

## [Video of Infinite Campus Instructions for Course Selection](#)

Watch the video above for instructions on how to complete your course selection in Infinite Campus.

It is very important to take Course Selection seriously. Changing your schedule next year makes it highly unlikely that you will get into the classes you want because they will be filled by students who requested the course during Course Selection. *Picking a course during Course Selection gives you the best chance of getting the classes you want!*

### **Everyone MUST choose 15 courses PLUS 5 alternate courses!**

Some things to note:

- If you are taking released time (LDS Seminary) you will choose still choose **15 courses and 5 alternates**. You DO NOT get credits for released time.
- You will not pick Math. It will be assigned by your Math teachers and it will be already placed in your course selection.
- Courses at ISU are in addition to the 15/5. You will need to fill out the concurrent enrollment form. Please see the document called Concurrent Enrollment on the CHS website and it is below.
- You don't need to print your course selection.
- Counselors will be available to answer your questions and help students and parents during lunchtime in the Media Center on Feb 4 through Feb 12, 2025.
- Don't forget to save!!!! It doesn't save automatically.
- Questions?? Read the information and documents on the Century website called Academic Planning.
