Unified School District

2023-24 Unaudited Actuals Report

Business Services

Executive Summary

In accordance with Education Code Sections 41010 & 42100, the district files a report of receipts and expenditures prepared in a format as prescribed by the State Superintendent of Public Instruction with the Orange County Department of Education. This report is compliant with the California School Accounting Manual. The contents of the report are audited by district's external auditor who reports directly to the Board of Education. The auditor will report the results of the audit in December.

The 2023-24 year began the inevitable wind down of COVID-19 recovery funding and State budget growth returning to normal levels. At the same time, state budget volatility combined with an inflation and interest rate spike added complexity to the budget. Higher costs and lower revenue growth were a challenge for the district. Despite these challenges, the district was able to score record high monetary reserves. In addition, effort to maintain district facilities attained an all-time high

“While we have worked together to be responsible fiscal stewards, this year, we must correct for more volatility than originally anticipated...Now that the receipts are in, we must bring our books back into balance.”

Governor Gavin Newsom

Routine Restricted Maintenance level. Although it was feared that the district's property tax base would deteriorate, thankfully, the housing market remained resilient. Consequently, the district finished 2023-24 in strong fiscal shape, albeit somewhat divergent from what was expected at the beginning of the year due to economic volatility.

Overall, the district's financial performance flexed to meet changing needs reflecting robust growth in total expenditures of 10.3 percent, on a year over year basis. All expenditure categories, with exception to capital, increased markedly; salaries 8.7 percent, benefits 8.7 percent, books and supplies 22.5 percent, services 20.3 percent and capital (26.2)

percent. Special Education posted an 11.8 percent growth. Given the state's financial condition, these growth rates are not sustainable.

The district revises the budget at specific intervals including 1st and 2nd Interim. Another revision is made at the end of the fiscal year known as Estimated Actual. These revisions include various assumption changes and corrections which all lead to the Unaudited Actuals Report. The following pages include financial statements and reports following the State's Standard Account Code Structure. Also included are illustrations and comparisons associated with the district's financial progress throughout the year.

Revenue and Expense

Both revenue and expense increased in 2023-24 from the prior year. The expenditure rate of increase exceeded the rate of revenue increase, 10.3% compared to 4.0%, respectively. This reflects a tempering of revenue from state and federal sources which will cause the district to bring these rates into alignment in the future. Staffing increased 8.7 percent while non-staffing increased 17.5 percent, reflecting substantial supplemental staffing and robust restricted expenditure growth.

Other Financing Uses and Sources

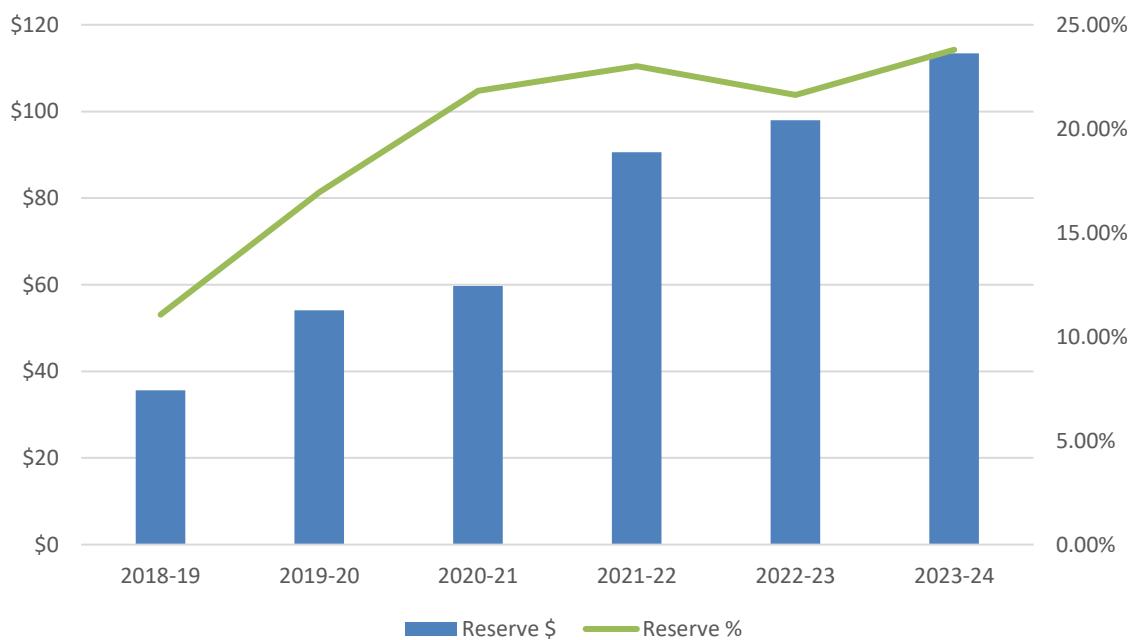

Contributions to various restricted programs totaled \$82,173,897. Transfers out of the General Fund to other funds totaled \$22,436,930 consisting of: Nutrition Services \$1,236,930, Special Reserve for Capital Projects \$10,000,000, \$1,200,000 Section 115 Trust*, and \$10,000,000 Retiree Fund. A \$1,030,419 transfer into the General Fund from the Special Reserve for Other Than Capital Outlay Projects occurred.

