Request for Proposal Clarification
25.04 Trash Removal & Recycling Services

Addendum 1

QUESTIONS:

1. Can I get more details about this trash removal and recycling service needed?
Answer: Trash is to mean all non-hazardous waste that is generated and placed in the dumpsters. The Recycling program is to include a separate pick up of mixed recycling material that include: cardboard, paper, glass and plastics. Note in your proposal on what is included and what is excluded from these categories. Currently we have separate dumpsters for trash and recycling materials.
2. Please clarify the statement "documentation of trash removed by the yard shall be supplied for every pick up site." Is this a report supplied to the District every month?
Answer: We would like to know the number of pickups each month as some months there is a need at various sites to have additional pickups. This helps us understand and confirm your billing.
3. In order to provide pricing to install compactors at the three high schools, the following information would be needed. 1. Site visit and site contact to coordinate 2. Will the District want to own these units, or rent them? 3. Does the District want front load style compactors or roll off? 4. Due to the complexity of this request, will the District consider postponing the bid submittal date?
Answer: We are looking for your expertise and recommendation on what type of compactor would be the most economical and beneficial for the district. You can provide pricing for various options: size, type, rent, own, etc. Please advise if you require a site visit and we can set something up.
4. Please clarify the statement "The Contractor as part of bid pricing shall provide a complete detail of their Compost Program and all options and cost." Please provide more details on what it is you are looking for?
Answer: The district currently does not have a composting program. We are looking for information and or pricing on providing this service and what options are available. Feel free to include any information on what would be included if you were to offer this service.
5. Since this is an online submittal. Does Rochester community schools need a hard copy of the bid bond? If so where should we mail it to?
Answer: A photocopy of the check or bond is acceptable, which can be uploaded with your bid documents. Please do not mail any documents.
