

AP[®] Economics

At Grand Prairie High School

A one-semester, introductory college course in macroeconomics.

Explore the principles of economics that apply to an economic system as a whole. You'll use graphs, charts, and data to analyze, describe, and explain economic concepts.

This course places particular emphasis on the study of national income and price-level determination.

Why take AP?

01

Helpful

With a teacher who prioritizes their students, you can expect personalized attention and support throughout the course.

02

Passionate Teacher

A teacher who is passionate about the subject can make a big difference in your learning experience.

03

College Credit

Earning college credit while still in high school can save you time and money in the long run.

04

Form Connections

With a teacher who prioritizes building relationships with their students, you can expect a supportive learning environment.

Skills You'll Learn In This Curriculum
