Honorable President and
Members of the Board of Education
Ramapo Indian Hills Regional High School District
131 Yawpo Avenue
Oakland, New Jersey 07436

Dear Board Members:

The comprehensive annual financial report of the Ramapo Indian Hills Regional High School District for the fiscal year ended June 30, 2014 is hereby submitted. Responsibility for the accuracy of the data and the completeness and fairness of the presentation including all disclosures rests with the management of the Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

Governmental Accounting Standards Board (GASB) requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. Ramapo Indian Hills Regional High School's MD&A can be found immediately following the "Independent Auditors' Report".

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, and a list of principal officials. The financial section includes the independent auditor's report, management's discussion and analysis (MD&A), the basic financial statements including the district-wide financial statements presented in conformity with Governmental Accounting Standards Board Statement No. 34. The basic financial statements also include individual fund financial statements, notes to the financial statements and required supplemental information (RSI). The statistical section includes selected financial and demographic information, generally presented on a multi-year basis.

The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and the U.S. Office of Management and Budget Circular A-133, "Audits of State and Local Governments" and the state Treasury Circular Letter 04-04 OMB, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Payments". Information related to this single audit, including the auditors' report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

Reporting Entity And High School Services: The Ramapo Indian Hills Regional High School District is an independent reporting entity within the criteria adopted by the Governmental Accounting Standards Board as established by GASB No. 14. All funds of the District are included in this report.

The District provides a full range of educational services appropriate to grade levels 9 through 12. These include regular, as well as special education for handicapped youngsters. The District completed the 2013-2014 fiscal year with an enrollment of 2,352 students, which is 1 student more than the previous year's enrollment. The following details the changes in the student enrollment of the District over the last five (5) years:

Enrollment (October 15th of each year)

<u>Fiscal Year</u>	<u>Student Enrollment</u>	<u>Percent Change</u>
2013-2014	2,352	n/a
2012-2013	2,351	1.87%
2011-2012	2,308	(3.5%)
2010-2011	2,388	.9%
2009-2010	2,366	1.4%
2008-2009	2,333	(1.2%)
2007-2008	2,359	2.1%
2006-2007	2,310	1.5%
2005-2006	2,276	4.3%

Initiatives:

Capital Improvements -

The District continues to invest significant resources into improving its infrastructure. The following projects were either initiated or completed during the 2013-2014 year – Bathroom Upgrades at IHHS, Window Replacement (200 wing) at RHS, Foam Coat Roof Recoat at RHS and Retaining Wall and Sidewalk Replacement at RHS totaling \$1.35 million. The cost of those projects will be offset by grants in the amount of \$367,000 for a net cost to the taxpayer of about \$980,000.

In addition, the District applied for and received grant authorization for an additional seven (7) capital projects totaling \$8.8 million. The cost of these projects will be offset by State Grants totaling \$3.5 million, for a net cost to the taxpayer of about \$5,300,000. A combination of capital reserve and local budget appropriations will be used as the source for the local share.

1:1 Laptop Initiative –

The District completed a 2-year transition plan toward one-to-one computing. In February of 2014, each student was issued a District-owned laptop computer for use 24 hours a day, seven (7) days per week. In exchange for out-of-school use of the computer, an assessment was charged. Those fees will be used to offset any unanticipated damage that is incurred by the District for the program. By all accounts, the rollout and implementation of the program was a great success.

District Curriculum Initiatives during the 2013-2014 School Year -

The Ramapo Indian Hills Regional High School District began the Pathways Program, which will allow students to pursue themed electives providing a rich background in a particular area of study. This flexible approach to scheduling will create opportunities for students to complete a particular “pathway” in one of seven (7) areas.

This program, while completely optional, will give interested students the chance to demonstrate commitment to an area of study in greater depth than the traditional program. Pathways is an exciting avenue for students to pursue an area of interest while at the same time, take elective offerings in various departments.

THEMED ELECTIVES FOR COLLEGE AND CAREER READINESS

- Provide focus in a specific area of study
- Allow for a variety of electives while providing a themed approach
- Demonstrate a commitment to an interest area
- Exhibit quality of depth of knowledge in selected pathway

WHAT THEMES ARE A PART OF PATHWAYS...

- School of Art
- School of Applied Consumer Sciences
- School of Business and Computer Science
- School of Communications (Ramapo)
- School of Information Technology and Cyber Security (Indian Hills)
- School of Music
- School of Theatre

Awards:

The Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting to the Ramapo Indian Hills Regional High School District for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2014. This was the first year that the District received this award. The Certificate of Excellence is a prestigious national award, recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded the Certificate of Excellence, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. The CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

Internal Accounting Controls: Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objects are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgements by management.

As a recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by District management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

Budgetary Controls: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital projects fund. The final budget amount is amended for the fiscal year and reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either cancelled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be re-appropriated are reported as reservations of fund balance at June 30, 2014.

Accounting System Reports: The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds. These funds are explained in "Notes to the Basic Financial Statements", Note 1.

Cash Management: The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Basic Financial Statements", Note 2. The District has adopted a cash management plan, which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect Governmental Units from loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

Risk Management: The Board carries various forms of insurance, including, but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

Independent Audit: State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Lerch, Vinci & Higgins LLP, 17-17 Route 208 N., Fair Lawn, New Jersey, was selected by the Board. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirement of the Single Audit Act Amendments of 1996 and the related OMB Circular A-133 and state Treasury Circular Letter 04-04 OMB. The auditors' report on the basic financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

Acknowledgements: We would like to express our appreciation to the members of the Ramapo Indian Hills Regional High School District Board of Education for their concern in providing fiscal responsibility to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

Respectfully submitted,

Beverly MacKay

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members
of the Board of Trustees
Ramapo Indian Hills Regional High School District
Oakland, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Ramapo Indian Hills Regional High School District as of and for the fiscal year ended June 30, 2014 and the related notes to the financial statements, which collectively comprise the Board of Education's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in the Government Auditing Standards, issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Ramapo Indian Hills Regional High School District as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Ramapo Indian Hills Regional High School District's basic financial statements. The introductory section, combining fund financial statements, financial schedules, statistical section, schedule of federal awards, schedule of expenditures of state financial assistance as required by New Jersey OMB Circular 04-04, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid, are presented for purposes of additional analysis and are not a required part of the basic financial statements of the Ramapo Indian Hills Regional High School District.

The combining fund financial statements, schedule of expenditures of federal awards and schedule of expenditures of state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining fund financial statements, schedules of expenditures of federal awards and state financial assistance are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section, financial schedules and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with Government Auditing Standards, we have also issued our report dated November 5, 2014 on our consideration of the Ramapo Indian Hills Regional High School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Ramapo Indian Hills Regional High School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

**RAMAPO INDIAN HILLS REGIONAL HIGH SCHOOL DISTRICT
OAKLAND, NEW JERSEY**

**Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2014**

This section of the Ramapo Indian Hills Regional High School District's comprehensive annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2014. Please read it in conjunction with the transmittal letter at the front of this report and the District's financial statements, which immediately follows this section.

The Management's Discussion and Analysis (MD&A) is an element of Required Supplementary Information specified in the Governmental Accounting Standard Board's (GASB) Statement No. 34 – Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments. Certain comparative information between the current year (2013-2014) and the prior year (2012-2013) is required to be presented in the MD&A.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2013-2014 fiscal year include the following:

- The assets and deferred outflows of resources of the Ramapo Indian Hills Regional High School District exceeded its liabilities at the close of the fiscal year by \$47,912,323 (net position).
- Overall revenues were \$54,415,109. General revenues accounted for \$47,243,439 or 87% of all revenues. Program specific revenues in the form of charges for services and grants and contributions accounted for \$7,171,670 or 13% of total revenues.
- The school district had \$53,165,054 in expenses for governmental activities; only \$5,980,771 of these expenses were offset by program specific charges, grants or contributions. General revenues (predominantly property taxes) of \$47,241,337 were adequate to provide for these programs.
- As of the close of the current fiscal year, the District's governmental funds reported a combined ending fund balance of \$17,812,873.
- The General Fund fund balance at June 30, 2014 was \$12,616,022 a decrease of \$1,608,778 when compared with the beginning balance at July 1, 2013.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial section of the annual report consists of four parts – Independent Auditor's Report, required supplementary information which includes the management's discussion and analysis (this section), the basic financial statements, and supplemental information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are district-wide financial statements that provide both short-term and long-term information about the District's overall financial status.

