

Eastview High School

Class of 2027

11th Grade Registration Worksheet

Name: _____

Student ID#: _____

Registration Overview:

At Eastview, the school year has four nine-week quarters, and each day includes seven periods. This means you can take up to 28 courses per year (4 quarters x 7 periods). Each course is worth 0.75 credits per quarter, so a year-long course equals 3 credits. As a junior, you must choose between 20-28 courses. Picking 28 gives you a full schedule, while choosing fewer means study halls will be added. Your final schedule, including any study halls, will be available online in mid-August.

What courses should I take?

Use this worksheet to guide your selection process. Full-year required core courses (English, Social Studies, Mathematics and Science) are listed below; choose one sequence in each category and select all four quarter courses (Q1/2/3/4) to meet the full-year requirement. Required PE/Wellness courses are listed next. There are **17 required courses** to take junior year; make sure you have selected/circled 17 courses on this page.

This leaves you with **up to 11 elective choices**. Elective courses are listed on the next page of this worksheet, with full-year courses first (World Languages, Choir and Band), and quarter electives at the end. Courses with pre-requisites and other recommendations are identified with an *; complete descriptions and additional details can be found online at www.evhs.district196.org/academics/registration.

Required Courses: Circle the course numbers of our selections and then enter them online.

Wellness (one quarter required)

Quarter Course	
Wellness 3	0940

NOTE: Students must choose one full year option in English and one in Social Studies. There are no concurrent enrollment requirements; students may take both on-level courses, both AP courses, or one of each.

What level is best for me? When choosing your courses, think about your grades, GPA, test scores, and personal factors like activities, motivation, and study habits. Students with mostly As (and some Bs) and MCA scores above 85% are usually best suited for high school AP/honors courses. Ask your current teachers for advice!

NOTE: Most 11th graders take Algebra 2. Current Math teachers will enter recommendations for your next level in your Academic Plan. Changes must be discussed with your current Math teacher.

NOTE: Most 11th graders take Chemistry. Current Science teachers will enter recommendations for your next level in your Academic Plan. Changes must be discussed with your current Science teacher.
