2023-2024 School Accountability Report Card (Published During the 2024-2025 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/ .

2024-25 School Description and Mission Statement

Wilson High School is an alternative, needs-based school located in the Santa Clara Unified School District. Wilson is one of five accredited high schools in the district and serves approximately 250 students a year. Wilson High School plays a key role in the district, meeting the needs of a diverse population of students benefiting from the independent study mode of delivery. The school's profile includes students who are credit deficient, school phobic, attention deficit, learning disabled, homebound, homeless, chronically ill or depressed, pregnant and parenting, continually truant from the comprehensive system, and some who are transitioning from drug treatment programs or incarceration. Wilson students also include those who are looking for an alternative placement for religious purposes, and flexible schedules because students are working to help support families,

2024-25 School Description and Mission Statement

aspiring artists, musicians, athletes, and the gifted and talented that are university-bound.

Wilson High School's unique structure continues to provide two programs specifically designed to meet the individual needs of the students. The Minors Program currently serves students between the ages of fourteen and twenty who desire a high school diploma, wish to prepare for the GED certificate or High School Proficiency Examination, or are attempting to catch up on credits and re-enter a comprehensive or continuation high school. Based on grade level and individual needs, students attend school anywhere from one day a week for three hours, to several days a week for several hours. During this time, students meet one-on-one with their teacher to assess independent learning, meet in small groups with teacher-instructed lessons, attend specially designed classes, and labs, and participate in computer-designed courses. Emphasis is placed on completing high school requirements, school-to-career/college planning, and the development of technological skills.

The Young Parents' Center is currently serving pregnant and parenting teen parents ranging in age from fourteen to eighteen who have dropped out of school or who do not choose to remain in their traditional high school of residence. This program is designed to keep young parents in school and to provide them with academic classes to earn a high school diploma with preparation and guidance for college or a vocational program. The program provides parenting classes, family planning, childbirth preparation, health and nutrition, and child development and parenting laboratories. Students in the Young Parents' Center attend classes Monday through Thursday for 4 hours per day. Emphasis is placed on requirements for a high school diploma as well as emotional health and coping skills for young parents, pregnancy prevention, self-esteem building, goal setting, job readiness, and career counseling. The students receive free on-site childcare, free lunches, and free transportation.

Wilson High School is under the leadership of a principal, Pamela Galano and an assistant principal, Angie Scott. Wilson High School currently has seven full-time instructors, one full-time special education resource teacher, one full-time counselor, one part-time counselor, a registrar, and three secretaries. The Young Parents' Center has one permit teacher and one childcare assistant.

In the academic area, many of our students enter Wilson at below grade level in math and reading and behind in credits. Approximately 30% of our students receive special education services and around 10% of our students are EL. With the continuing "at risk" nature of our students, we have implemented more classes and labs that are helping our students to succeed. We offer labs in math, science, Spanish, social studies, English, technology, and reading improvement. We believe that the success of our students is due to small class sizes, individual learning plans developed for every student, and one-on-one attention from caring teachers, classified staff, and administrators. Students are given the opportunity to learn at their own pace. Our goals focus on curriculum, student services, and assessment. The staff, parents, guardians, and community members form a support system for our students.

Our Mission Statement is: "Wilson High School is committed to student success by meeting the needs of diverse learners in a caring, safe environment while providing opportunities for lifelong learning, encouraging community involvement, and fostering personal worth and dignity."

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

School Facility Conditions and Planned Improvements

General

Santa Clara Unified School District (SCUSD) takes great efforts to ensure that all schools are clean, safe, and functional. To assist in this effort, SCUSD uses a facility survey instrument developed by the State of California OPSC. The results of this survey are available by request made to the SCUSD's Facilities department at (408) 423-2061.

Below is more specific information on the condition of the school and the efforts made to ensure that students are provided with a clean, safe, and functional learning environment.

Maintenance and Repair

SCUSD maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority.

Cleaning Process and Schedule

The governing board has adopted cleaning standards for all schools in SCUSD, Board Policy 3514. The policy can be found online at www.santaclarausd.org/BoardPolicies. The principal works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school.

