Career Development Courses: *Double period classes held at various district 196 high schools.*

The District 196 Career Development and Enrichment Opportunities Program offers courses that help you explore careers and prepare for the future. Employers today look for strong academics and real-world skills, and these courses can help you discover your interests, explore career options, and plan for college or job training. With hands-on experiences, field trips, and community partnerships, you'll gain valuable skills and insights. Take advantage of these opportunities to reach your full potential!

Registration:

The Career Development and Enrichment Opportunities Program is offered to juniors and seniors enrolled at any of the district's high schools. Courses are filled on a space available basis. Priority registration is given to seniors, followed by juniors. You may register for any of the Career Development and Enrichment Opportunities Program courses through the regular registration process at your high school. Courses at high schools other than EVHS are on a trimester calendar; single-trimester classes do not align with EVHS quarter dates and will result in study halls at the start or end of the term.

Transportation:

Transportation is provided to students who attend a Career Development course that is not in their home high school during periods 1-2 and periods 6-7. Students who plan to transport themselves and/or carpool to Career Development courses are required to turn in a Release of Liability for Students Transporting Themselves Between School Sites During the School Day (707.13P). Students must purchase a parking permit from their home school in order to park on the campus where the course is taught.

	Trimester 1 (EVHS Q1-Q2)	Trimester 2 (EVHS Q2-Q3)	Trimester 3 (EVHS Q3-Q4)
