

District Safety Committee Meeting

June 10, 2024 11:00 am

CARROLLTON-FARMERS BRANCH ISD

Confidentiality and Public Information

- Generally, security documents, records, and information reviewed by the committee or discussion of the documents and records should **remain confidential**.
- Texas Education Code section 37.2071(i) makes any document or information collected, developed, or produced during the review and verification of a multi-hazard EOP not subject to disclosure under the Texas Public Information Act (PIA).
- Texas Education Code section 37.108(c-1) provides that any document or information collected, developed, or produced during a safety and security audit conducted under the provision requiring regular safety and security audits of a district's facilities is confidential and not subject to disclosure under the Texas Public Information Act (PIA).
- Access to documents and records by committee members are to be confidentiality protected and not shared with the public. **Any security documents, records, or information shall only be released by the District with permission from the Texas Attorney General.**

Purpose

- The purpose of the Safety and Security Committee is to assist with the development and implementation of emergency planning recommendations consistent with the district multi-hazard emergency operations plan and to ensure accurate reporting of information requested by the Texas School Safety Center.
- Sentinel of Safety Award for campuses
- May at times review deficiencies reviewed by Region 10/TxSSC

Agenda

- I. Call to Order
- II. Introductions/Sign In
- III. Quick Updates
 - A. PA system - 4 HS
 - B. Region 10 - Intruder Audits
 - C. Raptor Emergency Management
 - D. Drill Expectations for 24-25
- IV. Sentinel of Safety project
- V. Open Forum
- VI. Adjournment

PA System Update-HS campuses only

- 2023 Bond Project
- Original problem is that PA updates were addressed partially
- Safety & Security Department is partnering with Construction
- Presented to the School Board in May and accepted Master AV as our contractor
- Under contract and will begin work at Ranchview HS (6-8 weeks) then Creekview HS
 - Turner/Smith will follow after that

Estimated 1.9 million to address just the HS PA scope

Region 10 Intruder Audits

Raptor Emergency App (REM)

- 100% trained at campus level, training videos mailed to campuses
- Campuses should be utilizing Raptor for every drill and emergency (not optional)
- Next year our expectation is for campuses to get to 100% for STUDENT accountability
- Open Discussion about Raptor

Known Issues:

- Short term subs do not have access to REM
- Extra Staff (District employees) assigned to campus
- App based so some staff refuses to download to personal devices
 - Offer incentives
 - Stress the positives
 - Set the tone (campus admin buy in)
 - multi - building profiles tend to get a lot of alerts

Drill Expectations & Changes

- 1 evacuation per month (10+ school days)
- 1st Semester - Secure, Shelter, Lockdown (**complete within first 10 days of school**)
- 2nd Semester - Secure, Shelter-HazMat, Lockdown (**complete by Spring Break**)
- SB 11/Local Fire Code/Tx SSC/TEA

Must be run through Raptor to count

Sentinel of Safety

The Sentinel of Safety Award will be presented to one campus who actively and consistently promotes a culture of school safety.

- Projects should apply to the entire campus, and should affect more than a small group of students.
- **Project must demonstrate the campus going above and beyond the minimum safety standards.**

Creekview High School

Carrollton-Farmers Branch ISD

ACTIONS:

Teens in the Driver Seat Assembly and Safety Fair

During the first week of April, Student Council invited Tyson Dever to come speak to our sophomore and junior classes about his experience of living paralyzed after a car accident. During all lunches, we hosted a safety fair that included various interactive booths and activities, such as the Driver Simulation and the Pedestrian Obstacle Course to raise awareness about the dangers of distracted driving. We provided a lesson/activity through advisory to learn about the history of Teens in the Driver Seat, and encouraged students to brainstorm ways to advocate and support friends who engage in distracted driving.

