

(This template may be modified, but all headings must be used in the correct order. The FCCLA logo, STAR Events logo, and Planning Process graphics are encouraged but not required.)

IDENTIFY CONCERNS

Teaching how to make chocolate chip cookies safely is important because it demonstrates food safety practices. It teaches how to use safe ingredients and follow proper hygiene guidelines.

SET A GOAL

My goal was to create an instructional video on how to make chocolate chip cookies using a KitchenAid safely by January 28th.

FORM A PLAN (WHO, WHAT, WHEN, WHERE, HOW, COST, RESOURCES, AND EVALUATION)

Who- Me (Harmony Kincaid)

What- Create an instructional video on how to make chocolate chip cookies safely.

When- December 29th

Where- My aunt's house

How- Record myself making cookies in her large kitchen.

Cost- I bought all the ingredients, around \$30

Recourses- Internet, Aunt, mother, grocery store (shopping)

Evaluation- National FCCLA STAR event competition and evaluation on outcome of cookies.

ACT

- Grocery shopping
- Research good recipes to use
- Testing out recipes at FCCLA meeting and having chapter members taste them
- Selecting a final recipe
- Talking to my aunt for a plan to use her kitchen
- Setting a date
- Running planning process and details by my chapter advisor
- Recording video
- Editing video
- Met with tech contact at my school
- Turn necessary documents to PDF
- Post the video and necessary documents

FOLLOW UP

This project taught middle school students how to avoid the dangers of using a KitchenAid while learning how to make chocolate chip cookies. My advisor used it in her 6th grade class to demonstrate how to use a KitchenAid and got their opinion on it before I posted it to the website. I also sent a thank you card to my aunt for letting me use her kitchen and my mother for transporting me to the grocery store and to my aunt's house.
