

Finn Hill Middle School

ATHLETICS STUDENT CONDUCT

Academic Expectations

Student athletes are expected to have passing grades in order to participate in games. Passing grades are defined as an A, B, or C. If a student athlete has one or more below standard grades (N or D), then the student will need to do the following in order to be eligible to play: attend Falcon Flex for any class that he/she has a D or N in, and have teachers sign off on a grade tracker.

If a student does not have a passing grade but is making progress towards improving his/her grade (as indicated by the grade tracker signed by teachers), then he/she may play in the game.

Attendance Expectations

Students must be present for four or more periods in the school day to attend practice or play in a game. Students who are not present for four or more periods may still attend the practice or game but must sit out.

Behavior Expectations

Students who have an office referral, lunch detention, in-school or out-of-school suspension, may not participate in practice or games on the same day as the consequence. Students who have received an in-school or out-of-school suspension may not attend practice or games. Students who have received an office referral or lunch detention may attend practice or a game but must sit out.
