2023-2024 School Accountability Report Card

(Published During the 2024-2025 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state’s high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/ .

2024-25 School Description and Mission Statement

Paradise Valley Engineering Academy is a learning community of students, staff, parents and professional educators who share the belief that all children can learn and should find joy in the discovery of knowledge. At Paradise Valley Engineering Academy, we believe that a nurturing and supportive environment is key to meeting the needs of our students. We are a child-centered, inclusive school. Our goal is to instill learning mindsets that are creative, flexible and rigorous. We highlight the engineering design process-- Imagine, Create, Test and Reflect, in all subjects. We employ curricula that include embedded technology, focusing on the engineering design process. The quality education at PVEA emphasis the development of critical analytical skills- helping students embrace lifelong learning, contributing to our global society.

2024-25 School Description and Mission Statement

We believe in maintaining a strong partnership between parents, students, and teachers to ensure that all students develop the academic and social skills needed to achieve the high expectations set for them.

Our Vision: Paradise Valley Engineering Academy is devoted to developing passionate problem solvers by revolutionizing the way we educate our students. Utilizing the Engineering Design Process, students will construct their own learning with a growth mindset to take on future opportunities.

Our Mission: Our mission is to ensure high levels of learning for all students. High levels of learning means at grade level or higher.

We provide a strong Common Core aligned, standards-based curriculum along with our Engineering Design Process Thinking. We believe that all of our students will be successful. Our staff works relentlessly to provide students with the most appropriate academic, project-based learning experiences in all content areas. Envision Investigations is used for Mathematics and Wonders for English Language Arts. For Science, we use TWIG and for Social Studies we have adopted Houghton Mifflin as the curriculum of study. Our focus this year is to use data to drive instruction. We will use researched based models to ensure the success of all students. We will continue to support our English Language Learners within our differentiated (customized) language arts curriculum and through the use of project based learning opportunities. We use technology resources, GLAD, and SDAIE strategies to enhance the access to the curriculum for all students particularly with focus on our English Language Learner population. Grade level teams analyze data, plan, share, pedagogies/teaching strategies, and collaborate to provide students with enriching differentiated lessons that best support their learning styles.

Engineering Design Thinking is a focus at our school and we are continually designing engaging lessons that bring this thinking to all content areas. We have a state-of-the-art Design Lab/makerspace that serves all students one time per week in their Engineering class. This room is an amazing resource providing all grade levels with hands-on project based learning activities. All grade levels learn how to code, code robots, and build. Teachers use google apps for education, basic computer skills, and incorporate various technology programs to differentiate learning. It has five interactive student Activtables along with chromebooks for students to develop robots, and conduct coding investigations. Within each classroom, teachers and students share access to smart whiteboards, as well as, chromebooks to increase the interactivity of learning. Document cameras also support this effort. Our Transitional Kindergarten-5th grades have their own class set of chromebooks for use in all classroom settings. Technology integration, hands-on inquiry, and critical analysis skills are a big focus at Paradise Valley Engineering Academy to develop global citizenship. In order to support literacy, lower grade teachers were trained in Structured Literacy and use the Heggerty Phonics curriculum that is used in all Kindergarten through second grade classrooms. Students struggling with literacy are referred to our Reading Intervention teacher where they are given targeted, short term, literacy intervention at their level. This system is research based and proven to improve literacy achievement.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

School Facility Conditions and Planned Improvements

For over 30 years, Paradise Valley Elementary School has served as the neighborhood school for many students and was changed to Paradise Valley Engineering Academy. To support the engineering focus, a design lab and exploration center was constructed from 3 classrooms.

As part of the Measure G Bond funds, Paradise Valley was re-roofed, new HVAC units installed, student and staff restroom renovations, fire alarm system replacement and received a technology infrastructure upgrade which included WiFi in every classroom and exterior, a new phone system and a new public address system including new clock and speakers throughout the campus. A new administration office and multipurpose building with a stage were constructed within the existing pod classroom buildings. As part of the classroom technology upgrade, they received a new projection device in each of the classroom.

