2023-2024 School Accountability Report Card (Published During the 2024-2025 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/ .

2024-25 School Description and Mission Statement

John Sutter Elementary School is located on the southern border of the Santa Clara Unified School District. Sutter occupies a 10.7-acre site originally owned by the Woodhams family in 1850. The school was constructed in 1959. Single-family homes make up approximately three-fourths of the dwellings in the attendance area, and most of the students live in the surrounding neighborhoods. The classrooms, the office, and the multipurpose room were modernized in the summer of 2003. Sutter enjoys students who come from many cultural backgrounds and speak many languages. Sutter School is the designated center for the District's Visually Impaired Program. We provide weekly instruction in our computer lab and science lab. We are experiencing an increase in the mobility rate of our students. Sutter is one of seventeen elementary schools in the Santa Clara Unified

2024-25 School Description and Mission Statement

Sutter School District is very fortunate to have a very strong PTA that supports the educational needs and goals of the school. Some of the ways that the PTA supports the school are by underwriting educational field trips and assemblies, sponsoring multiple book fairs, providing family nights, and providing many volunteer hours for all school activities. Our belief is that volunteers can make a significant difference in a child's life. A strong parent volunteer group ensures an even richer educational experience for our students.

Sutter School offers many programs to facilitate the learning of students. We have programs such as: Wellness, Leap and Leap Out which support our Mental Health of staff and students to adjust to the school environment and learn effective coping skills. The Sutter PIP program provides students with a relationship with a caring adult and one-to-one structured attention for a twelve-week series. Through our special education department, we provide speech and language therapy, resource and special day services, and instruction to the visually impaired. Counseling services are funded both by the district and the site. An after-school Homework Club is also offered by parent volunteers when possible.

The mission of Sutter School is to provide an educational program that consists of high academic and behavioral standards with clear expectations for all. We strive to promote a welcoming, safe, and caring environment where collaboration and parent involvement is valued. The staff believes the following:

- *All children should be provided with opportunities to learn.
- *All students deserve respect and equal access to education.
- *All students should be prepared for future education with lifelong learning skills.
- *A partnership is essential between the school, parents, and community.
- *Students should be responsible for their actions and behavior.

Sutter School fosters independent, socially conscious, lifelong learners. Sutter School utilizes PBIS (Positive Behavior Intervention and Support) to reinforce essential tools needed for students to achieve the district's lifelong learning standards. These skills include effort, caring, motivation, perseverance, teamwork, problem-solving, confidence, responsibility, initiative, and common sense. All classes utilize the "3 B's - Be respectful, Be responsible, and Be safe." The PBIS Leadership Team which consists of teachers, administration, and the school community makes a school and classroom behavior matrix that is posted all over campus. Then the PBIS leadership team teaches the matrix to all students and support staff throughout the school year. The PBIS leadership team reviews data on student behavior monthly to assist teachers in how to support students.

The lessons taught enable students to utilize lifelong learning skills while participating in classroom meetings or when interacting with buddies in a cross-age reading program.

Santa Clara Unified School District and Sutter Elementary School had a partnership with Code To The Future, the nation's leading computer science program for magnet and theme-based schools. From years of partnering with Code to the Future, students at Sutter Elementary School learn the fundamentals of computer coding as part of their daily curriculum. Through 21st Century literacy, students will develop critical thinking, creativity, communication, and collaboration skills. The partnership allows teachers to engage students in a block and text-based coding activities to enhance their educational experiences through computer science. Students will have another avenue to apply problem-solving, team building, and presentation skills as they collaborate and share their thinking process with peers. This is another district commitment to computer science programming as the State of California rolls out the new computer science standards.

Sutter is one of two computer science immersion schools in the Santa Clara Unified District. Sutter Elementary School will continue to offer the same, outstanding instruction in reading, writing, math, science, social studies, music, and physical education, all of which are foundational content to these campuses. Coding will be an exciting, integrated enhancement to the excellent learning already taking place at these schools.

