### Teacher Recruit

[www.teacherrecruit.com](http://www.teacherrecruit.com) | [Alexander.Findlay@teacherrecruit.com](mailto:Alexander.Findlay@teacherrecruit.com)

Revolutionising teacher recruitment with a tech-driven platform that connects schools and educators around the world effortlessly.

The international education landscape is growing rapidly, with over 14,000 schools and nearly 700,000 teaching positions worldwide. There has never been a better time for teachers to work internationally, but with so many opportunities in diverse locations, navigating the recruitment process can be challenging.

Our team - comprising school leaders, teachers, recruitment experts, and edtech specialists - set out to transform this experience. We listened closely to teachers who felt bogged down by outdated, time-consuming searches and application processes that made job hunting unnecessarily difficult. School leaders shared how recruiting high-quality candidates who match specific needs has become very costly, increasingly complex with lengthy selection and shortlisting.

So, we developed Teacher Recruit - an innovative app designed to simplify and elevate the hiring process for everyone. By combining an advanced matching algorithm with an intuitive user-friendly design, Teacher Recruit connects schools with top educators quickly and seamlessly. For teachers, this means a bespoke, streamlined, and engaging journey to exciting opportunities worldwide. For schools, it ensures access to quality talent that aligns with your exact requirements. You can now connect with top-tier teaching talent from across the globe in a way that's fast, efficient, and tailored to what your school needs. We find great teachers so you can build a sustainable pipeline of quality applicants. This means you can spend less time and money on recruitment and more time on what matters – finding a perfect match for each role.

The future of teacher recruitment is digital, personalised, and global. Gen Y and Gen Z's preferences for technology and device use shows overwhelmingly mobile-centric behaviour and an expectation for tailored content. We have developed an affiliate section of the app which enables teachers to search specifically for jobs in BSME member schools. BSME member schools are also eligible for a 10% discount on all services.

Teacher Recruit makes the right connections happen—effortlessly, effectively, and instantly.
