

STRATEGIC Kids®

at Twin City Elementary

Winter

Early Spring

In this magical class, our fun instructors will challenge students to create the world of Harry Potter with LEGO®! In the program, we sort students into a House and earn points towards The House Cup. The class will focus on creating short stories in places familiar to Harry and his fellow wizards. Students - get ready to learn some LEGO® magic (building techniques), Harry Potter lore, and to sharpen your imagination!

LEGO: Master Builders introduces students to the world of architecture and ignites their imagination! In this fun and engaging class, students learn simple architectural concepts while having a blast building their very own skyscrapers, columns, arches, piers, skylines, and more. The session culminates in an exciting challenge where they can design and build their own city, incorporating all the ideas they've learned in class!

LEGO® Teaches

- Fine Motor Skills
- Spatial Awareness
- Experimentation
- Constructive Planning
 - Teamwork
 - Concentration
