

Crest Memorial School Curriculum and Pacing Guide	
Grade: Kindergarten	Subject Area: General Music
Adoption Date:	Revision Date: September, 2024

<b>Mission and Vision Statements</b>
<p><i>Mission:</i> To empower students to develop creative and critical thinking, social-emotional competencies, and intellectual and expressive abilities that will allow them to become active, contributing members of a global society.</p> <p><i>Vision:</i> All students will have equitable access to a quality, arts education that leads to artistic literacy and fluency in the artistic practices of the five art disciplines as a mechanism for: ● Performing, presenting or producing, as artistically literate individuals, by expressing and realizing creative ideas and implementing essential technical skills and cognitive abilities significant to many aspects of life and work in the 21st century; ● Responding to artistic ideas and work with personal meaning and cognizance of the ability of the arts to address universal themes, including climate change; ● Creating new artistic work reflective of a variety of ethnic, racial, and cultural perspectives; and ● Connecting and evaluating how the arts convey meaning through all arts and non-arts disciplines and contexts of our global society. The New Jersey Student Learning Standards for Visual and Performing Arts (NJSLs-VPA) describe the expectations for literacy and fluency in five artistic disciplines: dance, music, theatre, visual arts, and media arts. Each artistic discipline has independent skills, knowledge, and content. However, as a field, the arts are interdependent, connected, and inclusive. The NJSLs-VPA are designed to guide the delivery of arts education in the classroom with new ways of thinking, learning, and creating. The vision of all students having equitable access to a quality arts education is only achieved when the five arts disciplines are offered continuously throughout the K-12 spectrum.</p>

**Inclusive concepts**

- **Diverse Musical Repertoire**
  - **Incorporate Music from Different Cultures:** Include a wide range of musical styles, genres, and traditions from around the world (e.g., African drumming, Latin rhythms, classical music, folk songs, indigenous music). This helps students understand and appreciate the global nature of music.
  - **Highlight Underrepresented Composers and Musicians:** Introduce music by composers from diverse ethnicities, genders, and backgrounds. For instance, feature works by women composers, Black composers, and composers from marginalized

communities.

- **Representation Across Genres:** Provide exposure to both popular and classical music, as well as contemporary genres like hip hop, jazz, reggae, and electronic music. This helps cater to students' varied interests.

## Accessible Instruments and Technology

- **Adaptive Instruments:** Offer a variety of adaptive instruments to accommodate students with physical disabilities. For example, electronic keyboards with adjustable sizes or drums that can be played using switches or voice commands.
- **Assistive Technology:** Utilize music technology such as music notation software, virtual instruments, and apps that can support students with physical or learning disabilities (e.g., students with dyslexia or visual impairments).
- **Movement-Based Activities:** For students who might find playing traditional instruments challenging, incorporate movement activities that allow them to express themselves musically. This could include dance, rhythmic clapping, or body percussion.

## Encouraging Student Voice and Choice

- **Student-Centered Learning:** Allow students to choose songs or compositions to learn and perform, ensuring that their interests and preferences are respected. This can increase engagement and motivation.
- **Create Opportunities for Improvisation and Composition:** Allow students to create their own music or explore improvisation. This fosters creativity and gives students autonomy in their musical expression.

## 7. Culturally Responsive Pedagogy

- **Incorporate Students' Cultural Backgrounds:** Invite students to share music from their cultures and incorporate these into classroom activities. This not only fosters pride in their heritage but also enriches the learning experience for all.
- **Addressing Historical Contexts:** Teach music in context, including the history and social significance of different genres. For example, discussing how African American spirituals or protest songs influenced social change can deepen students' understanding of both music and history.

## 8. Fostering Collaboration and Teamwork

- **Inclusive Ensemble Activities:** Encourage group projects where students with different skill levels can collaborate and learn from each other. For instance, pairing students who are proficient in reading music with others who are more comfortable playing by ear.
- **Peer Mentoring:** Create opportunities for peer teaching and support, where students can help each other learn new skills or explain concepts in their own words, reinforcing a culture of mutual respect and support.