Deferred Maintenance

SCUSD participates in the State School Deferred Maintenance Program to assist school districts with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floor systems.

Modernization Projects

SCUSD strives to be a model of financial responsibility, making every effort to spend taxpayer dollars wisely. At the same time, ongoing bond programs are necessary in a district this large, with so many students, teachers, and facilities needs. Bond funds allow the District to maintain safe, modern school facilities and bring in updated technology essential to student achievement. Measure B 1997 improvements included new elementary school play structures, new high school science classrooms and outdoor athletic facilities, the major renovation of eleven elementary schools, an ambitious roof replacement program, and two high school performing arts buildings. Measure J 2004 generated funds to modernize buildings and classrooms for middle schools, high schools, and the adult education campus. Measure H 2010 upgraded fire, safety and security systems, renovated and reopened a closed elementary school, installed solar panels to decrease energy costs, purchased the Agnews campus property, and expanded overcrowded schools. Measure H 2014 funds construction of three new schools on the Agnews campus, expands overcrowded schools, and addresses critical facility needs such as replacing roofs and adding air conditioning to elementary school classrooms. Measure BB 2018 funds the construction of three new schools, reconstructs fields, replaces aging play structures and playground paving, adds shade structures, and upgrades fencing and gates, among many other crucial projects. More: www.santaclarausd.org/bond

Age of School Buildings

The main campus was built in 1951. Additions were added in 1954, 1958, 1961, 1963, and 1969. There are 73 classrooms and portables. Renovation of the entire campus has been completed, which includes the creation of additional parking, 12 portable classrooms. A new administration building has been built. The facilities of Educational Options, which are somewhat available to Wilson High students, include a full gym and associated locker space, a large swimming pool, a multipurpose room, a cafeteria, a Child Care Center, a garden area, preschool, staff and student lounges, cooking and sewing rooms, extensive playing fields, and numerous computer labs.

On this campus, under the Educational Options umbrella, are Santa Clara Adult Education, SCUSD Student Services Department, SCUSD Preschool Assessment Team, Family/Child Education Programs, SCUSD Post Secondary program, and Wilson High School. Because of these different educational opportunities located on the same campus, we are able to further offer our students a variety of classes, services, and programs. For example, our students may take classes offered by adult education for high school credit. Career services are also available on campus.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2023-24 Career Technical Education Programs

Career Technical Education (CTE) prepares students to continue on to postsecondary education with expertise in specific areas. CTE supports high academic standards, includes career exploration, and is designed to offer students exposure to a broad range of career opportunities, access to relevant and rigorous educational programs that help them achieve their career aspirations, and opportunities to benefit from workplace learning experiences. Visit the school's website to view its course catalog for a full and current list of available career technical programs offered at the school.

Students at Santa Clara Unified School District have a variety of CTE programs to choose from. The high schools offer pathways in automotive technology, biotechnology, business technology, culinary arts, hospitality and management preparation, fashion design, marketing sales, and service and information technologies. Each CTE Pathway has a sequence of two or more courses that build knowledge, skill, and proficiency in a specific industry sector and can lead to industry certification and higher education programs. Articulation agreements with Mission and West Valley Community Colleges are in place for a number of our CTE Pathways, waiving the introductory course requirements once students begin their postsecondary education. Courses with articulation agreements include business, culinary arts, hospitality and management preparation, fashion design, digital media and information technology. Automotive, construction and biotech have dual enrollment opportunities for students. Most of our CTE classes offer University of California A-G approved course credit, making it attractive to students wanting both college preparation and the CTE experience. Junior and senior students at all high schools also have full access to work experience and a comprehensive selection of courses available at the Silicon Valley

2023-24 Career Technical Education Programs

Career Technical Education Center through MetroEd's joint powers agency.

Students in CTE courses are counseled by their program teacher and the full-time career center technician. All high schools have college and career resources that offer college and career planning. Career center technicians arrange college fairs; college visits and presentations with traditional colleges and universities, as well as technical and trade schools; job fairs; Armed Services Vocational Aptitude Battery (ASVAB) and other career assessment testing; scholarship and financial aid advising for all postsecondary schools.

