Pharmacy Course Descriptions:

Principles of Health Science- HLT2000 (1 Credit)

Level: 1 Course Fee: \$15
Prerequisite: None GPA Weight: Regular

The Principles of Health Science course is designed to provide an overview of the therapeutic, diagnostic, health informatics, support services, and biotechnology research and development systems of the healthcare industry.

Medical Terminology- HLT1000MT (1 Credit)

Level: 2 Course Fee: None
Prerequisite: None GPA Weight: Regular

The Medical Terminology course is designed to introduce students to the structure of medical terms, including prefixes, suffixes, word roots, singular and plural forms, and medical abbreviations. The course allows students to achieve comprehension of medical vocabulary appropriate to medical procedures, human anatomy and physiology, and pathophysiology.

Health Science Theory- HLT3100 (1 Credit)

Level: 3 Course Fee: \$15 + Uniform
Prerequisite: Biology and 1 Additional Health Science Course
GPA Weight: Regular

The Health Science Theory course is designed to provide for the development of advanced knowledge and skills related to a wide variety of health careers. Students will employ hands-on experiences for continued knowledge and skill development.

Health Science Clinicals- HLT2110 (2 Credits)

Level: 3 Course Fee: \$100 + Uniform
Prerequisite: Biology and 1 Additional Health Science Course
GPA Weight: Regular

The Health Science Clinical course is designed to provide for the development of advanced knowledge and skills related to a wide variety of health careers. Students will employ hands-on experiences for continued knowledge and skill development. Districts are encouraged to offer this course in a consecutive block with Health Science Theory to allow students sufficient time to master the content of both courses.

Anatomy and Physiology- SCI4240(D) (1 Credit)

Level: 3 Course Fee: \$15
Prerequisite: Biology and Chemistry, IPC, or Physics
GPA Weight: Regular or Advanced

The Anatomy and Physiology course is designed for students to conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students in Anatomy and Physiology will study a variety of topics, including the structure and function of the human body and the interaction of body systems for maintaining homeostasis. **Note: This course satisfies a science credit requirement for students on the Foundation High School Program.**

Available for Dual Credit from Lone Star College (BIOL2401, 2)

Practicum in Pharmacy- HLT3420 (2 Credits)

Level: 4 Course Fee: \$65 + Uniform + Individual Licensing Fees
GPA Weight: Regular

Prerequisite: Health Science Theory/Clinicals, Biology, and 1 Additional Health Science Course

The Practicum in Pharmacy course is designed to give students practical application of previously studied knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of the experience.