## 9. Safe and Supportive Classroom Environment

- **Promote a Growth Mindset:** Foster an environment where students feel safe to take risks and make mistakes without fear of judgment. Celebrate effort and progress, not just achievement.
- **Positive Reinforcement:** Provide praise and encouragement for all students, emphasizing their individual growth rather than comparison to others. This creates a positive, inclusive atmosphere where everyone feels motivated to participate.

**Inclusive concepts**

## • **Diverse Musical Repertoire**

- **Incorporate Music from Different Cultures:** Include a wide range of musical styles, genres, and traditions from around the world (e.g., African drumming, Latin rhythms, classical music, folk songs, indigenous music). This helps students understand and appreciate the global nature of music.
- **Highlight Underrepresented Composers and Musicians:** Introduce music by composers from diverse ethnicities, genders, and backgrounds. For instance, feature works by women composers, Black composers, and composers from marginalized communities.
- **Representation Across Genres:** Provide exposure to both popular and classical music, as well as contemporary genres like hip hop, jazz, reggae, and electronic music. This helps cater to students' varied interests.

## **Accessible Instruments and Technology**

- **Adaptive Instruments:** Offer a variety of adaptive instruments to accommodate students with physical disabilities. For example, electronic keyboards with adjustable sizes or drums that can be played using switches or voice commands.
- **Assistive Technology:** Utilize music technology such as music notation software, virtual instruments, and apps that can support students with physical or learning disabilities (e.g., students with dyslexia or visual impairments).
- **Movement-Based Activities:** For students who might find playing traditional instruments challenging, incorporate movement activities that allow them to express themselves musically. This could include dance, rhythmic clapping, or body percussion.

## **Encouraging Student Voice and Choice**

- **Student-Centered Learning:** Allow students to choose songs or compositions to learn and perform, ensuring that their interests and preferences are respected. This can increase engagement and motivation.
- **Create Opportunities for Improvisation and Composition:** Allow students to create their own music or explore improvisation. This fosters creativity and gives students autonomy in their musical expression.

## **7. Culturally Responsive Pedagogy**

- **Incorporate Students' Cultural Backgrounds:** Invite students to share music from their cultures and incorporate these into classroom activities. This not only fosters pride in their heritage but also enriches the learning experience for all.
- **Addressing Historical Contexts:** Teach music in context, including the history and social significance of different genres. For example, discussing how African American spirituals or protest songs influenced social change can deepen students' understanding of both music and history.

## **8. Fostering Collaboration and Teamwork**

- **Inclusive Ensemble Activities:** Encourage group projects where students with

different skill levels can collaborate and learn from each other. For instance, pairing students who are proficient in reading music with others who are more comfortable playing by ear.

- **Peer Mentoring:** Create opportunities for peer teaching and support, where students can help each other learn new skills or explain concepts in their own words, reinforcing a culture of mutual respect and support.

## **9. Safe and Supportive Classroom Environment**

- **Promote a Growth Mindset:** Foster an environment where students feel safe to take risks and make mistakes without fear of judgment. Celebrate effort and progress, not just achievement.
- **Positive Reinforcement:** Provide praise and encouragement for all students, emphasizing their individual growth rather than comparison to others. This creates a positive, inclusive atmosphere where everyone feels motivated to participate.

<b>Mission and Vision Statements</b>
<p><i>Mission:</i> To empower students to develop creative and critical thinking, social-emotional competencies, and intellectual and expressive abilities that will allow them to become active, contributing members of a global society.</p> <p><i>Vision:</i> All students will have equitable access to a quality, arts education that leads to artistic literacy and fluency in the artistic practices of the five art disciplines as a mechanism for: ● Performing, presenting or producing, as artistically literate individuals, by expressing and realizing creative ideas and implementing essential technical skills and cognitive abilities significant to many aspects of life and work in the 21st century; ● Responding to artistic ideas and work with personal meaning and cognizance of the ability of the arts to address universal themes, including climate change; ● Creating new artistic work reflective of a variety of ethnic, racial, and cultural perspectives; and ● Connecting and evaluating how the arts convey meaning through all arts and non-arts disciplines and contexts of our global society. The New Jersey Student Learning Standards for Visual and Performing Arts (NJSLs-VPA) describe the expectations for literacy and fluency in five artistic disciplines: dance, music, theatre, visual arts, and media arts. Each artistic discipline has independent skills, knowledge, and content. However, as a field, the arts are interdependent, connected, and inclusive. The NJSLs-VPA are designed to guide the delivery of arts education in the classroom with new ways of thinking, learning, and creating. The vision of all students having equitable access to a quality arts education is only achieved when the five arts disciplines are offered continuously throughout the K-12 spectrum.</p>