Current research on teaching and learning indicates that a focus on content-level standards is the key to successful instruction and learning. The staff participates in frequent staff meetings, regular site grade-level planning sessions, and staff development relating to the standards and effective instruction. Teachers work with specialists and each other to improve instructional practices. All of our teachers are CLAD certified or enabling them to meet the needs of our English learner population.

Instruction and activities are differentiated to meet the needs of students who are diverse in their ethnic, socioeconomic backgrounds, school experience, ability, and achievement levels, and unique learning styles. A focus on multiple intelligences ensures that students have daily opportunities to learn in a variety of ways.

Collaboration occurs throughout a variety of meetings with staff and our community. Site-level meetings include the leadership team, school site council, and PTA. Staff members collaborate informally in the staff room and in classrooms frequently. They meet with each other and the principal to discuss current needs and concerns. Teachers meet weekly to collaborate with colleagues in designated collaboration times. Our Wellness Team meets on weekly basis to strategize action plans for at-risk

2024-25 School Description and Mission Statement

students. Teachers conference with all parents in the fall and with parents of at-risk students in the spring. Conferences are held on an as-needed basis throughout the year. A fall Academic Assistance Plan (AAP) guides staff and parents regarding strategies to improve the achievement of students performing below standard on standardized and performance-based assessments. Bimonthly school and PTA newsletters, frequent staff meetings, memos, staff calendars, and Parent Handbook/Calendar which is provided in August inform the community and staff of events and information about the school. More specific information regarding individual classrooms is provided in classroom newsletters.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

School Facility Conditions and Planned Improvements

General

Santa Clara Unified School District (SCUSD) takes great efforts to ensure that all schools are clean, safe, and functional. To assist in this effort, SCUSD uses a facility survey instrument developed by the State of California OPSC. The results of this survey are available by request made to the SCUSD's Facilities department at (408) 423-2061.

Below is more specific information on the condition of the school and the efforts made to ensure that students are provided with a clean, safe, and functional learning environment.

Maintenance and Repair

SCUSD maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority.

Cleaning Process and Schedule

The governing board has adopted cleaning standards for all schools in SCUSD, Board Policy 3514. The policy can be found online at www.santaclarausd.org/BoardPolicies. The principal works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school.

Deferred Maintenance

SCUSD participates in the State School Deferred Maintenance Program to assist school districts with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floor systems.

Modernization Projects

SCUSD strives to be a model of financial responsibility, making every effort to spend taxpayer dollars wisely. At the same time, ongoing bond programs are necessary in a district this large, with so many students, teachers, and facilities needs. Bond funds allow the District to maintain safe, modern school facilities and bring in updated technology essential to student achievement. Measure B 1997 improvements included new elementary school play structures, new high school science classrooms and outdoor athletic facilities, the major renovation of eleven elementary schools, an ambitious roof replacement program, and two high school performing arts buildings. Measure J 2004 generated funds to modernize buildings and classrooms for middle schools, high schools, and the adult education campus. Measure H 2010 upgraded fire, safety and security systems, renovated and reopened a closed elementary school, installed solar panels to decrease energy costs, purchased the Agnews campus property, and expanded overcrowded schools. Measure H 2014 funds construction of three new schools on the Agnews campus, expands overcrowded schools, and addresses critical facility needs such as replacing roofs and adding air conditioning to elementary school classrooms. Measure BB 2018 funds the construction of three new schools, reconstructs fields, replaces aging play structures and playground paving, adds shade structures, and upgrades fencing and gates, among many other crucial projects. More: www.santaclarausd.org/bond

Age of School Buildings

The main Sutter campus was built in 1959 and 1960. Additions were made in 1964. Portables were added in 1998 for class size reduction. There are 24 classrooms, a multipurpose room, a library/media center, and an administration building. The school was modernized in the summer of 2003. In 2010, a 60 x 20-foot shade structure was constructed for students' comfort during recesses and lunch. The project was approved by the District Office and the Division of the State Architect (DSA).

