Military Culture

Culture is the knowledge, experience, values, ideals, attitudes, and symbols that are passed on from more experienced members of a community to new members.

Celebrating Military Children

The Defense Department celebrates military children during the month of April. There are more than **1.6 million military children** who face many challenges and unique experiences as a result of their parents' service.

While military members serve around the world, we often forget the challenges faced by their children. **Military families move** on average **every two to three years**, impacting military children through changing schools and support networks.

Each year, the DOD joins national, state and local government, schools, military serving organizations, companies and private citizens in **celebrating military children** and the sacrifices they make.