<b>Inclusive concepts</b>
<ul style="list-style-type: none"> <li><b>Diverse Musical Repertoire</b></li> </ul>

- **Incorporate Music from Different Cultures:** Include a wide range of musical styles, genres, and traditions from around the world (e.g., African drumming, Latin rhythms, classical music, folk songs, indigenous music). This helps students understand and appreciate the global nature of music.
- **Highlight Underrepresented Composers and Musicians:** Introduce music by composers from diverse ethnicities, genders, and backgrounds. For instance, feature works by women composers, Black composers, and composers from marginalized communities.
- **Representation Across Genres:** Provide exposure to both popular and classical music, as well as contemporary genres like hip hop, jazz, reggae, and electronic music. This helps cater to students' varied interests.

### Accessible Instruments and Technology

- **Adaptive Instruments:** Offer a variety of adaptive instruments to accommodate students with physical disabilities. For example, electronic keyboards with adjustable sizes or drums that can be played using switches or voice commands.
- **Assistive Technology:** Utilize music technology such as music notation software, virtual instruments, and apps that can support students with physical or learning disabilities (e.g., students with dyslexia or visual impairments).
- **Movement-Based Activities:** For students who might find playing traditional instruments challenging, incorporate movement activities that allow them to express themselves musically. This could include dance, rhythmic clapping, or body percussion.

### Encouraging Student Voice and Choice

- **Student-Centered Learning:** Allow students to choose songs or compositions to learn and perform, ensuring that their interests and preferences are respected. This can increase engagement and motivation.
- **Create Opportunities for Improvisation and Composition:** Allow students to create their own music or explore improvisation. This fosters creativity and gives students autonomy in their musical expression.

## 7. Culturally Responsive Pedagogy

- **Incorporate Students' Cultural Backgrounds:** Invite students to share music from their cultures and incorporate these into classroom activities. This not only fosters pride in their heritage but also enriches the learning experience for all.
- **Addressing Historical Contexts:** Teach music in context, including the history and social significance of different genres. For example, discussing how African American spirituals or protest songs influenced social change can deepen students' understanding of both music and history.

## 8. Fostering Collaboration and Teamwork

- **Inclusive Ensemble Activities:** Encourage group projects where students with different skill levels can collaborate and learn from each other. For instance, pairing

students who are proficient in reading music with others who are more comfortable playing by ear.

- **Peer Mentoring:** Create opportunities for peer teaching and support, where students can help each other learn new skills or explain concepts in their own words, reinforcing a culture of mutual respect and support.

## 9. Safe and Supportive Classroom Environment

- **Promote a Growth Mindset:** Foster an environment where students feel safe to take risks and make mistakes without fear of judgment. Celebrate effort and progress, not just achievement.
- **Positive Reinforcement:** Provide praise and encouragement for all students, emphasizing their individual growth rather than comparison to others. This creates a positive, inclusive atmosphere where everyone feels motivated to participate.

<b>Mission and Vision Statements</b>
<p><i>Mission:</i> To empower students to develop creative and critical thinking, social-emotional competencies, and intellectual and expressive abilities that will allow them to become active, contributing members of a global society.</p> <p><i>Vision:</i> All students will have equitable access to a quality, arts education that leads to artistic literacy and fluency in the artistic practices of the five art disciplines as a mechanism for: ● Performing, presenting or producing, as artistically literate individuals, by expressing and realizing creative ideas and implementing essential technical skills and cognitive abilities significant to many aspects of life and work in the 21st century; ● Responding to artistic ideas and work with personal meaning and cognizance of the ability of the arts to address universal themes, including climate change; ● Creating new artistic work reflective of a variety of ethnic, racial, and cultural perspectives; and ● Connecting and evaluating how the arts convey meaning through all arts and non-arts disciplines and contexts of our global society. The New Jersey Student Learning Standards for Visual and Performing Arts (NJSLs-VPA) describe the expectations for literacy and fluency in five artistic disciplines: dance, music, theatre, visual arts, and media arts. Each artistic discipline has independent skills, knowledge, and content. However, as a field, the arts are interdependent, connected, and inclusive. The NJSLs-VPA are designed to guide the delivery of arts education in the classroom with new ways of thinking, learning, and creating. The vision of all students having equitable access to a quality arts education is only achieved when the five arts disciplines are offered continuously throughout the K-12 spectrum.</p>

themselves musically. This could include dance, rhythmic clapping, or body percussion.