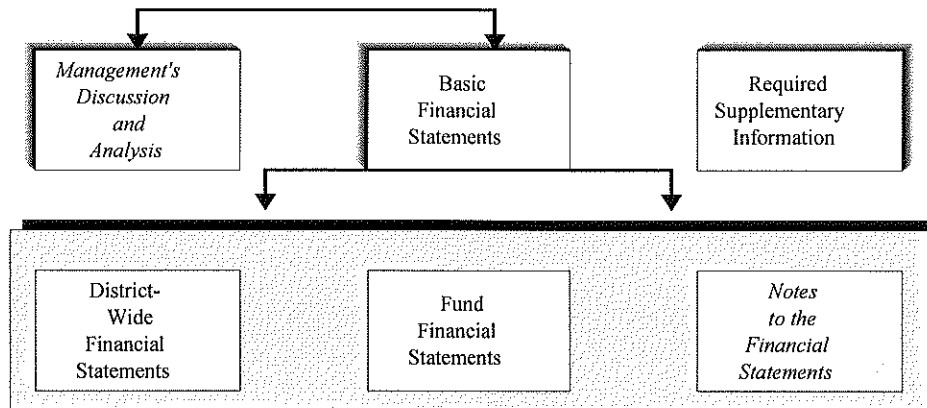

**RAMAPO INDIAN HILLS REGIONAL HIGH SCHOOL DISTRICT
OAKLAND, NEW JERSEY**

**Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2014**

- The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the district-wide statements.
 - The district governmental funds statements tell how basic services were financed in the short term as well as what remains for future spending.
 - Proprietary funds statements offer short-term and long-term financial information about the activities the district operated like businesses.
 - Fiduciary funds statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others to whom the resources belong.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

District-wide financial statements

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets, deferred outflows of resources and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the District's net position and how they have changed. Net position – the difference between the District's assets, deferred outflows of resources and liabilities – is one way to measure the District's financial health or position.

For the Fiscal Year Ended June 30, 2014**

District-wide financial statements (continued)

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating.
- To assess the overall health of the District you need to consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the district-wide financial statements the District's activities are shown in two categories:

- *Governmental activities* – Most of the District's basic services are included here, such as regular and special education, transportation, administration and plant operations and maintenance. Property taxes and state aids finance most of these activities.
- *Business type activities* – These funds are used to account for operations that are financed and operated in a manner similar to private business enterprises. The District's Food Service Fund and 1 to 1 Initiative (Laptop Insurance) Fund are included under this category.

Fund financial statements

The fund financial statements provide more detailed information about the District's funds – focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State law and bond covenants.
- The District establishes other funds to control and manage money for particular purposes or to show that it is properly using certain revenues (federal and state grants).

The District has three kinds of funds:

- *Governmental funds* – Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, we provide additional information at the bottom of the governmental funds statements that explains the relationship (or differences) between them.
- *Proprietary funds* – Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way in the fund financial statements as district-wide statements.

Fund financial statements (continued)

Enterprise Funds – This fund is established to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that costs of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges. The District currently has two enterprise funds.

- Food Service (Cafeteria)
- 1 to 1 Initiative (Laptop Insurance Program)

• *Fiduciary funds* – The District is the trustee, or fiduciary, for assets that belong to others. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the district-wide financial statements because the District cannot use these assets to finance its operations.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found following the basic financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget process. The District adopts an annual expenditure budget for the general, special revenue and debt service funds. A budgetary comparison statement has been provided for these funds as required supplementary information. The required supplementary information can be found following the notes to the financial statements.

Combining statements and schedules are presented immediately following the major budgetary comparisons.

DISTRICT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. In the case of the Ramapo Indian Hills Regional High School District, assets and deferred outflows of resources exceeded liabilities by \$47,912,323 as of June 30, 2014.

**RAMAPO INDIAN HILLS REGIONAL HIGH SCHOOL DISTRICT
OAKLAND, NEW JERSEY**

**Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2014**

By far the largest portion of the District's net position reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment); less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Governmental Activities. The District's total governmental activities' revenues, which includes State and Federal grants, were \$53,222,108 for the year ended June 30, 2014 an increase of \$47,838 or less than 1% over the previous year. Property taxes of \$46,496,271 represented 87% of revenues. Another significant portion of revenues came from State, Federal and Local aid; total State, Federal, Local and formula aid was \$5,817,172. Another source of revenues is miscellaneous income, which includes items such as rentals, prior year refunds, interest etc. The smallest component of revenues is charges for services, which includes tuition from other LEAs and individuals and transportation fees from individuals.

The total cost of all governmental activities programs and services was \$53,165,054. The District's expenses are predominantly related to educating and caring for students. Instruction totaled \$32,606,396 (61%) of total expenditures. Support services totaled \$19,593,102 or 37% of total expenditures. The remaining expenditures relate to interest and other charges on long-term debt which were \$965,556 or 2% of total expenditures.

Total governmental activities revenues surpassed expenses, increasing net position \$57,054 from the previous year.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds as well. As the District completed the year, its governmental funds reported a combined fund balance of \$17,812,873. In 2012/2013, the fund balance was \$16,050,179. This increase is predominately attributable to a decrease in spending due to careful monitoring of the District's expenditures and the reserving of funds needed to fund future anticipated costs.

Revenues and other financing sources for the District's governmental funds were \$55,894,194, while total expenses were \$54,131,500.

General Fund - The General Fund is the chief operating fund of the District and includes the primary operations in providing educational services to students from grades 9-12 including pupil transportation activities and other support services.

The following schedule presents a summary of General Fund Revenues.

	Fiscal Year Ended <u>June 30, 2014</u>	Fiscal Year Ended <u>June 30, 2013</u>	Amount of Increase (Decrease)	Percent Change
Local Sources				
Property Tax Levy	\$ 44,761,456	\$ 43,920,582	\$ 840,874	2%

Total General Fund Revenues	<u>\$ 50,605,019</u>	<u>\$ 50,260,363</u>	<u>\$ 344,656</u>	1%

Total General Fund Revenues increased by \$344,656 or less than 1% compared with the previous year.

Local property taxes remained stable increasing approximately 2% from the previous year. State aid revenues decreased \$405,482 or 8% predominantly attributable to the decrease in the State's contribution for on-behalf TPAF pension system accrued liability costs.

**Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2014**

Miscellaneous revenues decreased due to the decrease in prior payables cancelled and insurance/other refunds compared to the prior year.

Interest income revenues increased slightly due to an incline in the market interest rate on deposits and increased available cash balances.

Tuition revenues increased slightly due to a change in enrollment of students received from outside the District.

The following schedule presents a summary of General Fund expenditures.

	Fiscal Year Ended <u>June 30, 2014</u>	Fiscal Year Ended <u>June 30, 2013</u>	Amount of Increase <u>(Decrease)</u>	Percent <u>Change</u>
Instruction	\$ 31,181,714	\$ 28,837,417	\$ 2,344,297	8%

Capital Outlay	<u>137,570</u>	<u>322,108</u>	<u>(184,538)</u>	-57%
 Total Expenditures	 <u>\$ 50,496,974</u>	 <u>\$ 47,059,086</u>	 <u>\$ 3,437,888</u>	 7%

Total General Fund expenditures increased \$3,437,888 or 7% from the previous year. The District experienced increases in the area of instructional expenditures largely related to a one time expenditure for the acquisition of computer supplies, which will be funded over a year period.

In 2013-2014 General Fund expenditures and other financing uses exceeded revenues and other financing sources by \$1,608,778. As a result, total fund balance decreased to \$12,616,022 at June 30, 2014. After deducting statutory transfers and reserves, the unassigned fund balance increased from \$843,676 at June 30, 2013 to \$944,596 at June 30, 2014.

Special Revenue Fund - The Special Revenue Fund includes all restricted Federal, State and Local sources utilized in the operations of the district in providing educational services to students with special needs.

Revenues of the Special Revenue Fund were \$688,305, for the year ended June 30, 2014. Federal sources accounted for the majority of Special Revenue Fund's revenue, which represented 78% of the total revenue for the year.

Total Special Revenue Fund revenues increased \$12,562 or 2% from the previous year. Federal sources increased \$48,944 or 10%, State sources increased \$9,698 or 27% and local sources decreased \$46,080 or 31%.

