Re: **2025 Scholarship Opportunity** – 29th Annual Award

Dear Administrator,

Once again, the Wilderness Sportsmen's Club is offering scholarships to graduating High School Seniors in Wood County. These students must be pursuing a degree in a Natural Resources field. The total scholarship award is \$2000! As always, we will be awarding the scholarships to the most qualified students. If we only have one qualified applicant, he/she would be awarded the entire \$2000. If we have more than one qualified applicant, the \$2000 would be equally divided by all qualified applicants.

Please review the attached application form. I would like to reiterate the student must be planning to pursue a degree in the Natural Resources or closely related field. For instance, we believe pursuing a degree as an Urban Forester or Horticulturalist does not meet our specifications. We may also place more emphasis on students going into a Natural Resources field directly related to Wisconsin. The Scholarship Committee of the Wilderness Sportsmen's Club will make the final decision.

We would like to encourage all eligible applicants to apply as soon as possible. Applications post marked after the due date of March 31<sup>st</sup>, 2025 will not be accepted.

We will also consider offering financial assistance to previous successful applicants already in school on a case by case basis.

Sincerely,

*Wayne Graf, Tony Bastien & Todd Eckes*

Scholarship Committee  
Wilderness Sportsmen's Club
