1. Minutes of 2/03/2021 were approved.

2. Review of Student Assessment Data

Melissa shared various student assessment data for grades 6-12; elementary data was not complete at this time. The results of the State's Youth Risk Survey as well as the SABERS survey taken voluntarily by 267 BHS students showed an immediate need for counselors to 'push in' to classes as well as meet one on one to offer mental health support more so this year than in other years.

Academic assessment results showed an overall decline; keep in mind that there have been just 56 in person instructional days thus far. Since this is our first year using Galileo, there is no baseline data to compare to. Curriculum Directors are looking for common deficiencies and working with teachers to analyze and target areas to improve instruction and areas that need reteaching.

3. Wampanoag Educational PD and Support: we have agreed to partner with the Mashpee Tribe in an Indian Educational Grant. We have about 40-50 students with ties to the Tribe.
