All potential students are required to come in and meet with leadership before being accepted. At this time, we discuss all life circumstances that may hinder a student from learning, and work towards support for the student. Are there any circumstances we need to be aware of at this time? If yes, please describe:

As the parent/guardian of the applicant, I understand that all students must uphold the Tulsa MET way, treating others with respect and showing growth, and failure to do so will result in the student being asked to return to their home school site. All new students are on a one semester probation to ensure a good fit.