Expenditures of the Special Revenue Fund were \$688,305. Instructional expenditures accounted for \$450,437 or 65% of the expenditures for the year ended June 30, 2014, while support services of \$237,868 accounted for 35% of the expenditures.

**Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2014**

Capital Projects - The capital projects revenues and other financing sources exceeded expenditures by \$3,371,472 resulting in a remaining fund balance of \$5,196,851 at June 30, 2014. The fund balance mostly represents the unexpended local share of capital projects approved by the Board.

Proprietary Funds

The District maintains an Enterprise Fund to account for activities, which are supported in part through user fees.

Enterprise Fund - The District use an Enterprise Fund to report activities related to the Food Services and 1 to 1 initiative (laptop insurance) programs. The District's Enterprise Fund provides the same type of information found in the district-wide financial statements, business-type activities, but in more detail. Factors concerning the finances of this Fund have already been addressed in the discussion of the District's business-type activities.

GENERAL FUND BUDGETARY HIGHLIGHTS

The District's budget is prepared according to New Jersey Department of Education guidelines, and is based on accounting for certain transactions on the basis of cash receipts, disbursements and encumbrances. The most significant budgetary fund is the General Fund.

Over the course of the year, the District revised the annual operating budget several times. These budget amendments fall into two categories

- Implementing budgets for specially funded projects, which include both federal and State grants, and reinstating prior year purchase orders being carried over.
- Increases in appropriations for the funding of capital projects approved in the Long-Range Facilities Plan.

CAPITAL ASSETS

The District's investment in capital assets for its governmental and business type activities as of June 30, 2014 amounts to \$55,132,354 (net of accumulated depreciation). The capital assets consist of land, land improvements, construction in progress, buildings, building improvements, computers, specialized machinery and various other types of equipment. Depreciation charges for fiscal year 2013-2014 amounted to \$2,136,224 for governmental activities and \$13,714 for business-type activities.

LONG TERM LIABILITIES

At year end, the District's long-term liabilities consisted of compensated absences payable of \$2,352,767, obligations under capital leases of \$1,989,093 and bonds payable of \$21,215,000.

Additional information of the District's long-term liabilities is presented in the "Notes to the Financial Statements" of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

Currently, the District is in good financial condition. Everyone associated with Ramapo Indian Hills Regional High School is grateful for the community support.

Many factors were considered by the District's administration during the process of developing the fiscal year 2013-2014 budget. The primary factors were the District's projected student population, anticipated state and federal aid as well as increasing salary and related benefit costs.

These indicators were considered when adopting the budget for fiscal year 2014-2015. Budgeted expenditures in the General Fund increased 3.5 percent to \$50,553,033 for fiscal year 2014-2015.

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF
REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES
WITH THE DISTRICT-WIDE STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

Total Net Change in Fund Balances - Governmental Funds (Exhibit B-2) \$ 1,762,694

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are allocated over their estimated useful lives as annual depreciation expense. This is the amount by which depreciation exceeds capital outlays in the current period.

Capital Outlays	\$ 1,348,976	
Depreciation Expense	<u>(2,136,224)</u>	(787,248)

The net effect of various miscellaneous transactions involving capital assets (i.e. disposals, donations) is to increase net position. These transactions are not reported in the governmental fund financial statements

Capital Assets Donated		12,385
------------------------	--	--------

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Issuance of Capital Lease		(2,684,471)
Bonds Principal	830,000	
Capital Lease Principal	695,378	
Accrued Liability for Insurance Claims	<u>310,722</u>	1,836,100

In the statement of activities, costs related to the issuance of long term debt are deferred and amortized over the term of the debt. In the governmental funds, the issuance costs are reported upon issuance of the debt. This amount represents the current year amortization of the costs related to the issuance of long term debt in previous years. (See Note 2) (31,416)

In the statement of activities, certain operating expenses - compensated absences - are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (paid): When the earned amount exceeds the paid amount, the difference is a reduction in the reconciliation; when the paid amount exceeds the earned amount, the difference is an addition to the reconciliation. (21,665)

In the Statement of Activities, interest on long-term debt is accrued, regardless of when due. In the governmental funds, interest is reported when due. The decrease in accrued interest is an addition in the reconciliation. (29,325)

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Ramapo Indian Hills Regional High School District (the "Board" or the "District") is an instrumentality of the State of New Jersey, established to function as an education institution. The Board consists of nine elected officials and is responsible for the fiscal control of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District. Under existing statutes, the Board's duties and powers include, but are not limited to, the development and adoption of a school program; the establishment, organization and operation of schools; and the acquisition, maintenance and disposition of school property.

The Board also has broad financial responsibilities, including the approval of the annual budget and the establishment of a system of accounting and budgetary controls.

The reporting entity is composed of the primary government, component units, and other organizations that are included to ensure that the financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the Ramapo Indian Hills Regional High School District this includes general operations, food service, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Based on the foregoing criteria, the District has no component units. Furthermore, the District is not includable in any other reporting entity as a component unit.

B. New Accounting Standards

During fiscal year 2014, the District adopted the following GASB statement:

- GASB 66, *Technical Corrections – 2012, an Amendment of GASB Statements 10 and 62*. The objective of this Statement is to improve accounting and financial reporting for a governmental financial reporting entity by resolving conflicting guidance that resulted from the issuance of two pronouncements, Statements No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* and No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*.

Other accounting standards that the District is currently reviewing for applicability and potential impact on the financial statements include:

- GASB 68, *Accounting and Financial Reporting for Pensions*, will be effective beginning with the year ending June 30, 2015. The objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This Statement replaces the requirements of Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*, as well as the requirements of Statement No. 50, *Pension Disclosures*, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements that meet certain criteria.

B. New Accounting Standards (Continued)

- GASB 69, *Government Combinations and Disposals of Government Operations* will be effective beginning with the fiscal year ending June 30, 2015. The objective of this Statement is to establish accounting and financial reporting standards for mergers, acquisitions, and transfers of operations (i.e., government combinations). The Statement also provides guidance on how to determine the gain or loss on a disposal of government operations. This Statement applies to all state and local governmental entities. The District does not expect this statement to impact its financial statements.

C. Basis of Presentation - Financial Statements

The financial statements include both district-wide financial statements (based on the District as a whole) and fund financial statements (based on specific District activities or objectives). Both the district-wide and fund financial statements categorize activities as either governmental activities or business-type activities. While separate district-wide and fund financial statements are presented, they are interrelated. In the district-wide financial statements, the governmental activities column incorporates data from governmental funds while business-type activities incorporate data from the District's enterprise fund. Fiduciary funds are excluded from the district-wide financial statements.

District-Wide Financial Statements

The district-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Board of Education. All fiduciary activities are reported only in the fund financial statements. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by property taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. In the statement of net position, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, and (b) reflect on a full accrual economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or other governmental entities, including other school districts, who purchase, use, or directly benefit from goods or services provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Property taxes and other items not properly included among program revenues are reported instead as general revenues.

As a general rule the effect of interfund activity has been eliminated from the district-wide financial statements. Exceptions to this general rule are charges between the Board's proprietary and fiduciary funds since elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Fund Financial Statements

Separate fund financial statements are provided for governmental, proprietary, and fiduciary activities, even though the latter are excluded from the district-wide financial statements. The emphasis of fund financial statements is on major individual governmental and enterprise funds, each reported as separate columns in the fund financial statements. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. The District considers all of its governmental and food service - enterprise funds to be major funds.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Presentation - Financial Statements (Continued)

Fund Financial Statements (Continued)

The District reports the following major governmental funds:

The *general fund* is the School District's primary operating fund. It accounts for all financial resources of the District, except those to be accounted for in another fund.

The *special revenue fund* accounts for the proceeds of specific revenue sources legally restricted to expenditures for specified purposes. This fund accounts for federal, state and local financial programs, with the exception of grants for major capital projects.

The *capital projects fund* accounts for the proceeds from the sale of bonds, lease purchases and other revenues used for the acquisition or construction of capital facilities and other capital assets, other than those financed by the proprietary funds.

The *debt service fund* accounts for the accumulation of resources that are restricted, committed or assigned for the payment of principal and interest on long-term general obligation debt of governmental funds.

The District reports the following major proprietary fund which is organized to be self-supporting through user charges:

The *food service fund* accounts for the activities of the school cafeteria, which provides food service to students as well as a la carte and catering services for teachers and special events.

