

Strategic Plan 2024- 2029

Vision: Swallow School District will be the best school district in the State of Wisconsin.

Mission: Maximizing every student's academic and personal potential for lifelong success in our rapidly evolving world.

Focus #1: Climate and Culture

We will build a comprehensive system for fostering an inclusive environment that meets students' personal learning needs, is free from bullying and unkind actions, celebrates each student's unique characteristics, and helps each student feel safe and respected.

We will integrate leadership development programs for both students and Staff, offer leadership roles within school activities, and provide mentorship opportunities so that students and Staff can cultivate their leadership skills and confidently take on responsibilities both within and outside the school.

We will continue to prioritize transparent, consistent, and open communication between the school, students, parents, and the community.

We will cultivate character development and social-emotional learning into our curriculum through dedicated lessons, workshops, and activities so that students develop resilience, empathy, and strong interpersonal skills.

Strategic Plan 2024- 2029

Vision: Swallow School District will be the best school district in the State of Wisconsin.

Mission: Maximizing every student's academic and personal potential for lifelong success in our rapidly evolving world.

Focus #2:Resources

We will restore the long-term financial stability of the Swallow School District so that we can:

- Fund initiatives identified in the Strategic Plan.
- Build a value-based financial system that relates significant actions back to the vision and Mission of the District.
- Rebuild the Fund Balance to a stronger position.
- Attract and retain talented Staff with competitive compensation.
- Fund capital expenditures not separately funded.
- Respond to unfunded mandates and other cost issues that may arise.

Strategic Plan 2024- 2029

Vision: Swallow School District will be the best school district in the State of Wisconsin.

Mission: Maximizing every student's academic and personal potential for lifelong success in our rapidly evolving world.

Focus #3: Instruction and Learning

We will inspire students and Staff's active engagement to prioritize accountability and reflection for their own personal growth.

We will continuously develop and enhance our curriculum, providing innovative, state-of-the-art resources and training for Staff, so that through personalized instruction, students are equipped with hands-on learning strategies, essential future skills, critical thinking abilities, and global competence.

We will realign structured cycles of curriculum planning, review, and implementation, involving feedback from educators, students, and experts so that our curriculum remains relevant, effective, and responsive to the evolving educational landscape and student needs.

We will provide educational opportunities through field trips, outdoor learning, and experiences at Swallow and in the community so that every student is challenged, supported, and able to reach his or her full potential.

Strategic Plan 2024- 2029

Vision: Swallow School District will be the best school district in the State of Wisconsin.

Mission: Maximizing every student's academic and personal potential for lifelong success in our rapidly evolving world.
