## 2023-2024 School Accountability Report Card (Published During the 2024-2025 School Year)

"Climb the mountain see beyond"

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

<b>Admission Requirements for the University of California (UC)</b>	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <a href="https://admission.universityofcalifornia.edu/">https://admission.universityofcalifornia.edu/</a> .
<b>Admission Requirements for the California State University (CSU)</b>	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <a href="https://www2.calstate.edu/">https://www2.calstate.edu/</a> .

### 2024-25 School Description and Mission Statement

Mountain View School is one of five schools that form KCUSD Educational Options. The other schools are Reedley Middle College High School, Kings Canyon Online, Kings Canyon High School and Kings Canyon Adult School. Mountain View offers an independent study educational plan for K-12 students. Reasons for placement on independent study vary, as do lengths of time in the program. The majority of students are classified as high school 9-12, but MVS also serves elementary and middle school students.

As part of the independent study program, each student is assigned a teacher to guide their studies. Students are to be

supervised and in their homes during school hours when not attending school. Teachers meet with students on a weekly basis, hours depend on individual student needs. Except for medical issues, students are seen at the Mountain View School Student Center in Reedley, the MVS classroom on the Orange Cove High School site in Orange Cove, or the MVS classroom on the Kings Canyon Online School site in Dunlap. KCUSD outlines the number of hours teachers must meet with each student, which varies by grade level.

Mountain View School has begun a program, Kings Canyon Learning Academy, where students come in three days a week. The students complete online classes through Edgenuity, take in person elective courses, meet with a social worker for Social Emotional Learning lessons, and receive mini lessons in English Language Arts, Math, Science and Social Studies.

It is the goal of the program to develop in every student the capacity to be a capable, productive citizen who exceed all expectations held for him or her by others. The educational goal is to either earn a high school diploma or return to their home school site.

### A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

## 2024-25 Quality, Currency, Availability of Textbooks and Other Instructional Materials

According to guidelines from the Williams Act, all students have access to all books and materials deemed necessary in order to both pass courses for graduation. Instructional materials are current, SBE and locally board approved and adopted. A district textbook adoption committee is established for the process of textbook adoption. Each school site or grade level is represented on each textbook adoption committee. At MVS there are sufficient textbooks and instructional adopted texts, workbooks, or other supplemental instructional materials to use in class and to take home.

## School Facility Conditions and Planned Improvements

Mountain View School opened its school site in January, 2014. The facility was originally comprised of two main buildings: the Office and Student Center building, and the Resource Center. The office houses two secretaries, the program administrator, student advisers, and reception area for parents. The attached Student Center accommodates student/teacher meeting cubicles, a classroom, and an eating space. The Resource Center, next to the Student Center, houses student materials, textbooks, a student/teacher workstation, and a classroom. In Fall 2023, four additional rooms were added to the campus to provide additional room for student instruction. In addition to the four additional rooms, three new restrooms were added to our campus: one boys, one girls and one staff restroom, in Spring of 2024, two additional rooms were added to the campus to provide additional room for student instruction.

A new MVS/Adult School building was built/completed and occupied in March 2021. This building is located on the Orange Cove High School campus and is used for student/teacher meetings. All necessary student/teacher materials, textbooks, and supplies are housed at the new facility. In the fall of 2024, four additional classrooms were added to the site to provide additional instruction and services for students.

The Mountain View center provides a safe, clean environment for teachers, staff, parents, and students. School facilities are up-to-date and provide adequate space for the program. KCUSD administers a scheduled maintenance program to ensure that the facilities are adequately maintained.

School Facility Conditions – Facilities were updated when the relocation project was enacted.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

#### College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2022-23	School 2023-24	District 2022-23	District 2023-24	State 2022-23	State 2023-24

<b>Mathematics</b> (grades 3-8 and 11)	1	1	36	38	34	35

## 2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2023-24 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

## CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. ## 2023-24 Career Technical Education Programs

Mountain View School Students have access to participating in Career Technical Education through the Valley ROP (Regional Occupation Program) through our district adult school. This past year, MVS students participated in Urban Rural Fire Fighting courses and the Certified Nursing Assistant program through VROP.