All CTE teachers have received high-quality professional development around recruitment and supporting non-traditional and special population students as well as topics within their industry field. All CTE classes are aligned with the CTE model curriculum standards for California public schools. The CTE staff works closely with counselors, special education, and ELL facilitators to ensure full access and support for these special population students. All programs conduct an end-of-year review, which includes student surveys, grade analysis, enrollment data evaluation, and detailed descriptive narratives.

The district has Carl Perkins programs that follow the quality indicators and criteria for program approval. The district has developed professional partnerships with community organizations to help students prepare for the workforce and obtain work placements. The SCUSD CTE Advisory Board is composed of over 75 local industry representatives from our industry sectors with programs in our schools and is led by the Coordinator of Career Technical Education.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Grade 9	45.5	45.5	27.3	36.4	36.4

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2024-25 Opportunities for Parental Involvement

Parents are invited to become members of the School Site Council and the English Language Advisory Committee (ELAC), if committee is necessary, as well as other advisory committees. Also, unlike traditional high schools, Wilson has three parent/teacher conferences each year, one upon initial enrollment, one in the fall, and one in the Spring. This allows parents to develop a close partnership with the school and teacher/counselor.

Teachers and counselors are also in constant contact with parents, especially if a student is having struggles. Flexibility in meeting times is a plus in helping parents and teachers connect. Parent surveys are collected once a year - typically in the spring.

2024-25 School Safety Plan

All California public schools kindergarten and grades one through twelve must develop a comprehensive school safety plan, per California Education Code sections 32280-32289. School safety plans assess school climate and safety, identifying goals and actions to improve safety and climate. The safety plan is written and developed with collaboration from students, parents,

2024-25 School Safety Plan

community, and law enforcement. It is reviewed and updated annually with the School Site Council (SSC).

We are committed to providing a safe, responsible and respectful school environment for all students, staff, and community. We support and promote building a sense of community and belonging where every child feels included and valued, teaching children positive social skills and attitudes including resolving conflicts without violence, and preparing for and responding appropriately to emergencies and disasters to keep children safe.

The school safety plan is available for review in the school office and was approved by the School Site Council in 2024.

2021-22 Secondary Average Class Size and Class Size Distribution

This table displays the 2021-22 average class size and class size distribution. The columns titled “Number of Classes” indicates how many classes fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

Fiscal Year 2023-24 Types of Services Funded

Childcare and associated staffing/materials are provided for students in our Young Parent's Center. Chromebooks are available to check out for each student, 5 chromebooks in each classroom, and 20 chromebooks are available in 1 classroom/lab. Through a local grant, students under special circumstances are provided with monthly bus passes or tokens as needed. Comprehensive School Improvement funding helps pay for a licensed therapist and an extra day of school counseling. Targeted Funding pays for teacher professional development, field trips for students, chromebooks and technology needs, PBIS materials, and more. Details for funding can be found in the school SPSA.

Professional Development

Staff development activities and expenditures are tied to district and school goals including the SPSA, WASC, LCAP, and District Strategic Plan. Staff development time continues to support teachers in self-reflection, analysis of student achievement data, and collaboration activities designed to help reach achievement goals. We believe in modeling lifelong learning for our students by engaging in collaborative sessions and professional development opportunities that align with the school's Single Plan for Student Achievement (SPSA) goals and support student achievement in content standards and Expected Schoolwide Learning Results (ESLRs). District and school staff development programs support meeting the academic, social, and emotional needs of all students by providing opportunities for teachers to advance their skills, develop teaching strategies, and create curriculum. During staff in-service days, teachers share information about instructional practices, cognitive development and learning disabilities, and best practices for English Language Learners. These presentations and workshops help us understand who our students are so we can better support them with individual counseling, curriculum design, and instructional practices.

In addition to the number of school days dedicated to districtwide professional development, there is professional development happening on the school campus through professional learning communities, where teachers meet to discuss best practices while assessing student work.

This table displays the number of school days dedicated to staff development and continuous improvement.
