Therapist or Assistive Technology Specialist.

Low incidence categories for special education are:

Orthopedic Impairment (270) Visual Impairment (250) Hearing Impairment

1. Deaf (230) 2. Hard of Hearing (220)

Any combination of the above, including Deaf/Blind (300) Multiple Disabilities (310) in which one of the above mentioned disabilities must be included 22

**LOW INCIDENCE PROCEDURES**

1. Schedule and hold the Annual IEP team meeting or an Amendment IEP team meeting as appropriate.
2. At the IEP meeting, identify the Low Incidence eligibility and list that handicapping condition first under "eligibility".
3. Review any assessments and recommendations. If an assessment specifically determines a need for specialized equipment or services, the IEP team must discuss the assessment results and make the determination as to what type of specialized equipment and/or services is needed. If the IEP team determines an assessment needs to be conducted for low incidence purposes, the procedures for developing an Assessment Plan, including permissions and time-lines must be followed and a new IEP team Meeting must be held to review the results of that assessment.
4. At the IEP meeting, the determination of the type of equipment and/or services and who will be responsible for obtaining the equipment, using it, etc. will be made by the IEP team. This must be reflected in the "Team Meeting Notes".
5. The rationale for the use of the equipment (do not use brand names) for Educational benefits must be described. This is MANDATORY.
6. Develop IEP Goals and Benchmarks specifically addressing the use of the specialized equipment/and or services. The equipment required must be embedded within the goal. Do not write in brand names of equipment, use the generic term such as "adaptive seating", or "speech generating device", etc. For example, "Johnny will request a desired object using a speech generating device by....".When the IEP team has agreed on the various components, update, affirm and attest the changes to the IEP in SEIS.
7. The designated IEP team member for handling the Low Incidence order will copy and attach the information to the IEP. This will include a description of the equipment, the catalogue where it is to be ordered, the vendor information, costs, shipping information, etc.
8. The IEP Case Manager, or individual designated to handle the specialized equipment, will complete the "Low Incidence Cover Sheet" and attach a complete copy of the IEP and equipment and vendor information and send to the Administrator in charge of Low Incidence.
9. The IEP Case Manager or individual designated to handle the specialized equipment will complete a district Purchase Requisition. The name of the student and the purpose for the equipment order must be included on the Purchase Requisition. The delivery location will be specified by the Low Incidence Manager.

10. The Low Incidence Administrator will review the IEP and equipment/vendor information. If all is satisfactory, he/she will process the order.

Note: The grant has a limited amount of funds each year so the equipment ordered must be the least expensive available that satisfies the need.

11. When the order has been received by the district, the Low Incidence Administrator will check the order for completeness, and record that the order has been received. He/she will then contact the Case Manager and inform him/her that the equipment has arrived and is available for pick up.

#### LOW INCIDENCE FOLLOW-UP PROCEDURES

1. For each Annual IEP thereafter, the IEP Goals and Benchmarks must reflect the progress the student has made utilizing the equipment.
2. Low Incidence equipment is specifically for the use of the Low Incidence student. While other students may use the equipment, such as a computer, if appropriate, the primary use is for the Low Incidence student.
3. Low Incidence Equipment "follows" the student. If a student changes school sites, the teacher may not retain the equipment for use with other students. The equipment must be transferred, according to district transfer procedures, so the assigned student has the equipment not only at the new school site, but also during Extended School Year as appropriate.
4. Equipment that is no longer needed by the student must be returned to the Low Incidence Administrator, currently located in the Special Education District office, for inventory and storage purposes.
5. Existing Low Incidence equipment that is no longer being used by the a student for whom it was ordered may be used for other Low Incidence students following the above mentioned procedures. The equipment will need to be checked out from the Low Incidence Administrator.
6. Any questions must be directed to the Low Incidence Administrator
