2023-2024 School Accountability Report Card

(Published During the 2024-2025 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/ .

2024-25 School Description and Mission Statement

<p>**Mission Statement** The mission of Francis Hopkinson Elementary School is to provide students with a solid foundation for becoming independent, lifelong learners by:</p> <ul style="list-style-type: none"> • Delivering a rigorous academic curriculum that encourages critical and creative application of knowledge in a democratic and evolving global society. • Developing effective communication skills in listening, speaking, reading, and writing.

2024-25 School Description and Mission Statement

- Equipping students with 21st-century learning tools, including Chromebooks, laptops, and STEAM projects.
- Fostering self-confidence and resilience through support for physical, social, and emotional well-being in a nurturing environment that encourages risk-taking.
- Promoting responsibility, respect, and acceptance of others to build a caring and inclusive community.

School Goals

Our annual goals, aligned with our mission, are informed by:

- District-wide objectives.
- Student progress and achievement, assessed through State Mandated Assessments, District Benchmarks, Local Common Assessments, MAP Assessment portal, HMH Into Reading data, Fountas and Pinnell reading assessments, and Theme and Unit tests.
- Collaborative planning with staff, parents, and community stakeholders.

Our curriculum adheres to California Common Core Standards and Curriculum Frameworks.

Program Goals

To meet the diverse needs of all students, we emphasize:

- A balanced language arts program integrating phonics, decoding, comprehension, vocabulary, Science of Reading strategies, and rich literature aligned with Common Core Standards.
- A comprehensive math program focusing on foundational skills, mathematical thinking, and problem-solving, utilizing Cognitively Guided Instruction (CGI) strategies.
- A dynamic writing program featuring HMH writing, Step-Up-to-Writing, Nancy Fetzer, Thinking Maps, and Writer's Workshop.
- Engaging history/social science instruction and hands-on learning experiences in physical, life, and earth sciences following NGSS standards.
- Transparent communication of student performance through agreed-upon benchmarks and standards.
- A safe, inclusive, and supportive school environment fostered by Husky Buddy classrooms, the Wellness Counselor, Second Step lessons, and spirit assemblies.
- Enhanced learning through technology integration in classrooms, the Media Center, and beyond.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

2024-25 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Los Alamitos Unified School District sets a high priority upon ensuring that high quality, standards-based textbooks and materials are available for every student to support instructional programs in the schools. Prior to adoption, the Los Alamitos Unified School District conducts a thorough review of its curriculum to ensure that it is aligned with the California Standards for the Common Core. Under California law, the State Board of Education reviews K-8 textbooks and other instructional materials and then adopts those meeting specific quality standards. In the Los Alamitos Unified School District, textbooks considered for adoption are carefully reviewed by a committee of teachers and administrators. The most promising programs are piloted using established criteria and guidelines. The recommended books are then approved by the Los Alamitos Unified School District Board of Education. To receive State instructional funds, the Los Alamitos Unified School District ensures that it has fully complied with the requirements of Education Code Section 60119. The District has also conducted an annual public hearing ensuring the sufficiency of instructional materials. Each school maintains a library/media center which is supported by District and State supplemental funding.

School Facility Conditions and Planned Improvements

School Facilities Analysis

The Los Alamitos Unified School District (LAUSD) prioritizes maintaining a clean, safe, and welcoming environment for learning. Each campus reflects the pride of its students, staff, and parents. At several schools, gardens, workrooms, and collaborative workdays involving students and parents have been organized to enhance the facilities.

To ensure that all sites remain in good repair, custodians conduct monthly inspections, and the District maintenance crew consistently prioritizes safety. Hopkinson Elementary, built in 1961, remains in excellent condition, thanks to diligent care and maintenance.

In 2008, District voters approved Measure K, a local bond that funded comprehensive modernization across all school sites. Modernization efforts included installing new roofs, electrical systems, HVAC, plumbing, fire alarms, and data systems. Doors, windows, flooring, and restroom fixtures were replaced, ensuring updated, efficient facilities. The modernization of Hopkinson Elementary was completed in September 2012.

Additional facility improvements include:

- ****Summer 2020****: A portable restroom for staff and students was added to the south end of the campus, providing greater access to restrooms.
- ****Summer 2021****: The TK/Kindergarten playground was upgraded, featuring a new, safe, shaded play area. The campus also received new outdoor tables and shade structures to support outdoor instruction.
- ****2021****: Security enhancements included gating the north side of the campus, allowing teachers to open classroom doors for ventilation while maintaining safety.