## Encouraging Student Voice and Choice

- **Student-Centered Learning:** Allow students to choose songs or compositions to learn and perform, ensuring that their interests and preferences are respected. This can increase engagement and motivation.
- **Create Opportunities for Improvisation and Composition:** Allow students to create their own music or explore improvisation. This fosters creativity and gives students autonomy in their musical expression.

## 7. Culturally Responsive Pedagogy

- **Incorporate Students' Cultural Backgrounds:** Invite students to share music from their cultures and incorporate these into classroom activities. This not only fosters pride in their heritage but also enriches the learning experience for all.
- **Addressing Historical Contexts:** Teach music in context, including the history and social significance of different genres. For example, discussing how African American spirituals or protest songs influenced social change can deepen students' understanding of both music and history.

## 8. Fostering Collaboration and Teamwork

- **Inclusive Ensemble Activities:** Encourage group projects where students with different skill levels can collaborate and learn from each other. For instance, pairing students who are proficient in reading music with others who are more comfortable playing by ear.
- **Peer Mentoring:** Create opportunities for peer teaching and support, where students can help each other learn new skills or explain concepts in their own words, reinforcing a culture of mutual respect and support.

## 9. Safe and Supportive Classroom Environment

- **Promote a Growth Mindset:** Foster an environment where students feel safe to take risks and make mistakes without fear of judgment. Celebrate effort and progress, not just achievement.
- **Positive Reinforcement:** Provide praise and encouragement for all students, emphasizing their individual growth rather than comparison to others. This creates a positive, inclusive atmosphere where everyone feels motivated to participate.

<p>Day 4: “How does this music make you want to move?”</p>	<p><b>MU.K.1.E1</b> [<i>Standard</i>] - Respond to music with movement: employ large body movement; demonstrate various locomotor and non-locomotor movements; use movement to enhance music, stories, and poems; and use the body to illustrate moods and contrasts in music.</p>	<ul style="list-style-type: none"> <li>• Listen to <a href="#">Goodbye, So Long, Farewell</a> to Global Sounds</li> <li>• Taking turns with bells, glockenspiels</li> <li>• Various musical instruments (bells, drums, tambourine)</li> </ul>

**Inclusive concepts**

**• Diverse Musical Repertoire**

- **Incorporate Music from Different Cultures:** Include a wide range of musical styles, genres, and traditions from around the world (e.g., African drumming, Latin rhythms, classical music, folk songs, indigenous music). This helps students understand and appreciate the global nature of music.
- **Highlight Underrepresented Composers and Musicians:** Introduce music by composers from diverse ethnicities, genders, and backgrounds. For instance, feature works by women composers, Black composers, and composers from marginalized communities.
- **Representation Across Genres:** Provide exposure to both popular and classical music, as well as contemporary genres like hip hop, jazz, reggae, and electronic music. This helps cater to students' varied interests.

**Accessible Instruments and Technology**

- **Adaptive Instruments:** Offer a variety of adaptive instruments to accommodate students with physical disabilities. For example, electronic keyboards with adjustable sizes or drums that can be played using switches or voice commands.
- **Assistive Technology:** Utilize music technology such as music notation software, virtual instruments, and apps that can support students with physical or learning disabilities (e.g., students with dyslexia or visual impairments).
- **Movement-Based Activities:** For students who might find playing traditional instruments challenging, incorporate movement activities that allow them to express themselves musically. This could include dance, rhythmic clapping, or body

percussion.

## Encouraging Student Voice and Choice

- **Student-Centered Learning:** Allow students to choose songs or compositions to learn and perform, ensuring that their interests and preferences are respected. This can increase engagement and motivation.
- **Create Opportunities for Improvisation and Composition:** Allow students to create their own music or explore improvisation. This fosters creativity and gives students autonomy in their musical expression.