## B. Pupil Outcomes

### State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

## 2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

## 2024-25 Opportunities for Parental Involvement

Parent involvement and communication are important to our school. Mountain View continually strives to involve parents by exchanging information that helps them to understand and support their child's efforts to meet graduation requirements or necessary achievements to return to a comprehensive school site.

Students are continually encouraged to share the weekly assignment document with parents which verifies the credits earned and the grade achieved for the week. In the event a student is not completing assignments or not attending weekly appointments, contact is made by the administration soliciting parent assistance to rectify the behavior. Parent meetings are held monthly with students not making adequate attendance to review strategies to assist with improving performance.

Parent involvement opportunities at MVS also include an invitation to the Children's day event, Winter Christmas Student/Parent event, Spring Student/Parent Art/DIY event, participation on the MVS School Site Council Committee, and the opportunity to participate in any parent education/training workshops offered by MVS and other KCUSD schools.

Parents who would like more information on how to become involved may contact Learning Director, Stacy Harder at (559) 305-7080.

## 2024-25 School Safety Plan

Due to the independent study design, Mountain View does not maintain a traditional school site. Mountain View School includes two main buildings and now eight classrooms between two sights. The main buildings house the administration office and independent study space. The other is a resource center for materials and small group instruction. The classrooms are

used for second program that provides in-person instruction, online classes and a room for our social worker and school counselor. Mountain View School is adequately maintained to meet all facility safety standards and is handicap accessible.

The School Safety Plan is updated annually and can be viewed upon request. The MVS CSSP was board approved on February 13, 2024. The most recent update was October 30, 2024. The plan was also reviewed and discussed with faculty and students at that time. The plan includes: KCUSD philosophy, district dress code, procedures in the event of a crisis, emergency evacuation plan, emergency telephone numbers, the campus utilities map, staff guidelines for responding to loss of life, a communication tree, and child abuse reporting procedures.

## Fiscal Year 2023-24 Types of Services Funded

MVS receives Title I funding to support our site with current technology to support both students and teachers. We also use Title I dollars to assist in professional development to improve instruction of students. Additional funding through CSI have been utilized to improve outcomes for students in the areas of graduation and attendance. A full time academic counselor is a service now provided to MVS students, in effort to improve student graduation progress. A full time social worker was added so there are now 2 social workers working with the students on Social Emotional Learning. Mountain View School also partners with the CAL Safe program to provide services to our teen parents or expectant teen parents. Services typically include providing resources and connections to the community to better prepare them for parenthood. Supplemental and concentrated funds provided through the district LCAP are utilized to increase parent involvement as well as reduce suspensions and improve attendance through the use of PBIS practices. In addition, MVS receives state lottery money to assist with classroom supplies for students and conference attendance for teachers.

## Professional Development

Professional development at Mountain View School is designed to meet the professional needs of teachers relating to the independent study educational setting. Professional development takes the form of teacher trainings, specific to the unique needs consistent with our school vision and goals. The principal, teachers, classified staff, and other support personnel take part in these activities. For the 19-20, 20-21, 21-22, 22-23, and 23-24 school years, Math and English teachers attended district Professional Learning Community (PLC) sessions. For the last two years, full time MVS teachers have been collaborating with each other on Wednesdays from 2:30-4:30. For the past four years, monthly all-inclusive staff sessions have been and will continue to be scheduled in addition to any individual staff conferences. These staff meetings include opportunities for professional development and support in independent study procedures. District academic coaches provide training as related to technology and curriculum as needed. In addition, we have brought in outside representatives to support our use of a reading and writing computer software being used by students on two different occasions last school year. For this school year the majority of PD is in-person, there may be limited occasions when PD is provided via zoom.

Lastly, over the past five years resource personnel and administrative personnel have attended the California Consortium of Independent Study conferences for current legal, financial, and best-practices seminars.

This table displays the number of school days dedicated to staff development and continuous improvement.
