

Guidelines

Students get a total of 30 semester hours each year.

Regular high school only classes must be included in this total

$30 - (\text{high school credits} \times 3) = \text{max CCP hours}$

Summer classes count toward the following year's 30 hours and cannot be used for sports eligibility

If a student enrolls in more than 30 hours, they can either drop a course before the deadline or opt for self pay.

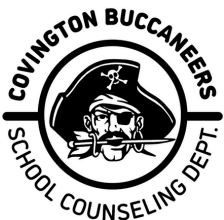

There is a program maximum of 120 hours per student

Overview

- Ohio's dual enrollment program for students in grades 7-12 to earn college credits at the same time as high school credits.
- Students must apply and be accepted into the college, and be determined "eligible" based on exam scores or multiple measure.
- Students should be prepared for the rigor and independence required for college level coursework.
- They are a college student. Their grades in CCP classes count towards both their high school and college GPA.
