

Future Facilities Projects Update

Overview of work in progress as of January 2025

CROTON-HARMON H.S.

- Auditorium upgrades continue, including audio visual equipment, wiring, and HVAC.
- The new Innovation Learning Center is taking shape as HVAC and steel work form the area.
- The cafeteria kitchen is ready for its state-of-the-art revamp with new equipment ordered, steel work nearly complete, and framing underway.
- Furniture selections are underway for the updated cafeteria space.

Renderings of the Future Spencer Field

SPENCER FIELD

- Bleacher installation is nearing completion.
- Upcoming work will focus on field lighting, the press box and concession stand, building retaining walls, and constructing the road down to the Field.

The remainder of this school year and this summer will involve significant work at each of our schools and Spencer Field.

Future Facilities Projects Update

Overview of work in progress as of January 2025

CARRIE E. TOMPKINS ELEMENTARY SCHOOL

- New flooring is being installed in the 3rd- and 4th-grade corridors, the Tiger's Den, and Rooms 16 and 117.
- Cubbies are being installed in the 2nd-grade classrooms.
- The CET gym is being upgraded with a new partition wall, backboards, and wall mats.
- The CET field is getting new drainage improvements and additional fencing.
- Renovation of the CET Library is slated to begin in early April.

PIERRE VAN CORTLANDT MIDDLE SCHOOL

- The main lobby, gym lobby, and Welcome Center floor are being removed and replaced with ceramic tile.
- The cafeteria floor is being removed and replaced with new flooring.
- The old guidance office on the 3rd floor is being prepared for the new flex suite.
- The sidewalk and stairs from Thompson Avenue have been poured; handrails are to be installed next.
- Courtyard demo is complete in preparation for excavation.