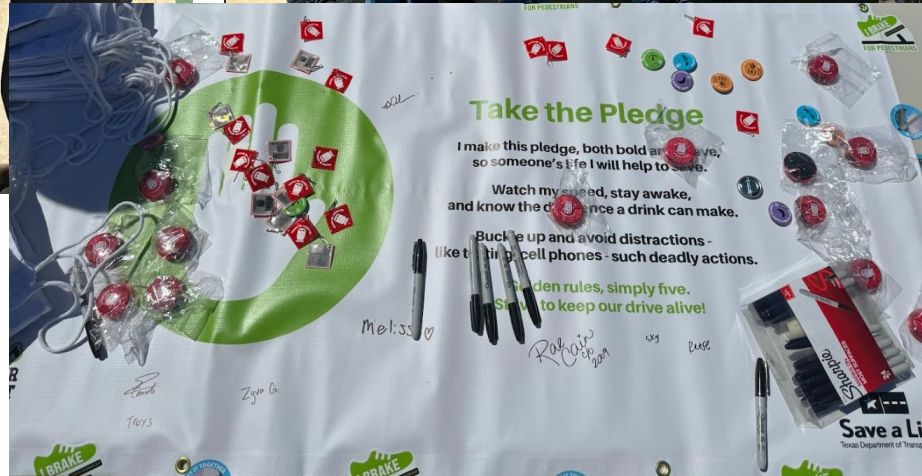

Red Ribbon Week

During the last week of October, Student Council assigned specific spirit themes to each day to highlight the benefits of living drug free. We hosted several informational booths throughout the week to raise awareness about the dangers of alcohol and substance abuse, encouraging students to sign the pledge to live drug free banner, and providing opportunities for students to post about it on their social media sites. We provided a lesson/activity through advisory to learn about the history of Red Ribbon Week, and encouraged students to brainstorm ways to advocate and support friends who struggle with substance abuse.

OUTCOME:

Overall safety influenced for all students in various aspects:
Remaining safe behind the wheel of a car as well as a passenger, drug awareness and education.

Driving Simulator paired with Fatal Vision goggles

GOAL:

Our campus Safety and Security Team had three areas of concern with respect to safety and security at Las Colinas:

Fluent use of Raptor to account for:

- 1) Self,
- 2) Student,
- 3) Absent Staff

ACTIONS:

They held an extra Raptor training session that was conducted by Safety & Security team.

OUTCOME:

The intentional project path of focused staff training positively impacted the overall safety of the campus. The growth in areas of need mentioned above surfaced in the following excellent ways by leaps and bounds:

The time taken by staff to account for each student

The time taken by staff to account for themselves

The feeling of ending a drill after accounting for almost 100% (margin of error due to staff members not on our staff list by any standards) is out of this world, since we started using Raptor.

This in combination with the way in which we secure classrooms/exit the building with a purpose, and pay attention to impactful details, in a real scenario, Las Colinas is prepared!!

RAPTOR[®]

5/14/24	Evacuate Drill	22 mins	99%	100%	100%	

GOAL:

To create awareness about playground safety. This project was designed to be completed by students with minimal supervision. The Security Specialist (Gissel Santana) created the theme "Safety is Key: It's Up to You and Me!"

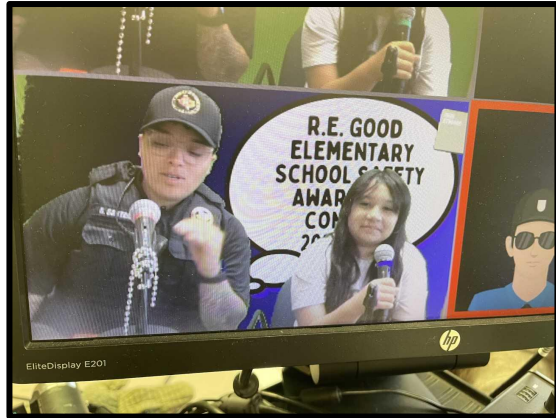

ACTIONS:

The Security Specialist organized a door-decorating contest for all classrooms focusing on playground safety. She created a flyer, gave a rubric of expectations and requirements, and provided rewards and incentives for the winners.

