Fried Okra  
Celery & Ranch  
Assorted Fruit  
Milk & Juice

Porter Road

## LIFE-CHANGING MEAT

### THE PORTER ROAD DIFFERENCE

What makes our meat better? It starts with the farmers and carries through to the butchering. We believe that humane, sustainable, and thoughtful practices are not only better for the animals and environment, but they result in a more tasty product.

### FLAVOR STARTS ON THE FARM

Porter Road is committed to working with farmers who raise animals ethically and sustainably. We vet our farmers against the highest possible standards and regularly visit their farms to make sure the animals are raised outside on pasture, fed vegetarian and non-GMO feed, and given proper attention at every stage. When our farmers pass the fruits of their labor off to us, it is our duty to do everything we can to preserve their hard work and to treat the animals with the utmost respect.

### BEEF

All of our beef is dry aged, which allows moisture to evaporate, and lets naturally occurring enzymes tenderize the meat, developing the rich, umami flavor you love. Our devotion to the animal continues as we make sure nothing good goes to waste. Our ground beef is a whole animal grind with an 80/20 ratio for optimal juicy tenderness.

### PORK

Our hogs live outdoors on pasture where they roam, root, and forage which helps develop a deep flavor profile. All our pork products benefit from raising our animals the right way. Our sausages, made without any fillers or flavor additives, have been perfected over the many years we've been in business. We're proud to offer pork that is delicious as a result of conscientious farming and butchering.