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2024-25 Opportunities for Parental Involvement

Sutter Elementary School encourages parental involvement. Parents have a wide variety of opportunities to participate in our school community. A supportive PTA and School Site Council, composed of parents, teachers, staff, and administrators, are integral parts of the Sutter community. PTA runs many family events and parents are always welcome in the classrooms through coordination with the teachers. Parent volunteers play a vital role in helping organize school events such as Walk-A-Thon, Sutterfest, Frog Jump, school book fairs, Art Explosion, Red Ribbon Week, etc. They also serve as chaperones on our many field trips. Our belief is that volunteers can make a significant difference in a child's life; a strong parent volunteer group will ensure an even richer educational experience for our students.

Anyone interested in becoming more involved is encouraged to contact our school office at (408) 423-4200.

2024-25 School Safety Plan

All California public schools kindergarten and grades one through twelve must develop a comprehensive school safety plan, per California Education Code sections 32280-32289. School safety plans assess school climate and safety, identifying goals and actions to improve safety and climate. The safety plan is written and developed with collaboration from students, parents,

2024-25 School Safety Plan

community, and law enforcement. It is reviewed and updated annually with the School Site Council (SSC).

We are committed to providing a safe, responsible and respectful school environment for all students, staff, and community. We support and promote building a sense of community and belonging where every child feels included and valued, teaching children positive social skills and attitudes including resolving conflicts without violence, and preparing for and responding appropriately to emergencies and disasters to keep children safe.

The school safety plan is available for review in the school office and was approved by the School Site Council in 2024.

Fiscal Year 2023-24 Types of Services Funded

Sutter Elementary utilizes its funding to provide a comprehensive support system for students through a multi-tiered approach. School funds are essential for maintaining personnel and delivering critical resources and programs. A designated daily English Language Development (ELD) block ensures targeted language instruction, while funding also supports a computer lab aide to enhance students' technological skills. Small group instruction in English Language Arts (ELA) for grades K-5 ensures that students receive focused intervention, especially for those not meeting reading standards. Additionally, resources such as instructional materials, technology, and reading intervention programs are prioritized to address specific academic needs and improve overall student achievement.

District funding complements these efforts by covering salaries for key personnel, including administrators, classroom teachers, and office staff, ensuring smooth school operations. Programs like PE instructors and aides for upper grades to promote physical well-being and music which promotes the arts for grades 3-5. The school also invests in student wellness with resources for counseling, such as Marriage and Family Therapy (MFT) interns and a wellness coordinator. Project Cornerstone materials and staff further enrich the curriculum and promote a supportive and inclusive environment, ensuring Sutter provides a well-rounded educational experience.

Professional Development

Staff development activities and expenditures are tied to district and school goals including the SPSA, WASC, LCAP, and District Strategic Plan. Staff development time continues to support teachers in self-reflection, analysis of student achievement data, and collaboration activities designed to help reach achievement goals. We believe in modeling lifelong learning for our students by engaging in collaborative sessions and professional development opportunities that align with the school's Single Plan for Student Achievement (SPSA) goals and support student achievement in content standards and Expected Schoolwide Learning Results (ESLRs). District and school staff development programs support meeting the academic, social, and emotional needs of all students by providing opportunities for teachers to advance their skills, develop teaching strategies, and create curriculum. During staff in-service days, teachers share information about instructional practices, cognitive development and learning disabilities, and best practices for English Language Learners. These presentations and workshops help us understand who our students are so we can better support them with individual counseling, curriculum design, and instructional practices.

In addition to the number of school days dedicated to districtwide professional development, there is professional development happening on the school campus through professional learning communities, where teachers meet to discuss best practices while assessing student work.

This table displays the number of school days dedicated to staff development and continuous improvement.