## 7. Culturally Responsive Pedagogy

- **Incorporate Students' Cultural Backgrounds:** Invite students to share music from their cultures and incorporate these into classroom activities. This not only fosters pride in their heritage but also enriches the learning experience for all.
- **Addressing Historical Contexts:** Teach music in context, including the history and social significance of different genres. For example, discussing how African American spirituals or protest songs influenced social change can deepen students' understanding of both music and history.

## 8. Fostering Collaboration and Teamwork

- **Inclusive Ensemble Activities:** Encourage group projects where students with different skill levels can collaborate and learn from each other. For instance, pairing students who are proficient in reading music with others who are more comfortable playing by ear.
- **Peer Mentoring:** Create opportunities for peer teaching and support, where students can help each other learn new skills or explain concepts in their own words, reinforcing a culture of mutual respect and support.

## 9. Safe and Supportive Classroom Environment

- **Promote a Growth Mindset:** Foster an environment where students feel safe to take risks and make mistakes without fear of judgment. Celebrate effort and progress, not just achievement.
- **Positive Reinforcement:** Provide praise and encouragement for all students, emphasizing their individual growth rather than comparison to others. This creates a positive, inclusive atmosphere where everyone feels motivated to participate.

<b>Pacing Guide</b>	
<b>Unit 7: Traditional Sounds from Ireland and its impact on America</b>  Week 1: <b>Identify Irish music:</b> Recognize simple elements of Irish music, such as lively tempos and dance rhythms.	Week 1/ 4 Days
Week 2. <b>Engage with Irish instruments:</b> Introduce basic instruments, such as the tambourine or Irish drum (bodhrán), and their sounds.	Week 2/ 3 Days
<b>Week 3: Learn an Irish song:</b> Teach a simple, fun Irish song like "The Irish Washerwoman."	Week 3/ 2 Days
<b>Week 4: Movement and Dance:</b> Introduce a basic Irish dance move, or encourage free movement to the music.	Week 4/1 Day

<b>Unit Learning Goals</b>
<p><b>Objectives:</b> This lesson will introduce young students to the music and rhythms of Ireland, focusing on simple instruments, songs, and cultural traditions. The goal is to engage children with basic concepts like rhythm, melody, and dance while sparking interest in Irish culture.</p>

Core Instructional Materials: Shape instructions	Supplemental Materials: Websites
<ul style="list-style-type: none"> <li>● Chromebook</li> <li>● Instruments</li> </ul>	<ul style="list-style-type: none"> <li>● Google Classroom</li> <li>● Teacher Handouts</li> </ul>

Daily Targets	NJSLs Performance Expectations	Instructional Activities
<ol style="list-style-type: none"> <li>1) What is an Irish sound?</li> <li>2) What instruments create the sound of Irish music?</li> <li>3) Where is Ireland?</li> <li>4) How do we move to Irish music?</li> </ol>	<p><b>MU.K.5</b> [<i>Strand</i>] - Connect music to other art forms and subject areas through understanding the historical and cultural context of music</p> <p><b>MU.K.5.H1</b> [<i>Standard</i>] - Discuss and interpret characteristics of music heard in the home and community. 0x</p> <p><b>MU.K.5.H2</b> [<i>Standard</i>] - Identify family members and friends who sing or play instruments. 0x</p> <p><b>MU.K.5.H3</b> [<i>Standard</i>] - Sing songs and play singing games from various cultures. 0x</p> <p><b>MU.K.5.S1</b> [<i>Standard</i>] - Participate in activities that explore relationships between music and other arts through drawing, drama, movement, dance, and storytelling. 0x</p>	<ul style="list-style-type: none"> <li>● <b>Bodhrán (Irish Drum):</b> Show a picture of a bodhrán and demonstrate how it is played (usually with a small stick called a "tipper"). If you have a hand drum or tambourine, let the kids tap along to the beat to mimic the sound.</li> <li>● <b>Fiddle:</b> Briefly talk about the Irish fiddle, a type of violin, and how it's played in Irish folk music.</li> <li>● <b>Tin Whistle:</b> Mention this simple wind instrument, explaining how it sounds like a high-pitched flute. If you have a whistle or a similar item, let children listen to the sound.</li> <li>● Boomwackers</li> <li>● Echoing</li> <li>● Rhythm Relay</li> <li>● Drawing Notes on the Board</li> <li>● Music Freeze Style Dance</li> </ul> <p><b>Irish Dance Movements:</b> Irish dancing involves</p>

