NORTH KANSAS CITY SCHOOLS

BOND

ZERO TAX INCREASE

April 8, 2025

EVERY STUDENT EVERY STAGE

North Kansas City Schools serves nearly 22,000 students and their families – and we're growing! To ensure every student has access to world-class learning opportunities from preschool to graduation, we're proposing vital building upgrades districtwide. These plans are based directly on feedback from our community. Thank you!

On April 8, we'll ask voters to consider a **$175 million zero tax increase bond issue** to make these improvements a reality.

Fine & Performing Arts Renovations

New performing arts additions to Oak Park and Winnetonka will expand opportunities for students in several areas, including theater, choir, band, orchestra, and more. The new PAC will also serve as a hub for feeder pattern events, providing a common space that welcomes all future Northmen and Griffins.

Major Renovations at Middle Schools

Extensive renovations will benefit Northgate and New Mark, including the addition of a new gym and high-wind shelter at each building. At New Mark, a renovated library space will welcome students, while accessibility improvements will be made at Northgate. Both schools will see extensive flooring, paint and lighting updates.

& More!

Big upgrades are coming! Oakwood Manor will get a brand-new gym, plus updated finishes throughout the school. Phase one also includes new storage facilities, maintenance projects, and plans to purchase the Northland Innovation Center, saving funds long-term.