For more information about the condition of the school's facilities, please contact the school principal.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2022-23	School 2023-24	District 2022-23	District 2023-24	State 2022-23	State 2023-24

Mathematics (grades 3-8 and 11)	84	78	66	65	34	35

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2023-24 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2024-25 Opportunities for Parental Involvement

Parents are essential partners at Hopkinson through participation in School Site Council, PTA, District parent advisory committees, and through Hopkinson's non-profit foundation, Friends of Hopkinson. Hopkinson parent volunteers contributes over 10,000 volunteer hours annually and raise approximately \$100,000 a year to support the school vision.

Parent participation at Hopkinson is critical to the success of our programs. We have a very active, supportive, parent and family community which continually expresses interest through assistance in both classrooms and the media center, as well as with special events such as assemblies, annual fall carnival, book fairs, Husky Award presentations, Neurodiversity Week, P.E.A.C.E. Week, and family education evening events. Parents also participate as members of the PTA, School Site Council, and Friends of Hopkinson. PTA meetings are held every month during the school year, and School Site Council meetings are held four times a year. SSC spotlights specific areas of the curriculum and holds at least one classroom tour during the year. All parents and community members are welcome to attend any school meeting or activity. Attendance at Parent/Teacher Conferences, Back to School Night and Open House, as well as membership in PTA, continues to be over 95%. To strengthen parent involvement, additional opportunities are provided throughout the year for education and for volunteering in the classroom. For more information about organized opportunities for parent involvement at Hopkinson, please contact the school office at 562-799-4500.

The Los Alamitos Educational Foundation (LAEF) is a community-based, non-profit organization which was formed in 1985. It consists of concerned community members working together to raise money to maintain and improve the quality of the schools of the Los Alamitos Unified School District. The Foundation has a commitment of fundraising for STEAM, technology, reducing class size, summer enrichment programs and other specialized projects. 2024-25 School Safety Plan

Hopkinson School Safety Plan

Hopkinson Elementary School prioritizes the safety and well-being of its students, staff, and community. Each site operates under three comprehensive safety frameworks: the Comprehensive Safe School Plan (CSSP), the Emergency Preparedness Plan, and the Crisis Intervention Plan. Together, these documents address every aspect of campus safety and preparedness.

The CSSP is reviewed and updated annually by the School Site Council to reflect the most current safety protocols and procedures. Once finalized, the plan is approved by the Board and filed with the Orange County Department of Education. Copies of the plan are accessible to parents and the general public upon request.

The primary objective of the CSSP is to maintain a healthy, safe, and drug-free environment on all Los Alamitos Unified School District campuses, fostering a secure setting where students can thrive academically and socially.

Professional Development

The primary areas of focus for staff development are the District's Signature Practices: Cognitively Guided Instruction (CGI), Readers and Writers Workshop, and the Science of Reading, Thinking Maps and Depth and Complexity. As the District has adopted comprehensive, new curriculum in both English-Language Arts and science for grades K-5, additional professional development modules have been provided for these adoptions and alignment with scope and sequence. Student data is collected via District benchmarks and various formal assessments, such as CAASPP and Fountas and Pinnel Leveled Reading Assessments, to determine instructional needs for teachers. The District provides annual training to ensure accurate calibration in the administration of reading and mathematics assessments in order to assess site vs. district-wide areas of concerns.

Professional development is delivered by way of release time for teachers in the all of the Signature Practices. Teachers new to the Los Alamitos Unified School District are placed on a five-year professional development plan. Teachers are placed into cohorts according to the number of years with the District and attend professional development sessions. Teachers are also released to attend pre-approved workshops and conferences with the expectation of disseminating their findings by way of instructional networking. The District also provides content specific training when needed by departments or grade level teams.

Teachers are supported through on-going, in-class coaching by District TOSAs. Site administrators provide regular, ongoing feedback by conducting classroom observations, setting individual goals for teachers, and by providing time for teachers to collaborate and review data within grade level teams, subject teams and departments. Teachers are provided opportunities to participate in instructional networking where teachers observe other teachers and debrief on the instructional strategies employed within the lesson. The practice of instructional networking is cross-curricular and non-evaluative.