The site also received 7 new Gen 7 buildings and restroom for students and staff.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2022-23	School 2023-24	District 2022-23	District 2023-24	State 2022-23	State 2023-24

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2023-24 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2024-25 Opportunities for Parental Involvement

We have many ways for parents to participate at school and we recognize they are vital in ensuring the success of our community. Parents can join our School Site Council, which works with administration as an advisory committee for the school programs. Parents of English learners have the opportunity to learn about English Learner programs and participate in our English Language Advisory Committee (ELAC). PVEA's Home and School Club also supports many of the enrichment opportunities for students and helps fundraise for school wide programs/ activities such as field trips, science camp, classroom supplies, online licensing, etc. We believe in community building and our H&SC works collaboratively with school staff and administration as we offer movie nights, conduct the Panther Prowl Jog-a-Thon, Fall Festival, and many other fundraisers. We implement Project Cornerstone school-wide and believe in building the 41 developmental assets in our school community through classroom readings, school wide fun activities, dance parties, art projects, acts of kindness and student leadership. Each classroom at PVEA has room parents. Room parents organize parent volunteers to help with special projects in the classroom, planning events, and chaperone on field trips, etc. We have two Vice President's of Volunteer's on our Home and School Club board that helps organize parent volunteer efforts for all school related events. We ask all parents to attend Back-to-School Night in the fall, Open House in the spring, and parent-teacher conferences in November as well as various other school community events. We always need and welcome new volunteers!

2024-25 School Safety Plan

Staff members monitor our school grounds 15 minutes before and after school. Paid yard-duty monitors supervise the students at recess and lunch time. Teachers regularly review the rules and teach our core values of Kindness, Respect, Integrity and Perseverance. We are a fully gated school for extra security. The fence at the back of the school is locked all day (except during morning drop off and afternoon dismissal time). Visitors must enter the school through the main door and sign in at the office, where they receive a visitors' badge to wear throughout their stay. Our parent volunteers must be fingerprinted through the Morgan Hill Unified School District office Human Resource Department and are required to wear their volunteer badges

2024-25 School Safety Plan

when on campus helping with various activities or when chaperoning for field trips.

The school safety plan includes procedures for emergencies, exit routes, assigned roles in case of an emergency, as well as detailed information for those roles. We make the plan available in our school office for the community, each room has a copy of the plan in case of an emergency. The Morgan Hill Police Department has trained our staff on Run-Hide-Defend procedures. The staff has been trained on Incident Command System and several staff have been trained in medical first aid.

This year, Paradise Valley Engineering Academy has created a Climate and Culture team to review school wide safety and create a better system to continue to work towards a positive and inclusive environment. We are currently in the process of reviewing student behavior data and the data given by our Safety Team (Current and Retired Law Enforcement Officers) to find which areas we need to focus on for our school community to feel safe and a sense of belonging. School-wide PBIS focuses on the development and implementation of proactive procedures and practices to create a positive system where everyone feels valued and respected. We use tickets to reward student behavior and reinforce expectations positively. Every month students have the opportunity to access the "Panther Den" to exchange their earned Panther Pride tickets for fun rewards. In addition the PVEA community has a school wide implementation of Project Cornerstone 41 developmental assets. Parent volunteers/ Project Cornerstone ABC readers read theme based books for all students monthly and design activities around the 41 developmental assets for Project Cornerstone. Annual review, revision and approval of the safety plan was completed by the school site council in October 9, 2024.

Fiscal Year 2023-24 Types of Services Funded

Paradise Valley Engineering Academy does not receive Federal Title I funding, but our Title III LCAP funds are used to support our Multilingual students and those qualifying for Free/ Reduced lunch. Our School-Based Coordinated Program Funds are used to pay for classroom supplies, supplemental curriculum, books, professional development, yard duty, and costs associated with student success progress monitoring, intervention, and parent collaboration.

Our Home and School Club raises funds for helping support some of the classroom supplies, grade level field trips, 5th grade science camp, technology support programs, and special assemblies through our annual book fair, movie nights, and family events.

For a more detailed list of site level expenditures, please see our School Plan for Student Achievement which can be found on our school and district websites.

Professional Development

To address student needs, our staff is regularly provided professional development. Teachers meet in their Professional Learning Teams (PLT's) weekly to collaborate, disaggregate student assessment data, and to plan for classroom instruction. Teachers have been getting trained over the past year on Professional Learning Community's, data disaggregation, Inclusionary practices for all students, and social emotional learning in the classroom. This year teachers are being trained in math practices, best practices to increase student belonging (Climate and Culture work), and student engagement.