The District reports the following non-major proprietary fund, which is organized to be self-supporting through user charges:

The 1 to 1 *initiative (laptop insurance program) fund* accounts for the non-refundable deposits charged to students to repair and replenish the District's laptop computers provided to students as part of the 1 to 1 technology initiative program.

Additionally, the government reports the following fund type:

The *fiduciary trust fund* is used to account for resources legally held in trust for private donations for scholarship awards and agency fund. All resources of the fund, including any earnings on invested resources, may be used to support the intended purpose. There is no requirement that any portion of these resources be preserved as capital. The agency funds account for assets held by the District as an agent for student activities, payroll deductions and withholding and state unemployment insurance claims. The funds for the student activities fund are solely for noninstructional student activities and the school administration does not have management involvement. The funds for the state unemployment insurance claims funds are held to reimburse the State for unemployment benefits for terminated employees. The payroll funds are held to remit withholdings to respective state, federal and other agencies.

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the district-wide financial statements as "internal balances".

Reclassifications

Certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

D. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements with the exception of the agency fund which does not have a measurement focus. All assets, all liabilities and all deferred outflows/inflows of resources associated with these operations (with the exception of the fiduciary funds) are included on the Statement of Net Position. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when susceptible to accrual (i.e. when they are both measurable and available). Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Board considers revenues to be available if they are collected within 60 days after year-end. Expenditures are recorded when a liability is incurred, as under accrual basis of accounting, with the exception of debt service expenditures as well as expenditures related to compensated absences and claims and judgments which are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, tuition, unrestricted state aid, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements (formula-type grants and aid) are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source. Expenditure-driven grants and similar awards (reimbursement-type grants and awards) are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements imposed by the grantor or provider have been met, and the amount is received during the period or within the availability period for this revenue source. All other revenue items are considered to be measurable and available only when cash is received by the District.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities, Deferred Outflows of Resources, and Net Position/Fund Balance

1. Cash, Cash Equivalents and Investments

Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments are reported at fair value and are limited by N.J.S.A. 18A:20-37.

2. Receivables

All receivables are reported at their gross value, and where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

3. Inventories

The cost of inventories of the governmental fund types are recorded as expenditures at the time individual inventory items are purchased.

Food Service Fund inventories are valued at cost, using the first-in first-out (FIFO) method and consist of food and expendable supplies. The cost of such inventories is recorded as expenses when consumed rather than when purchased.

4. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the district-wide financial statements. Capital assets are defined by the Board as assets with an initial, individual cost of \$2,000 and an estimated useful life in excess of two years. The District was able to estimate the historical cost for the initial reporting of these capital assets through back trending. As the District constructs or acquires additional capital assets each period, they are capitalized and reported at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend its useful life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities, Deferred Outflows of Resources, and Net Position/Fund Balance (Continued)

4. Capital Assets (Continued)

Land and construction in progress are not depreciated. The other property, plant, and equipment of the District, as well as the component units, is depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Improvements other than Buildings	20
Buildings	45
Building Improvements	20
Heavy Equipment	10
Office Equipment and Furniture	10
Computer Equipment	5

5. Deferred Outflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The government only has one item that qualifies for reporting in this category. It is the deferred amount on refunding of debt which results from the loss on a debt refunding reported in the district-wide statement of net position. A deferred amount on debt refunding results from the loss on the transaction when the debt's reacquisition price is greater than the carrying value of the refunded debt. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

6. Compensated Absences

It is the District's policy to permit employees to accumulate (with certain restrictions) earned but unused vacation and sick leave benefits. A long-term liability of accumulated vacation, sick leave and salary related payments has been recorded in the governmental activities in the district-wide financial statements, representing the Board's commitment to fund such costs from future operations. Proprietary Funds do not permit accrual. A liability is reported in the governmental funds only to the amount actually due at year end as a result of employee resignations and retirements.

7. Long-Term Obligations

In the district-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Gains resulting from debt refundings are classified as deferred inflows of resources and losses are reported as deferred outflows of resources. Bond premiums and discounts, are deferred and amortized over the life of the bonds using the effective interest method. Gains and losses resulting from debt refundings are also deferred and amortized over the life of the refunded bonds or new bonds whichever is less using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs (other than for prepaid insurance) are treated as an expense.

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

8. *Net Position/Fund Balance*

District-Wide Statements

In the district-wide statements, there are three classes of net position:

- **Net Investment In Capital Assets** – consists of net capital assets (cost less accumulated depreciation) reduced by outstanding balances of related debt obligations from the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources attributable to the acquisition, construction or improvement of those assets or related debt also should be included.
- **Restricted Net Position** – reports net position when constraints placed on the residual amount of noncapital assets are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.
- **Unrestricted Net Position** – any portion of net position not already classified as either net investment in capital assets or net position – restricted is classified as net position – unrestricted.

Governmental Fund Statements

Fund balance categories are designed to make the nature and extent of the constraints placed on the District's fund balance more transparent. These categories are comprised of a hierarchy based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources reported in governmental funds.

Restricted Fund Balance – Amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

Excess Surplus – Designated for Subsequent Year's Expenditures - This restriction was created in accordance with NJSA 18A:7F-7 to represent the June 30, 2013 audited excess surplus that was appropriated in the 2014/2015 original budget certified for taxes.

Excess Surplus – This restriction was created in accordance with NJSA 18A:7F-7 to represent the June 30, 2014 audited excess surplus that is required to be appropriated in the 2015/2016 original budget certified for taxes.

Capital Reserve – This restriction was created by the District in accordance with NJAC 6A:23A-14.1 to fund future capital expenditures (See Note 3B.)

Maintenance Reserve – This restriction was created by the Board in accordance with NJAC 6A:23A-14.2 to accumulate funds for the required maintenance of school facilities in accordance with the EFCA (NJSA 18A:7G-9) for a thorough and efficient education.

Emergency Reserve – This restriction was created in accordance with NJAC 6A:23A-14.4(A)1 to accumulate funds in accordance with State statute to finance unanticipated general fund expenditures required for a thorough and efficient education.

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

8. Net Position/Fund Balance (Continued)

Governmental Fund Statements (Continued)

Restricted Fund Balance (Continued)

Capital Projects – Represents fund balance restricted specifically for capital acquisitions and improvements in the Capital Projects Fund.

Assigned Fund Balance – Amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority.

Year-End Encumbrances – Represent outstanding purchase orders for goods or services approved by management for specific purposes from available resources of the current year for which the goods and materials have not yet been received or the services have not yet been rendered at June 30.

Designated for Subsequent Year's Expenditures – This designation was created to dedicate the portion of fund balance appropriated in the adopted 2014/2015 District budget certified for taxes.

Unassigned Fund Balance – Represents fund balance that has not been restricted, committed or assigned to specific purposes within the governmental funds.

In the general operating fund and other governmental funds (capital projects and debt service fund types), it is the District's policy to consider restricted resources to have been spent first when an expenditure is incurred for purposes for which both restricted and unrestricted (i.e., committed, assigned or unassigned) fund balances are available, followed by committed and then assigned fund balances. Unassigned amounts are used only after the other resources have been used.

9. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The Board of Trustees is the highest level of decision-making authority for the government that can, by adoption of a resolution or formal Board action prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The Board has authorized the School Business Administrator/Board Secretary to assigned fund balance. The Board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Revenues and Expenditures/Expenses

1. Program Revenues

Amounts reported as program revenues in the district-wide statement of activities include 1) charges to customers or applicants for goods or services, provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all property taxes, investment earnings and miscellaneous revenues.

2. Property Taxes

Property taxes are levied pursuant to law and are collected by each of the municipalities and are transferred to the District as requested. Property tax revenue is recognized in the year they are levied and become available. Property taxes collected in advance of the year-end for which they are levied and transferred to the District are reported as deferred inflows of resources. The tax bills are mailed annually in June by each of the municipalities' tax collector and are levied and due in four quarterly installments on August 1, November 1, February 1 and May 1 of the fiscal year. When unpaid, taxes or any other municipal lien, or part thereof, on real property, remains in arrears on April 1st in the year following the calendar year levy when the same became in arrears, the tax collector of the municipality shall, subject to the provisions of New Jersey Statute, enforce the lien by placing the property on a tax sale. The municipality may institute annual "in rem" tax foreclosure proceedings to enforce the tax collection or acquisition of title to the property.