	<p><b>MU.K.5.S2</b> [<i>Standard</i>] - Participate in music activities that involve sharing, taking turns, and other ways of demonstrating good citizenship.</p>	<p><b>quick, lively steps. Teach the children a simple, fun movement:</b></p> <ol style="list-style-type: none"> <li>1. <b>Step forward with one foot.</b></li> <li>2. <b>Hop on the same foot.</b></li> <li>3. <b>Switch feet and repeat.</b></li> </ol> <ul style="list-style-type: none"> <li>•</li> </ul>
		<ul style="list-style-type: none"> <li>• Identify Loud and Soft sound</li> <li>• Parachute</li> <li>• (xylophone, keyboard, etc.)</li> <li>• Music with different tempos (fast/slow)</li> <li>• Scarves or ribbons for movement</li> <li>• Identification game</li> </ul>
		<ul style="list-style-type: none"> <li>• Listen to <a href="#">Goodbye, So Long, Farewell</a> from Global Sounds</li> <li>• Taking turns with bells, glockenspiels</li> <li>• Various musical instruments (bells, drums, tambourine)</li> </ul>

music. This helps cater to students' varied interests.

## Accessible Instruments and Technology

- **Adaptive Instruments:** Offer a variety of adaptive instruments to accommodate students with physical disabilities. For example, electronic keyboards with adjustable sizes or drums that can be played using switches or voice commands.
- **Assistive Technology:** Utilize music technology such as music notation software, virtual instruments, and apps that can support students with physical or learning disabilities (e.g., students with dyslexia or visual impairments).
- **Movement-Based Activities:** For students who might find playing traditional instruments challenging, incorporate movement activities that allow them to express themselves musically. This could include dance, rhythmic clapping, or body percussion.

## Encouraging Student Voice and Choice

- **Student-Centered Learning:** Allow students to choose songs or compositions to learn and perform, ensuring that their interests and preferences are respected. This can increase engagement and motivation.
- **Create Opportunities for Improvisation and Composition:** Allow students to create their own music or explore improvisation. This fosters creativity and gives students autonomy in their musical expression.

## 7. Culturally Responsive Pedagogy

- **Incorporate Students' Cultural Backgrounds:** Invite students to share music from their cultures and incorporate these into classroom activities. This not only fosters pride in their heritage but also enriches the learning experience for all.
- **Addressing Historical Contexts:** Teach music in context, including the history and social significance of different genres. For example, discussing how African American spirituals or protest songs influenced social change can deepen students' understanding of both music and history.

## 8. Fostering Collaboration and Teamwork

- **Inclusive Ensemble Activities:** Encourage group projects where students with different skill levels can collaborate and learn from each other. For instance, pairing students who are proficient in reading music with others who are more comfortable playing by ear.
- **Peer Mentoring:** Create opportunities for peer teaching and support, where students can help each other learn new skills or explain concepts in their own words, reinforcing a culture of mutual respect and support.

## 9. Safe and Supportive Classroom Environment

- **Promote a Growth Mindset:** Foster an environment where students feel safe to take risks and make mistakes without fear of judgment. Celebrate effort and progress, not just achievement.

- **Positive Reinforcement:** Provide praise and encouragement for all students, emphasizing their individual growth rather than comparison to others. This creates a positive, inclusive atmosphere where everyone feels motivated to participate.