OUTCOME:

The Sentinel of Safety competition has been a resounding success, thanks to the enthusiastic participation and innovative contributions of our school community. By working together to prioritize safety and raise awareness, we have taken significant strides towards creating a safer, more secure environment for all. As we advanced in our safety endeavors, students became increasingly mindful of playground rules. Consequently, there has been a noticeable decline in the incidence of student injuries on the playground. Furthermore, students have demonstrated unwavering vigilance and preparedness during any emergencies that have occurred.

Canva Presentation

June R. Thompson Elementary

Carrollton-Farmers Branch ISD

GOAL:

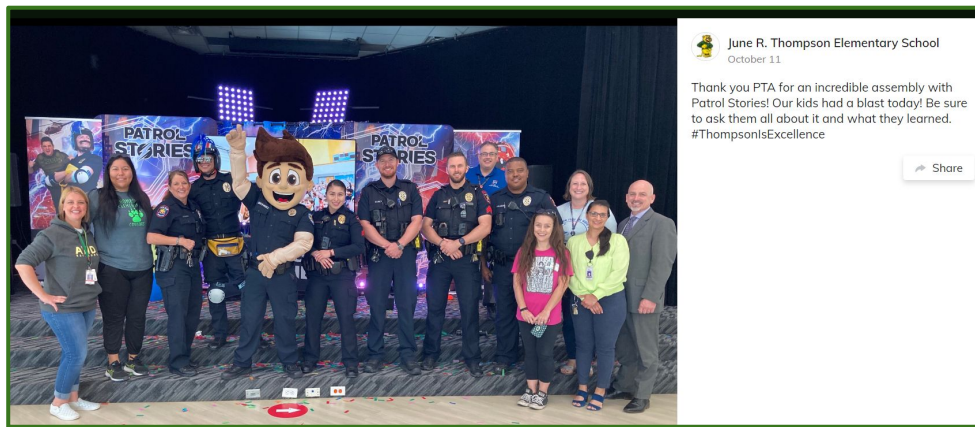

Due to our Campus Needs Assessment, we were trying to make sure students and families understood the WHY and HOW of safety on our campus (prior student panorama data had comments from students that they wish we had cameras and more security).

ACTIONS:

We decided to share about safety with students through a PTA sponsored program (Patrol Stories) and grade level discussions during counselor time with our security specialist, and share with families via the principal chat. These were held early on so they would know about the presence of safety on our campus.

OUTCOME:

Students and families were more knowledgeable and as a result felt safer. I am anxiously awaiting panorama data for the end of the year to compare from the end of last year.

Week of: 8/21/2023

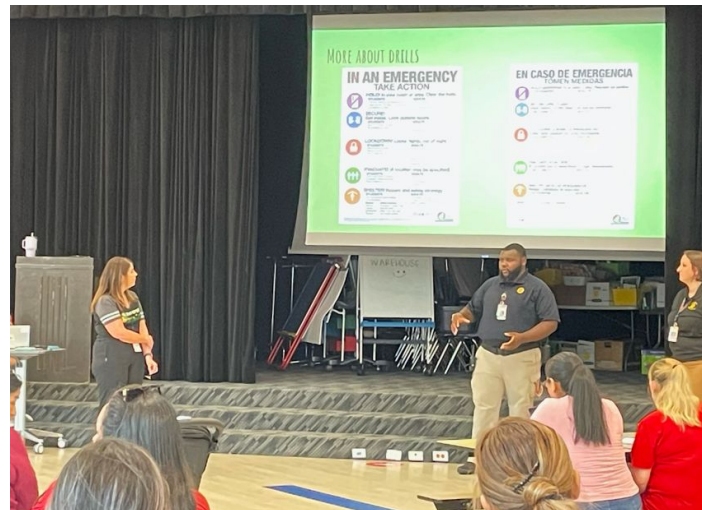

A note from the admin:

Thank you families for yet another EXCELLENT week! Here are a few reminders to help with efficiency:

Upcoming events:

Aug. 25 9AM Principal chat
Topic: safety on campus

Central Elementary

Carrollton-Farmers Branch ISD

ACTIONS:

We created an announcement segment: Are you a F. A.N. of Safety (F.A.N. = Find a Need, Fix a Need).

