## **Pony Post 2/3/25**

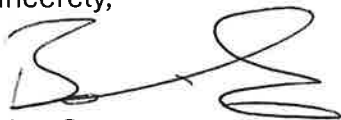

At Havre Public Schools last year, we asked all parents, staff, and community members to take part in a Comprehensive Needs Assessment. The feedback from this survey has been analyzed and is now being used to improve a variety of areas within the district.

The COPS grant project was completed this fall which focused on building security and safety, along with updates to all bells and paging systems. Our district now has one of the most advanced systems in the state, when it comes to proving communication with emergency responders. Havre Public Schools has also updated all Automated External Defibrillators (AED's) within our buildings. These machines are used to restart a heart that has stopped beating.

From a communication standpoint, Havre Public Schools is using a variety of platforms to keep our families informed. Team Reach is now being used as our activity communication platform, for all families with children in grades 7-12. Monthly newsletters home, Infinite Campus messaging, and our District Website are all used to improve communication. As the superintendent, I am doing a monthly radio show, creating a monthly flyer called Pony Posts, and sending out messages on Facebook to our community.

Finally, Havre Public Schools is offering more classes now than ever when it comes to Dual Credit/Dual Enrollment. Students this year are not only taking classes online from Great Falls College and MSUN but are going up to the MSUN campus to take classes in person. Last year Havre High School had 312 students participate in Dual Credit/Dual Enrollment courses. Over half of our high school is now taking advantage of these classes which allow students to receive high school and college credit simultaneously.

Sincerely,

Brian Gum

Superintendent

Havre Public Schools