3. Tuition Revenues and Expenditures

Tuition Revenues - Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs are determined and certified by the State Department of Education.

Tuition Expenditures - Tuition charges for the fiscal years 2012-2013 and 2013-2014 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been certified by the State Department of Education.

4. Proprietary Funds, Operating and Non-Operating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the food service enterprise fund and of the 1 to 1 initiative (laptop insurance) fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

NOTE 2 RECONCILIATION OF DISTRICT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of certain differences between the governmental fund balance sheet and the district-wide statement of net position

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds and net position – governmental activities as reported in the district-wide statement of net position. One element of that reconciliation explains that “long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.” The details of this (\$25,632,348) difference are as follows:

Bonds Payable	\$ (21,215,000)
Add: Issuance Premium (to be amortized as interest expense)	(75,488)
Obligations Under Capital Lease	(1,989,093)
Compensated Absences	<u>(2,352,767)</u>
 Net adjustment to reduce fund balance - total governmental funds to arrive at net position - governmental activities	 \$ <u>(25,632,348)</u>

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the district-wide statement of activities

Another element of that reconciliation states that “Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds”. The details of this \$(31,416) difference are as follows:

Amortization of deferred charge on refunding	\$(40,452)
Amortization of original bond premiums	<u>9,036</u>
 Net adjustment to decrease net changes in fund balances – total governmental funds to arrive at changes in net position of governmental activities	 <u>\$(31,416)</u>

NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

In accordance with the requirements of the New Jersey Department of Education (“the Department”), the District annually prepares its operating budget for the forthcoming year. The budget, except for the general fund and special revenue fund, which is more fully explained below and in the notes to the required supplementary information, is prepared in accordance with accounting principles generally accepted in the United States of America and serves as a formal plan for expenditures and the proposed means for financing them. Capital lease transactions are accounted for on the GAAP basis.

**RAMAPO INDIAN HILLS REGIONAL HIGH SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

A. Budgetary Information (Continued)

The annual budget is adopted in the spring of the preceding year for the general, special revenue and debt service funds. The District is not required to adopt an annual budget for the capital projects fund. The budget is submitted to the county superintendent for review and approval prior to adoption. Prior to the 2013/2014 budget year, the annual budget was required to be voted upon at the annual school election held on the third Tuesday in April. On January 17, 2012, Chapter 202 of the Laws of P.L. 2011 was approved which established procedures for moving the date of a school district's annual school election from April to the general election in November. Under the new law, districts that have their school board members elected in November no longer have to submit their budgets that meet levy cap requirements for voter approval beginning with the 2012/2013 budget year. Only a school board decision to exceed the tax levy cap would require voter approval for the additional amount on the November ballot. On February 15, 2012, the Board adopted a resolution to move its annual election to the date of the general elections in accordance with the law; therefore voter approval of the annual budget is not required.

Budget adoptions and amendments are recorded in the District's board minutes. The budget is amended by the Board of Trustees as needed throughout the year. The budget for revenues, other resources, other uses, and fund balances is prepared by fund source and amount. The budget for expenditures is prepared by fund, program, function, object and amount. The legal level of budgetary control is established at the line item account within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. The Board approved several budget transfers during 2013/2014. Also, during 2013/2014 the Board increased the original general fund budget by \$4,549,382 and the original special revenue budget by \$396,954. The increase in the general fund budget was funded by capital reserve withdrawals and the reappropriation of prior year general fund encumbrances. The increase in the special revenue budget was funded by additional grant awards.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America, with the exception of the legally mandated revenue recognition of certain state aid payments for budgetary purposes only and the treatment of encumbrances in the special revenue fund as described in the Notes to Required Supplementary Information (RSI). Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

Encumbrance accounting is employed in the governmental funds. Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as committed and/or assigned fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services which are reappropriated and honored during the subsequent fiscal year.

B. Capital Reserve

A capital reserve account was established by the District on September 25, 2000. The accumulation of funds will be used for capital outlay expenditures in subsequent fiscal years. The capital reserve is maintained in the general fund and its activity is included in the general fund annual budget.

**RAMAPO INDIAN HILLS REGIONAL HIGH SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

B. Capital Reserve (Continued)

Funds placed in the capital reserve are restricted to capital projects in the district’s approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the Department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end of any unanticipated revenue or unexpended line-item appropriation amounts or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6:23A-14.1(g), the balance in the reserve cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the fiscal year ended June 30, 2014 is as follows:

Balance, July 1, 2013		\$ 6,144,818
Increased by		
Interest earnings	\$ 10,000	
Deposits Approved by the Board Resolution	<u>2,196,514</u>	
Total Increases		2,206,514
Withdrawals		
Approved by Board Resolution	<u>(3,421,210)</u>	
Total Withdrawals		<u>(3,421,210)</u>
Balance, June 30, 2014		\$ <u>4,930,122</u>

The June 30, 2014 LRFP balance of local support costs of uncompleted capital projects is \$12,697,906. The withdrawals from the capital reserve were for use in department approved facilities projects, consistent with the district’s Long Range Facilities Plan.

C. Calculation of Excess Surplus

In accordance with N.J.S.A. 18A:7F-7, as amended, the restricted fund balance for Reserved Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund fund balance in excess of 2% of budget expenditures at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent year’s budget. The excess fund balance at June 30, 2014 is \$3,900,000. Of this amount, \$2,100,000 was designated and appropriated in the 2014/2015 original budget certified for taxes and the remaining amount of \$1,800,000 will be appropriated in the 2015/2016 original budget certified for taxes.

NOTE 4 DETAILED NOTES ON ALL FUNDS

A. Cash Deposits and Investments

Cash Deposits

The Board's deposits are insured through either the Federal Deposit Insurance Corporation (FDIC), Securities Investor Protection Corporation (SIPC) or New Jersey's Governmental Unit Deposit Protection Act (GUDPA). The Board is required to deposit their funds in a depository which is protecting such funds pursuant to GUDPA. The New Jersey Governmental Unit Deposit Protection Act requires all banks doing business in the State of New Jersey to pledge collateral equal to at least 5% of the average amount of its public deposits and 100% of the average amount of its public funds in excess of the lesser of 75% of its capital funds or \$200 million for all deposits not covered by the FDIC.

Bank balances are insured up to \$250,000 in the aggregate by the FDIC for each bank. SIPC replaces cash claims up to a maximum of \$250,000 for each failed brokerage firm. At June 30, 2014, the book value of the Board's deposits were \$18,799,179 and bank and brokerage firm balances of the Board's deposits amounted to \$20,709,296. The Board's deposits which are displayed on the various fund balance sheets as "cash" are categorized as:

Depository Account

Insured	\$ 20,684,085
Uninsured and Collateralized	
Cash with Fiscal Agent	<u>25,211</u>
	<u>\$ 20,709,296</u>

Custodial Credit Risk – Deposits – Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The Board does not have a policy for custodial credit risk. As of June 30, 2014 the Board's bank balance of \$25,211 was exposed to custodial credit risk as follows:

Depository Account

Uninsured and Collateralized	
Collateral held by pledging financial institution's trust department not in the Board's name	<u>\$ 25,211</u>

Investments

The Board is permitted to invest public funds in accordance with the types of securities authorized by N.J.S.A. 18A:20-37. Examples of the allowable investments are bonds or other obligations of the United States or obligations guaranteed by the United States of America, Government Money Market Mutual Funds, bonds or other obligations of the school district or bonds or other obligations of the local unit or units within which the school district is located, Local Government investment pools, and agreements or the repurchase of fully collateralized securities, if transacted in accordance with the above statute.

As of June 30, 2014, the Board had no outstanding investments.

For the governmental activities, the liabilities for compensated absences and accrued liability for insurance claims are generally liquidated by the general fund.

NOTE 5 OTHER INFORMATION

A. Risk Management

The District is exposed to various risks of loss related to property, general liability, automobile coverage, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; student accident; termination of employees and natural disasters. The Board has obtained commercial insurance coverage to guard against these events to minimize the exposure to the District should they occur. A complete schedule of insurance coverage can be found in the statistical section of this Comprehensive Annual Financial Report. The District had previously established a self-insured group health benefits plan for its employees. Transactions related to the plan were accounted for in the General Fund. The District funds the entire cost of the plan. Claims were paid directly by the plan. Effective July 1, 2013, the District converted to a traditional premium policy. All liabilities and claims associated with previous self-insured minimum premium policies were paid in full as of June 30, 2014.