On the morning announcements we review safety tips for students. We showcased a safety tip/help document on one of the first segments. The segment also featured the F.A.N. video, starring Student Council members regarding the Pre-K/Kinder dismissal concerns.

Topics we've discussed:

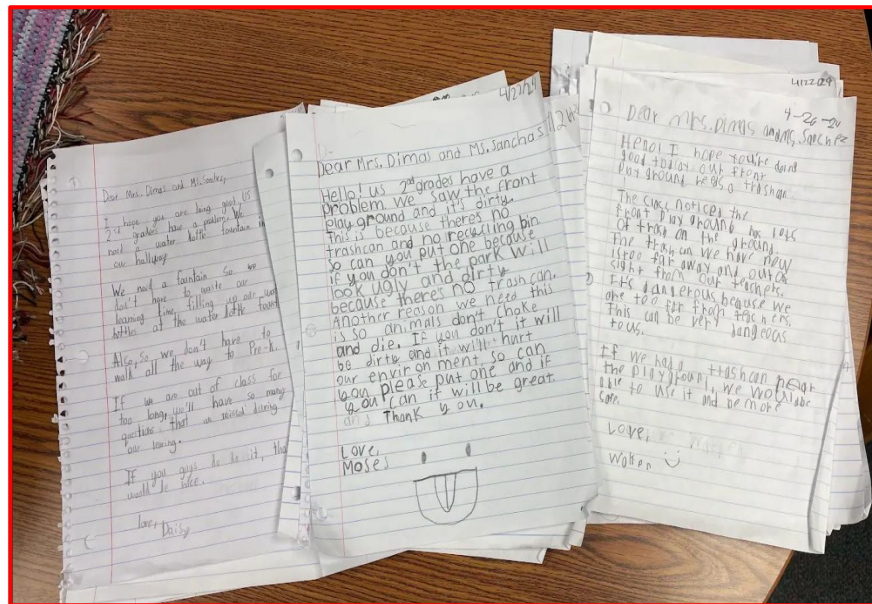

Cafeteria Safety, Playground Safety, Visitors in the Building, Dismissal Procedures, Hallway Safety, Classroom Safety, New Arrival Procedures, Stranger Danger, Staying Safe During the Summer.

Throughout the year we did receive student feedback on needs they would like:

Trash Cans and recycling bins on the playground, as well as a water bottle refilling station in primary hall.

OUTCOME:

The project allowed for students to feel and know that they are partners in keeping the school safe. It showed students that they have a voice and that adults are listening to them. Overall promoted positive student behavior.

Central Elementary

Carrollton-Farmers Branch ISD

Find A Need,

Fix A Need!

Are you a F.A.N. of safety?

Behaviors that are not safe:

- Suspicious
- Bullying

Situations to report:

- **ANY EMERGENCY!**
- Anything unsafe

Write the
problem:

Who would you like to talk to? (Check one)

- ☐ S/O Smith
- ☐ Principal
- ☐ Teacher

Return to the office when complete.

OUTCOME:

GOAL:

To increase safety awareness amongst students, specifically hallway expectations, situational awareness, and students opening exterior doors for strangers.

ACTIONS:

Rosemeade's Music Teacher and Security Specialist collaborated to create a safety song as an interactive means to engage students while teaching about the following safety topics: hallway expectations, situational awareness/reporting, keeping doors secure, as well as denying entry at doorways. Students learned the song, then recorded a music video to go along with the message. The song features voices of Music Teacher-Heath Farr, Security Specialist-Tamara Hunt, Assistant Principal-Kori Johnson, Paraprofessional-Eleazar Villanueva and all students of Rosemeade.