*The PARS Public Agencies Post-Employment Benefits Trust was established in accordance with Section 115 of the Internal Revenue Code. The Trust is a multiple employer trust arrangement established to provide economies of scale and efficiency of administration to public agencies that adopt it to hold the assets used to fund the district's Other Post-Employment Benefits liability associated with health and welfare benefits. In 2023-24, the district contributed \$1.2 million to this trust from OPEB Fund 71. These funds are recorded as cash with a fiscal agent.

Ending Fund Balance

The district's 2023-24 Ending Fund Balance increased primarily due to higher unrestricted resources while the percent of the ending fund balance held in reserve was maintained at 18.6 percent; when combined with reserves in Fund 17 the percent climbs to 23.8 percent. This reserve's purpose is chiefly to satisfy General Fund cash flow needs and exceeds the 17 percent best practice level which positions the district to meet the needs of its students and community during times of volatility.

The California Department of Finance recently issued guidance regarding Ending Fund Balance level including, "State leaders should be very cautious as they prepare for the upcoming year. A 17 percent reserve equals about 2 months of expenditures and is a common standard for local public agencies."

Local Control Funding Formula Supplemental Allocation

The Local Control Accountability Plan has become the main driver of the budget. Within that plan is a LCFF Supplemental Funding target amount that is to be set-aside for increased and improved services for students that are English Learners, Low Economic, and Foster Youth. The district's LCFF supplemental actual expenditures totaled \$23.8M exceeding the district's target requirement of \$19.5M. It is important to note, that unlike other LCFF districts, due to N-MUSD's community funded status, the district receives no LCFF Supplemental funding from the State;

in other words, the district funds this out of its own pocket which is reflective of the Board of Education's priority to ensure all students succeed.

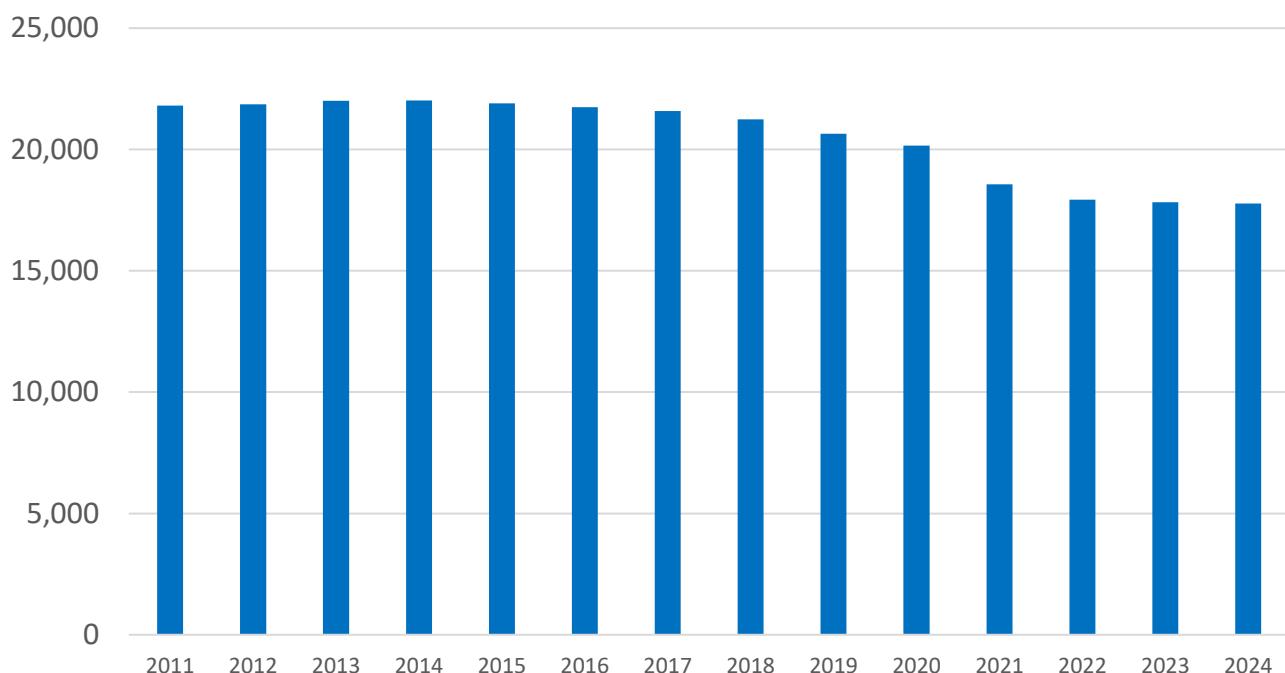

Financial Activators

The district strives to mitigate and manage risk in several ways by focusing on safety, contractual protections, insurance, and financial assessment. Consequently, the district must effectively identify risks and properly evaluate, communicate, and address them. As a means of evaluating, communicating, addressing financial risks, Dr. Smith has directed that a compliance model be developed in the form of financial activators which can be used to apply proactive internal control over the district's finances. The compliance model places various financial risk measures into one of the following categories: favorable, acceptable or evaluate. The following table illustrates the financial activator measures associated with the 2023-24 Unaudited Actual period as compared to the previous year's actuals and defines the favorable, acceptable and evaluate ranges.