 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

NOTE 5 OTHER INFORMATION

A. Risk Management (Continued)

The District is a member of the New Jersey School Boards Association Insurance Group (NJSBAIG). The Group is a risk sharing public entity pool, established for the purpose of insuring against worker's compensation claims and various other types of coverage.

The relationship between the Board and the insurance fund is governed by a contract and by-laws that have been adopted by resolution of each unit's governing body. The Board is contractually obligated to make all annual and supplementary contributions to the fund, to report claims on a timely basis, cooperate with the management of the fund, its claims administrator and attorneys in claims investigation and settlement, and to follow risk management procedures as outlined by the fund. Members have a contractual obligation to fund any deficit of the fund attributable to a membership year during which they were a member.

The NJSBAIG provides its members with risk management services, including the defense of and settlement of claims and to establish reasonable and necessary loss reduction and prevention procedures to be followed by the members. Complete financial statements of the respective insurance funds are on file with the School's Business Administrator.

There has been no significant reduction in insurance coverage from the previous year nor have there been any settlements in excess of insurance coverage's in any of the prior three years.

The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's fiduciary trust fund for the current and previous two years:

<u>Fiscal Year Ended June 30,</u>	<u>District Contributions</u>	<u>Employee Contributions</u>	<u>Amount Reimbursed</u>	<u>Ending Balance</u>
2014	\$ 175,000	\$ 63,460	\$ 87,818	\$ 721,632
2013	175,000	52,418	72,890	567,904
2012	150,000	51,023	86,521	411,255

B. Contingent Liabilities

The District is a party defendant in some lawsuits, none of a kind unusual for a school district of its size and scope of operation. In the opinion of the Board's Attorney the potential claims against the District not covered by insurance policies would not materially affect the financial condition of the District.

Federal and State Awards – The Board participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the Board may be required to reimburse the grantor government. As of June 30, 2014, significant amounts of grant expenditures have not been audited by the various grantor agencies but the Board believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on any of the individual governmental funds or the overall financial position of the District.

NOTE 5 OTHER INFORMATION

C. Federal Arbitrage Regulations

The District is subject to Section 148 of the Internal Revenue Code as it pertains to the arbitrage rebate on all tax-exempt obligations, both long and short-term debt. Under the 1986 Tax Reform Act, the Internal Revenue Service (IRS) required that all excess earnings from investment proceeds be rebated to the IRS. Arbitrage, for purposes of these regulations, is defined as the difference between the yield on the investment and the yield on the obligations issued. If there are excess earnings, this amount may be required to be rebated to the IRS. At June 30, 2014, the District has not estimated its arbitrage earnings due to the IRS, if any.

D. Employee Retirement Systems and Pension Plans

The State of New Jersey sponsors and administers the following contributory defined benefit public employee retirement systems (retirement systems) covering substantially all eligible Board employees:

Public Employees' Retirement System (PERS) – Established in January 1955, under the provisions of N.J.S.A. 43:15A to provide coverage, including post-retirement health care, to substantially all full time employees of the State or any county, municipality, school district, or public agency provided the employee is not a member of another State-administered retirement system. Membership is mandatory for such employees and vesting occurs after 10 years of service for pension benefits and 25 years for post-retirement health care coverage. PERS is a cost sharing multi-employer defined benefit pension plan.

Teachers' Pension and Annuity Fund (TPAF) – Established in January 1955, under the provisions of N.J.S.A. 18A:66 to provide coverage including post-retirement health care to substantially all full time certified teachers or professional staff of the public school systems in the State. Membership is mandatory for such employees and vesting occurs after 10 years of service for pension benefits and 25 years for post-retirement health care coverage. TPAF is a cost sharing plan with special funding situations.

The State of New Jersey sponsors and administers the following defined contribution public employee retirement program covering certain state and local government employees which include those Board employees who are eligible for pension coverage.

Defined Contribution Retirement Program (DCRP) – established under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2008 to provide coverage to elected, certain appointed officials, and certain Board employees not eligible for enrollment in PERS or TPAF. Effective July 1, 2007, membership is mandatory for such individuals with vesting occurring after one (1) year of membership.

Other Pension Funds

The State established and administers a Supplemental Annuity Collective Trust Fund (SACT) which is available to active members of the State-administered retirement systems to purchase annuities to supplement the guaranteed benefits provided by their retirement system. The state or local government employers do not appropriate funds to SACT.

The cost of living increase for PERS and TPAF, are funded directly by each of the respective systems but are currently suspended as a result of reform legislation.

D. Employee Retirement Systems and Pension Plans (Continued)

Other Pension Funds (Continued)

According to state law, all obligations of each retirement system will be assumed by the State of New Jersey should any retirement system be terminated.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of each of the above systems. The financial reports may be accessed via the New Jersey, Division of Pensions and Benefits, website at www.state.nj.us/treasury/pensions.

Basis of Accounting

The financial statements of the retirement systems are prepared on the accrual basis of accounting. Employer contributions are recognized when payable to the retirement systems. Benefits or refunds are recognized when due and payable in accordance with the terms of the retirement systems.

Significant Legislation

P.L. 2011, c.78, effective June 28, 2011, made various changes to the manner in which TPAF and PERS operate and to the benefit provisions of those systems.

The legislation's provisions impacting employee pension and health benefits include:

- For new members of TPAF and PERS hired on or after June 28, 2011 (Tier 5 members), the years of creditable service needed for early retirement benefits increased from 25 to 30 years and the early retirement age increased from 55 to 65.
- The eligibility age to qualify for a service retirement in the TPAF and PERS increased from age 62 to 65 for Tier 5 members.
- It increased the TPAF and PERS active member rates from 5.5 percent of annual compensation to 6.5 percent plus an additional 1 percent phased-in over 7 years for members hired or reappointed on or after June 28, 2011. For Fiscal Year 2013, the member contribution rates increased in October 2011. The phase-in of the additional incremental member contributions for TPAF and PERS members takes place in July of each subsequent fiscal year.
- The payment of automatic cost-of-living adjustment (COLA) additional increases to current and future retirees and beneficiaries was suspended. COLA increases may be reactivated at a future date as permitted by this law.
- It changed the method for amortizing the pension system's unfunded accrued liability (from a level percent of pay method to a level dollar of pay method).

Investment Valuation

Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. The fair value of real estate investments is based on independent appraisals. Investments that do not have an established market are reported at estimated fair values.

Investment Valuation (Continued)

The State of New Jersey, Department of the Treasury, Division of Investment, issues publicly available financial reports that include the financial statements of the State of New Jersey Cash Management Fund. The financial reports may be obtained in writing to the State of New Jersey, Department of the Treasury, Division of Investment, P.O. Box 290, Trenton, New Jersey 08625-0290.

Funding Status and Funding Progress

As of July 1, 2012, the most recent actuarial valuation date, the aggregate funded ratio for all the State administered retirement systems including TPAF and PERS, is 64.5 percent with an unfunded actuarial accrued liability of \$47.2 billion. The aggregate funded ratio and unfunded accrued liability for the State-funded systems is 56.7 percent and \$34.4 billion, and the aggregate funded ratio and unfunded accrued liability for local PERS and Police and Firemen's Retirement System ("PFRS") is 76.1 percent and \$12.8 billion.

The funded status and funding progress of the retirement systems is based on actuarial valuations which involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. These amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the probability of future events.

Actuarial calculations reflect a long-term perspective and are based on the benefits provided under the terms of the retirement systems in effect at the time of each valuation and also consider the pattern of the sharing of costs between the employer and members at that point in time. The projection of benefits for financing reporting purposes does not explicitly incorporate the potential effects of legal or contractual limitations on the pattern of cost sharing between the employer and members in the future.

Actuarial Methods and Assumptions

In the July 1, 2012 actuarial valuation, the projected unit credit was used as the actuarial cost method, and the five year average of market value was used as the asset valuation method for the retirement systems. The actuarial assumptions included (a) investment rate of return for the retirement systems from 7.95 percent to 7.90 percent and (b) projected salary increases of 4.22 percent for the PERS and 3.51 percent for TPAF.

