

WHITE SETTLEMENT INDEPENDENT SCHOOL DISTRICT

BOND UPDATE

West Early Learners Academy

The West Early Learners Academy opened in August, and the school's new interactive play area includes a mini town that opened in December. The "city" includes a movie theater, grocery store, construction site, fire station, bank, hospital, restaurant and more, providing pre-kindergarten and kindergarten students with not only a place to read but a space for hands-on learning, play and collaboration. The entire school provides a variety of reading nooks and collaborative spaces that encourage exploration beyond the classroom.

Brewer Middle School

The new Brewer Middle School cafeteria opened in November. The space accommodates 2,000 people and serves as an auditorium for performances and gatherings.

The new three-story Sixth Grade Center at the Brewer Middle School site will include 29 classrooms and open to all sixth graders in August. The opening of the Sixth Grade Center at BMS will provide more fine arts, pre-athletic and Career and Technical Education opportunities for all sixth graders. More details will be provided in late spring!

Also, a new competition gym and fine arts area expansion will be completed before the start of the 2025-26 school year.

Liberty Elementary

Construction of the new Liberty Elementary gym and expanded cafeteria is well underway! The improvements will be completed by the start of the 2025 school year.

Fine Arts Academy at Tannahill

Tannahill Intermediate, which currently serves WSISD sixth graders, will become the Fine Arts Academy at Tannahill for students in grades 1 through 5 in August 2025. The new location will provide enhanced facilities, including a fully functioning cafeteria, cafetorium with a stage, and more. The campus will serve current FAA families as well as students in the school's new attendance zone.

Capital Improvements

The bond includes district-wide improvements that will be completed by August 2025. These include:

- An additional parking and driveway area at the West Early Learners Academy to alleviate traffic on Las Vegas Trail
- Synthetic turf installation in the Brewer High Courtyard
- Synthetic turf installation in the Brewer Middle Stadium
- A Brewer Middle School track renovation

Brewer High School

Brewer High School now has an expanded competition gym that accommodates 2,000 people, and both the drill team and original gyms received new floors to enhance student safety.

The 'Fightin' Bear Band kicked off the marching season in July with the opening of the new band hall, which provides the growing band program with a much larger and enhanced facility. The 200-member band now has two large practice spaces.