This project improved campus safety by providing a fun way to cover campus safety concerns. Since project completion, Rosemeade has had zero occurrences of students opening doors/letting people into the school, safer movement in the hallways and a large increase in student reports/interactions with security specialist.

S.A.F.E.

La Villita Elementary

Carrollton-Farmers Branch ISD

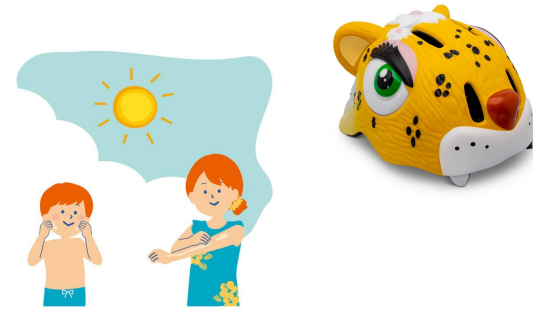

GOAL:

To create awareness about summer safety. This project was designed to be completed by students with minimal supervision. AP Fields came up with a theme “Keep Officer Victory safe this summer.”

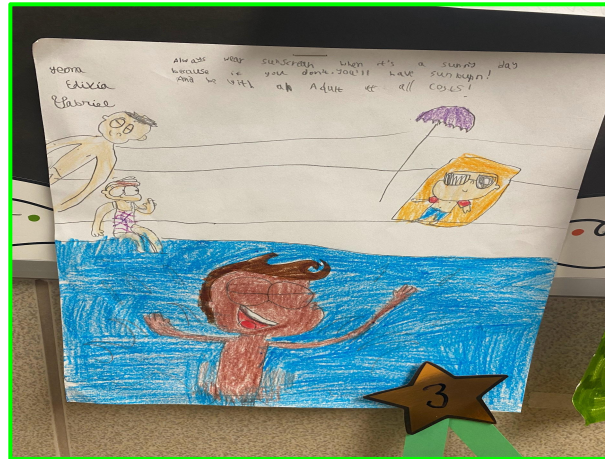

ACTIONS:

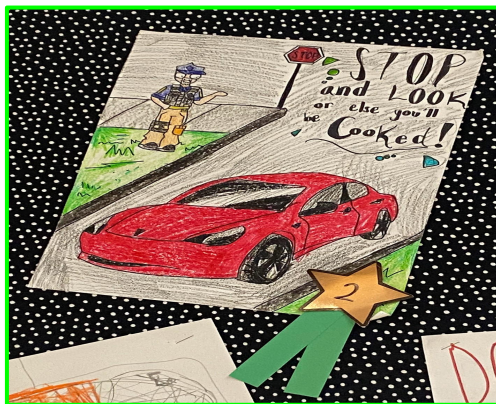

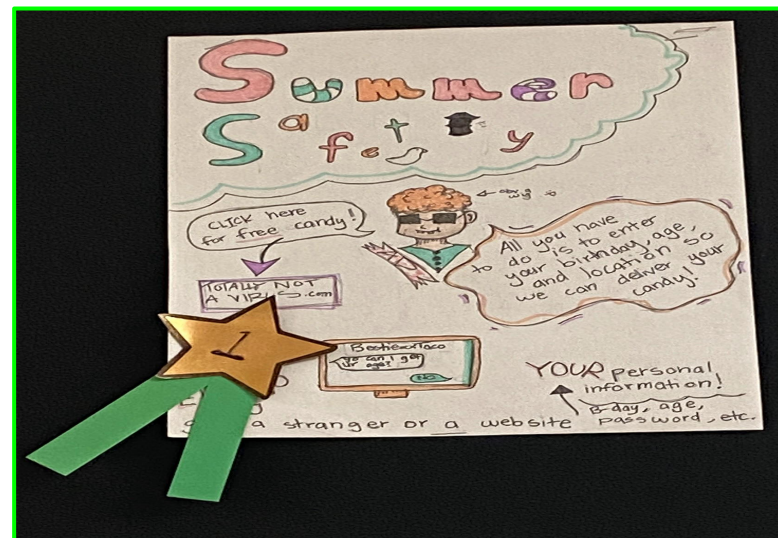

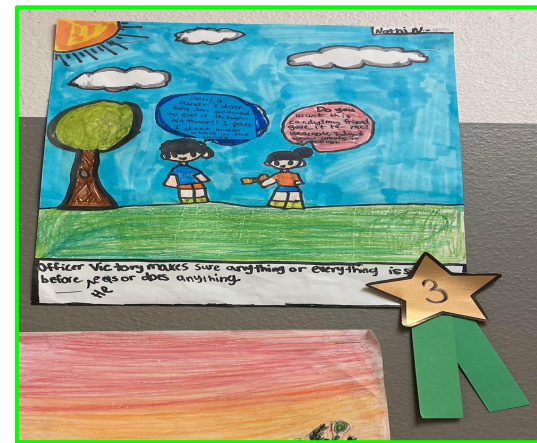

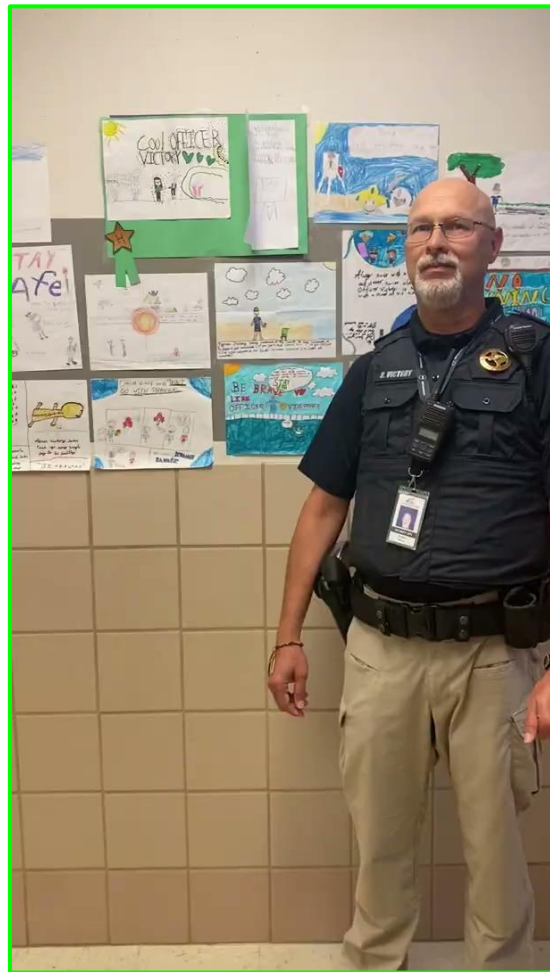

We ran a school-wide summer safety poster contest. Students created posters of our campus security specialist staying safe this summer. (For example, Officer Victory wears sunscreen at the beach or Office Victory wears a helmet when he rides his scooter.) Office Victory works hard to stay connected to our students. The more connected our students are to our security officer, the safer they will be. They listen and respond to him more when they have a relationship with him. The posters helped strengthen his connection to our student body. Three members of our district security team judged our posters. We awarded prizes to 10 submissions. (5 in K-2nd and 5 in 3rd-5th) Prizes were safety themed items like bicycle helmets, water bottles, and other La Villita swag items.

OUTCOME:

The safety posters helped remind students of basic summer safety principles, so they return to us in one piece next fall. They also supported their connection to Officer Victory, which ultimately keeps our campus more safe and more secure.

Open Forum

- As a reminder, questions for open forum should apply to broad topics relevant to safety and security, and not specific questions or concerns about your campus (i.e. work tickets or projects in progress)

Adjournment

THANK YOU FOR EVERYTHING YOU DO TO
KEEP OUR STUDENTS AND STAFF SAFE!