Enrollment

For many years the district experienced very stable enrollment; however, recently, since 2014-15, the district has experienced an increasing rate of enrollment decline. The drivers of this trend include lower births and compact housing development. Although COVID exasperated the impact of the decline in the 2023-24 year, the rate of decline appears to be flattening on a going forward basis.

Part I - General Administrative Share of Plant Services Costs

California's indirect cost plan allows that the general administrative costs in the indirect cost pool may include that portion of plant services costs (maintenance and operations costs and facilities rents and leases costs) attributable to the general administrative offices. The calculation of the plant services costs attributed to general administration and included in the pool is standardized and automated using the percentage of salaries and benefits relating to general administration as proxy for the percentage of square footage occupied by general administration.

Part II - Adjustments for Employment Separation Costs

When an employee separates from service, the local educational agency (LEA) may incur costs associated with the separation in addition to the employee's regular salary and benefits for the final pay period. These additional costs can be categorized as "normal" or "abnormal or mass" separation costs.

Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board policy. Normal separation costs are not allowable as direct costs to federal programs, but are allowable as indirect costs. State programs may have similar restrictions. Where federal or state program guidelines required that the LEA charge an employee's normal separation costs to an unrestricted resource rather than to the restricted program in which the employee worked, the LEA may identify and enter these costs on Line A for inclusion in the indirect cost pool.

Abnormal or mass separation costs are those costs resulting from actions taken by an LEA to influence employees to terminate their employment earlier than they normally would have. Abnormal or mass separation costs include retirement incentives such as a Golden Handshake or severance packages negotiated to effect termination. Abnormal or mass separation costs may not be charged to federal programs as either direct costs or indirect costs. Where an LEA paid abnormal or mass separation costs on behalf of positions in general administrative functions included in the indirect cost pool, the LEA must identify and enter these costs on Line B for exclusion from the pool.

A. Normal Separation Costs (optional)

Enter any normal separation costs paid on behalf of employees of restricted state or federal programs that were charged to an unrestricted resource (0000-1999) in funds 01, 09, and 62 with functions 1000-6999 or 8100-8400 rather than to the restricted program. These costs will be moved in Part III from base costs to the indirect cost pool.
Retain supporting documentation.

B. Abnormal or Mass Separation Costs (required)

Enter any abnormal or mass separation costs paid on behalf of general administrative positions charged to unrestricted resources (0000-1999) in funds 01, 09, and 62 with functions 7200-7700. These costs will be moved in Part III from the indirect cost pool to base costs. If none, enter zero. 0.00

Part IV - Carry-forward Adjustment

The carry-forward adjustment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect cost rate approved for use in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates

the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the approved rate was based.

Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs, or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.

A. Indirect costs incurred in the current year (Part III, Line A8)

29,105,004.67

B. Carry-forward adjustment from prior year(s)

1. Carry-forward adjustment from the second prior year	<u>2,002,475.66</u>
2. Carry-forward adjustment amount deferred from prior year(s), if any	<u>0.00</u>

C. Carry-forward adjustment for under- or over-recovery in the current year

1. Under-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus (approved indirect cost rate (8.12%) times Part III, Line B19); zero if negative	<u>0.00</u>
2. Over-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus the lesser of (approved indirect cost rate (8.12%) times Part III, Line B19) or (the highest rate used to recover costs from any program (8.12%) times Part III, Line B19); zero if positive	<u>(2,542,859.51)</u>

D. Preliminary carry-forward adjustment (Line C1 or C2)

(2,542,859.51)

E. Optional allocation of negative carry-forward adjustment over more than one year

Where a negative carry-forward adjustment causes the proposed approved rate to fall below zero or would reduce the rate at which the LEA could recover indirect costs to such an extent that it would cause the LEA significant fiscal harm, the LEA may request that the carry-forward adjustment be allocated over more than one year. Where allocation of a negative carry-forward adjustment over more than one year does not resolve a negative rate, the CDE will work with the LEA on a case-by-case basis to establish an approved rate.

Option 1. Preliminary proposed approved rate (Part III, Line D) if entire negative carry-forward

adjustment is applied to the current year calculation: 6.41%

Option 2. Preliminary proposed approved rate (Part III, Line D) if one-half of negative carry-forward
adjustment (\$-1271429.76) is applied to the current year calculation and the remainder
(\$-1271429.75) is deferred to one or more future years: 6.72%

Option 3. Preliminary proposed approved rate (Part III, Line D) if one-third of negative carry-forward
adjustment (\$-847619.84) is applied to the current year calculation and the remainder
(\$-1695239.67) is deferred to one or more future years: 6.82%

LEA request for Option 1, Option 2, or Option 3