Employer and Employee Pension Contributions

The contribution policy is set by laws of the State of New Jersey and contributions are required by active members and participating employers. Plan member and employer contributions may be amended by State of New Jersey legislation with the amount of contributions by the State of New Jersey contingent upon the Annual Appropriations Act. As defined, the retirement systems require employee contributions based on 6.6% for PERS, 6.6% for TPAF and 5.50% for DCRP of the employee's annual compensation.

Annual Pension Costs (APC)

Per the requirements of GASB Statement No. 27, *Accounting for Pensions by State and Local Government Employees*, for the year ended June 30, 2014 for TPAF, which is a cost sharing plan with special funding situations, the annual pension cost differs from the annual required contribution. For PERS, which is a cost sharing multi-employer defined benefit pension plan, the annual pension cost equals contributions made. TPAF employer contributions are made annually by the State of New Jersey to the pension system on behalf of the Board. PERS employer contributions are made annually by the Board to the pension system in accordance with Chapter 114, P.L. 1997. In the DCRP, which is a defined contribution plan, member contributions are matched by a 3% employer contribution.

During the fiscal years ended June 30, 2014, 2013 and 2012 the Board was required to contribute for PERS and DCRP and the State of New Jersey was required to contribute for TPAF for normal cost pension and accrued liability contributions (including non-contributory group life insurance (NCGI)) the following amounts:

Fiscal Year Ended June 30,	PERS	On-behalf TPAF	DCRP
2014	\$ 426,980	\$ 790,024	\$ 18,286
2013	436,998	1,202,740	15,774
2012	474,649	588,752	6,948

During fiscal year 2013/2014 the State did not contribute to the TPAF for accrued liability but did contribute \$790,024 for normal cost pension and NCGI premium. For fiscal years 2012/2013 and 2011/2012, the state contributed \$1,202,740 and \$588,752, respectively for normal cost pension, accrued liability and the NCGI premium.

Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the Board \$1,296,961 during the year ended June 30, 2014 for the employer's share of social security contributions for TPAF members as calculated on their base salaries. This amount, along with the on-behalf TPAF pension contribution, has been included in the district-wide financial statements and the fund financial statements as a revenue and expenditure in accordance with GASB No. 24.

E. Post-Retirement Medical Benefits

The State of New Jersey sponsors and administers the post-retirement health benefit program plans for school districts. The Plans are classified as either single employer plans or cost sharing multiple employer defined benefit plans depending on the plan the eligible employee is covered under.

As a result of implementing Governmental Accounting Standards Board (GASB) Statement No. 43, *Financial Reporting for Post-employment Benefit Plans Other than Pension Plans* (OPEB), effective for Fiscal Year 2007, the State Health Benefits Program (SHBP), and the Prescription Drug Program (PDP), and Post-Retirement Medical (PRM) of the PERS and TPAF are combined and reported as Pension and Other employee Benefit Trust Funds in the State's Comprehensive Annual Financial Report (CAFR). Specifically, SHBP-State, and the PRM of the PERS are combined and reported as a Health Benefits Program Fund – State classified as a single employer plan. The SHBP-Local, PDP-Local, and the PRM of the TPAF-Local are combined and reported as Health Benefits Program Fund –Local Government classified as a cost-sharing multiple-employer plan in the State's CAFR. The post-retirement benefit programs had a total of 585 state and local participating employers and contributing entities for Fiscal Year 2013.

E. Post-Retirement Medical Benefits (Continued)

The State of New Jersey sponsors and administers the following health benefit programs covering certain state and local government employees, including those Board employees and retirees eligible for coverage.

Health Benefits Program Fund (HBP) – Local Education (including Prescription Drug Program Fund) – The State of New Jersey provides paid coverage to members of the Teachers' Pension and Annuity Fund who retire from a board of education or county college with 25 years of service or on a disability retirement. Under the provisions of P.L. 1992, c.126, the State also provides paid coverage to members of the Public Employees' Retirement System and Alternate Benefits Program who retire from a board of education or county college with 25 years of service or on a disability retirement if the member's employer does not provide this coverage. Certain local participating employers also provide post-retirement medical coverage to their employees. Retirees who are not eligible for state paid health coverage at retirement can continue in the program if their employer participates in this program or if they are participating in the health benefits plan of their former employer and are enrolled in Medicare parts A and B by paying the cost of the insurance for themselves and their covered dependents. Also, education employees are eligible for the PDP coverage after 60 days of employment.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of the above Fund. The financial reports may be accessed via the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, website at www.state.nj.us/treasury/pensions.

Basis of Accounting

The financial statements of the health benefit programs are prepared on the accrual basis of accounting. Employer contributions are recognized when payable to the health benefit programs. Benefits or refunds are recognized when due and payable in accordance with the terms of the health benefit programs.

Significant Legislation

P.L. 2011, c.78, effective October 2011, sets new employee contribution requirements towards the cost of employer-provided health benefit coverage. Employees are required to contribute a certain percentage of the cost of coverage. The rate of contribution is determined based on the employee's annual salary and the selected level of coverage. The increased employee contributions will be phased in over a 4-year period for those employed prior to this new legislation's effective date with a minimum contribution required to be at least 1.5% of salary.

Investment Valuation

Investments are reported at fair value. Investments that do not have an established market are reported at estimated fair values.

Funded Status and Funding Progress

As of July 1, 2012, the most recent actuarial valuation date, the State had a \$51.5 billion unfunded actuarial accrued liability for other post-employment benefits (OPEB) which is made up to \$19.3 billion for state active and retired members and \$32.2 billion for education employees and retirees that become the obligation of the State of New Jersey upon retirement.

NOTE 5 OTHER INFORMATION (Continued)

E. Post-Retirement Medical Benefits (Continued)

Funded Status and Funding Progress (Continued)

The funded status and funding progress of the OPEB includes actuarial valuations which involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. These amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the probability of future events.

Actuarial calculations reflect a long-term perspective and are based on the benefits provided under the terms of the OPEB in effect at the time of each valuation and also consider the pattern of the sharing of costs between the employer and members at the point in time. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and members in the future.

Actuarial Methods and Assumptions

In the July 1, 2012, OPEB actuarial valuation, the projected unit credit was used as the actuarial cost method. The actuarial assumptions included an assumed investment rate of return of 4.50 percent.

Post-Retirement Medical Benefits Contributions

P.L. 1987, c. 384 and P.L. 1990, c.6 required the Teachers' Pension and Annuity Fund (TPAF) and Public Employees' Retirement System (PERS), respectively to fund post-retirement medical benefits for those State employees and education employees who retire after accumulating 25 years of credited service or on a disability retirement. As of June 30, 2013, there were 100,134, retirees receiving post-retirement medical benefits and the State contributed \$1.07 billion on their behalf. The cost of these benefits is funded through contributions by the State and in accordance with P.L. 1994, c.62. Funding of post-retirement medical benefits changed from a pre-funding basis to a pay-as-you-go basis beginning in Fiscal Year 1994.

The State is also responsible for the cost attributable to P.L. 1992, c.126, which provides paid health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$173.8 million toward Chapter 126 benefits for 17,356 eligible retired members in Fiscal Year 2013.

The State sets the contribution rate based on a pay as you go basis and not on the annual required contribution of the employers (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The State's contributions to the State Health Benefits Program Fund for TPAF retirees' post-retirement benefits on behalf of the School District for the years ended June 30, 2014, 2013 and 2012 were \$1,295,343, \$1,359,995, and \$1,183,547, respectively, which equaled the required contributions for each year. The State's contributions to the State Health Benefits Program Fund for PERS retirees' post-retirement benefits on behalf of the School District was not determined or made available by the State of New Jersey.

The State's contributions for TPAF retirees' post-retirement benefits on behalf of the school district have been included in the government-wide financial statements and the fund financial statements as a revenue and expenditure in accordance with GASB No. 24.

BUDGETARY COMPARISON SCHEDULES
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America, with the exception of the legally mandated revenue recognition of certain state aid payments for budgetary purposes only and the treatment of encumbrances in the special revenue fund as described below. Encumbrance accounting is also employed as an extension of formal budgetary integration of the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the Special Revenue Funds are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The following presents a reconciliation of the General and Special Revenue Funds from the budgetary basis of accounting as presented in the Budgetary Comparison Schedule - General Fund and Special Revenue Fund to the GAAP basis of accounting as presented in the Statement of Revenues, Expenditures and Changes in Fund Balance - Governmental Funds.

