

First Aid and Emergency Medical Care

Treatment of injuries other than first aid is prohibited in all District schools. First aid is immediate help given by the best qualified person at hand in case of accident or sudden illness.

During the school day and during school sponsored events, including those off-site, at least one staff person must be on duty who has a current certification from a nationally recognized course in standard first aid and CPR. First aid kits must be stored and properly maintained in each school in accordance with applicable school health rules.

Any person who in good faith provides emergency care or assistance without compensation at the place of the emergency or accident will not be liable for any civil damages for acts or omissions in good faith. State law also exempts from civil liability certain health care providers who render emergency assistance in good faith and without compensation to persons injured in a competitive sport activity.

Treatment of injuries occurring outside school jurisdiction is not the responsibility of school employees.

The school's obligation continues after the injury until the injured student has been placed in the care of the parent/guardian or emergency health personnel. Therefore, the parents/guardians of all students will be asked to sign and submit an emergency medical authorization form which indicates the procedure they wish the school to follow in the event of a medical emergency involving their child.

In all cases where the nature of an illness or an injury appears serious, the parent/ guardian will be contacted if possible and the instructions on the student's emergency card followed. In extreme emergencies, where there is potential threat to life, limb or digit, school personnel will immediately call emergency health personnel to arrange for transporting the student to an emergency facility on advice of emergency health personnel.

Elementary students who are ill or injured will not be sent home alone, and secondary students who are ill or injured will not be sent home alone unless the illness is minor and the parent/guardian has consented in advance.