	<u>General Fund</u>	<u>Special Revenue Fund</u>
Sources/inflows of resources		
Actual amounts (budgetary basis) "revenue" from the budgetary comparison schedule	\$ 50,571,119	\$ 688,305
Difference - budget to GAAP:		
The State aid payments are recognized as revenue for budgetary purposes. This differs from GAAP which does not recognize this revenue until the subsequent year when the State recognizes the related expenditure (GASB No. 33)		
State Aid payment for Categorical Aid recognized for GAAP purposes not recognized for budgetary statements (2012/2013 Aid)	64,662	
State Aid payment for Extraordinary Aid recognized for GAAP purposes not recognized for budgetary statements (2012/2013 Aid)	315,671	
State Aid payments recognized for budgetary purposes not recognized for GAAP statements (2013/2014 State Aid)	(52,302)	
State Aid payment for Extraordinary Aid recognized for budgetary purposes not recognized for GAAP statements (2013/2014 Aid)	<u>(294,131)</u>	<u>-</u>
Total revenues as reported on the statement of revenues, expenditures and changes in fund balances - governmental funds. (Exhibit B-2)	<u>\$ 50,605,019</u>	<u>\$ 688,305</u>
Uses/outflows of resources		
Actual amounts (budgetary basis) "total outflows" from the budgetary comparison schedule	<u>\$ 50,496,974</u>	<u>\$ 688,305</u>
Total expenditures as reported on the statement of revenues, expenditures, and changes in fund balances - governmental funds (Exhibit B-2)	<u>\$ 50,496,974</u>	<u>\$ 688,305</u>

Beginning with Fiscal Year 2012, the District implemented GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions". The Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. This Statement established fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Reclassification of prior year fund balance amounts to comply with Statement No. 54 is not required.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members
of the Board of Trustees
Ramapo Indian Hills Regional High School District
Oakland, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States and audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Ramapo Indian Hills Regional High School District as of and for the fiscal year ended June 30, 2014 and the related notes to the financial statements, which collectively comprise the Ramapo Indian Hills Regional High School District's basic financial statements and have issued our report thereon dated November 5, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Ramapo Indian Hills Regional High School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Ramapo Indian Hills Regional High School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Ramapo Indian Hills Regional High School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Ramapo Indian Hills Regional High School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

We noted a certain matter that we reported to management of the Ramapo Indian Hills Regional High School District in a separate report entitled, "Auditor's Management Report on Administrative Findings – Financial, Compliance and Performance" dated November 5, 2014.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Ramapo Indian Hills Regional High School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Ramapo Indian Hills Regional High School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAM;
REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT
ON THE SCHEDULE OF EXPENDITURES OF STATE FINANCIAL
ASSISTANCE AS REQUIRED BY NEW JERSEY OMB CIRCULAR 04-04**

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members
of the Board of Trustees
Ramapo Indian Hills Regional High School District
Oakland, New Jersey

Report on Compliance for Each Major Federal and State Program

We have audited the Ramapo Indian Hills Regional High School District's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement and the New Jersey OMB Circular 04-04 State Aid/Grant Compliance Supplement that could have a direct and material effect on each of the Ramapo Indian Hills Regional High School District's major federal and state programs for the fiscal year ended June 30, 2014. The Ramapo Indian Hills Regional High School District's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Ramapo Indian Hills Regional High School District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; U.S. OMB Circular A-133, Audits of States, Local Governments and Non-Profit Organizations and New Jersey OMB Circular 04-04, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Those standards and Circulars require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the Ramapo Indian Hills Regional High School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the Ramapo Indian Hills Regional High School District's compliance.

Opinion on Each Major State Program

In our opinion, the Ramapo Indian Hills Regional High School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the fiscal year ended June 30, 2014.

Report on Internal Control Over Compliance

Management of the Ramapo Indian Hills Regional High School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Ramapo Indian Hills Regional High School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with U.S. OMB Circular A-133 and New Jersey OMB Circular 04-04, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Ramapo Indian Hills Regional High School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of U.S. OMB Circular A-133 and New Jersey OMB Circular 04-04. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by U.S. OMB Circular A-133 and Schedule of Expenditures of State Financial Assistance Required by New Jersey OMB Circular 04-04

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Ramapo Indian Hills Regional High School District as of and for the fiscal year ended June 30, 2014 and the related notes to the financial statements, which collectively comprise the Board of Education's basic financial statements. We issued our report thereon dated November 5, 2014, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards as required by U.S. OMB Circular A-133 and schedule of expenditures of state financial assistance as required by New Jersey OMB Circular 04-04 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards and schedule of expenditures of state financial assistance are fairly stated in all material respects in relation to the basic financial statements as a whole.

**RAMAPO INDIAN HILLS REGIONAL HIGH SCHOOL DISTRICT
NOTES TO THE SCHEDULES OF EXPENDITURES OF
FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE
FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

NOTE 1 GENERAL

The accompanying schedules present the activity of all federal and state financial assistance programs of the Ramapo Indian Hills Regional High School District. The Board of Education is defined in Note 1(A) to the Board's financial statements. All federal financial assistance received directly from federal agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financial assistance.

NOTE 2 BASIS OF ACCOUNTING

The accompanying schedules are prepared and presented using the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Notes 1(C) to the Board's financial statements. The information in these schedules is presented in accordance with requirements of U.S. OMB Circular A-133, "Audits of States, Local Governments and Non-Profit Organizations" and New Jersey OMB Circular 04-04, "Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid". Therefore, some amounts presented in these schedules may differ from the amounts presented in, or used in the preparation of, the financial statements.

NOTE 3 RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on a modified accrual basis with the exception of the revenue recognition of the delayed state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2.. For GAAP purposes, those payments are not recognized until the subsequent year due to the state deferral and recording of certain state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, which may include the delayed state aid payments, whereas the GAAP basis does not. The special revenue fund also recognizes the delayed state aid payments in the current budget year, consistent with N.J.S.A. 18A:22-44.2.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is an increase of \$33,900 for the general fund. There is an adjustment necessary for the Special Revenue Fund. See the Notes to Required Supplementary Information for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's financial statements on a GAAP basis as presented as follows:

	<u>Federal</u>	<u>State</u>	<u>Total</u>
General Fund		\$ 4,934,898	\$ 4,934,898
Special Revenue Fund	\$ 538,381	45,608	583,989
Capital Projects Fund	-	181,584	181,584
Total Financial Assistance	<u>\$ 538,381</u>	<u>\$ 5,162,090</u>	<u>\$ 5,700,471</u>

NOTES TO THE SCHEDULES OF EXPENDITURES OF
FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE
FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

NOTE 4 RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules may not necessarily agree with the amounts reported in the related federal and state financial reports due to timing differences between the District's fiscal year and grant program years.

NOTE 5 OTHER INFORMATION

TPAF Social Security contributions in the amount of \$1,296,961 represents the amount reimbursed by the State for the employer's share of social security contributions for TPAF members for the fiscal year ended June 30, 2014. The amount reported as TPAF Pension System Contributions in the amount of \$790,024 and TPAF Post-Retirement Medical Benefits Contributions in the amount of \$1,295,343 represents the amount paid by the State on behalf of the District for the fiscal year ended June 30, 2014.

NOTE 6 ON-BEHALF PROGRAMS NOT SUBJECT TO STATE SINGLE AUDIT

On-behalf State Programs for TPAF Pension and Post-Retirement Medical Benefits Contributions are not subject to a State single audit and, therefore, are excluded from major program determination. The Schedule of State Financial Assistance provides a reconciliation of State financial assistance reported in the District's basic financial statements and the amount subject to State single audit and major program determination.

AND QUESTIONED COSTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

This section identifies the status of prior-year findings related to the basic financial statements and federal and state awards that are required to be reported in accordance with Chapter 6.12 of *Government Auditing Standards*, U.S. OMB Circular A-133 (section .315(a)(b)) and New Jersey OMB's Circular 04-04.

STATUS OF PRIOR YEAR FINDINGS

Finding 2013-1

Our audit of the District's Extraordinary Aid Application noted four instances where the support and educational costs reported were not based on the District in which the student attends school or alternatively the percentage(s) provided from the State Department of Education. In addition, one instance where service for Extended School Year reported on Application was not identified as received in student's Individualized Education Plan ("IEP").

Current Status

Corrective action has been taken.