<b>Mission and Vision Statements</b>
<p><i>Mission:</i> To empower students to develop creative and critical thinking, social-emotional competencies, and intellectual and expressive abilities that will allow them to become active, contributing members of a global society.</p> <p><i>Vision:</i> All students will have equitable access to a quality, arts education that leads to artistic literacy and fluency in the artistic practices of the five art disciplines as a mechanism for: ● Performing, presenting or producing, as artistically literate individuals, by expressing and realizing creative ideas and implementing essential technical skills and cognitive abilities significant to many aspects of life and work in the 21st century; ● Responding to artistic ideas and work with personal meaning and cognizance of the ability of the arts to address universal themes, including climate change; ● Creating new artistic work reflective of a variety of ethnic, racial, and cultural perspectives; and ● Connecting and evaluating how the arts convey meaning through all arts and non-arts disciplines and contexts of our global society. The New Jersey Student Learning Standards for Visual and Performing Arts (NJSLs-VPA) describe the expectations for literacy and fluency in five artistic disciplines: dance, music, theatre, visual arts, and media arts. Each artistic discipline has independent skills, knowledge, and content. However, as a field, the arts are interdependent, connected, and inclusive. The NJSLs-VPA are designed to guide the delivery of arts education in the classroom with new ways of thinking, learning, and creating. The vision of all students having equitable access to a quality arts education is only achieved when the five arts disciplines are offered continuously throughout the K-12 spectrum.</p>

### Inclusive concepts

#### • Diverse Musical Repertoire

- **Incorporate Music from Different Cultures:** Include a wide range of musical styles, genres, and traditions from around the world (e.g., African drumming, Latin rhythms, classical music, folk songs, indigenous music). This helps students understand and appreciate the global nature of music.
- **Highlight Underrepresented Composers and Musicians:** Introduce music by composers from diverse ethnicities, genders, and backgrounds. For instance, feature works by women composers, Black composers, and composers from marginalized communities.
- **Representation Across Genres:** Provide exposure to both popular and classical music, as well as contemporary genres like hip hop, jazz, reggae, and electronic music. This helps cater to students' varied interests.

#### Accessible Instruments and Technology

- **Adaptive Instruments:** Offer a variety of adaptive instruments to accommodate students with physical disabilities. For example, electronic keyboards with adjustable sizes or drums that can be played using switches or voice commands.
- **Assistive Technology:** Utilize music technology such as music notation software, virtual instruments, and apps that can support students with physical or learning disabilities (e.g., students with dyslexia or visual impairments).
- **Movement-Based Activities:** For students who might find playing traditional instruments challenging, incorporate movement activities that allow them to express themselves musically. This could include dance, rhythmic clapping, or body percussion.

#### Encouraging Student Voice and Choice

- **Student-Centered Learning:** Allow students to choose songs or compositions to learn and perform, ensuring that their interests and preferences are respected. This can increase engagement and motivation.
- **Create Opportunities for Improvisation and Composition:** Allow students to create

their own music or explore improvisation. This fosters creativity and gives students autonomy in their musical expression.

## 7. Culturally Responsive Pedagogy

- **Incorporate Students' Cultural Backgrounds:** Invite students to share music from their cultures and incorporate these into classroom activities. This not only fosters pride in their heritage but also enriches the learning experience for all.
- **Addressing Historical Contexts:** Teach music in context, including the history and social significance of different genres. For example, discussing how African American spirituals or protest songs influenced social change can deepen students' understanding of both music and history.

## 8. Fostering Collaboration and Teamwork

- **Inclusive Ensemble Activities:** Encourage group projects where students with different skill levels can collaborate and learn from each other. For instance, pairing students who are proficient in reading music with others who are more comfortable playing by ear.
- **Peer Mentoring:** Create opportunities for peer teaching and support, where students can help each other learn new skills or explain concepts in their own words, reinforcing a culture of mutual respect and support.

## 9. Safe and Supportive Classroom Environment

- **Promote a Growth Mindset:** Foster an environment where students feel safe to take risks and make mistakes without fear of judgment. Celebrate effort and progress, not just achievement.
- **Positive Reinforcement:** Provide praise and encouragement for all students, emphasizing their individual growth rather than comparison to others. This creates a positive, inclusive atmosphere where everyone feels motivated to participate.

Week 4: <b>Sharing our Compositions: Partner Practice and small group performances.</b>	Week 4/1 Day

<b>Unit Learning Goals</b>
----------------------------

## Lesson Objectives:

By the end of the lesson, students will:

1. Understand the concept of composing simple melodies and rhythms.
2. Experiment with creating their own short musical phrases.
3. Be introduced to basic musical symbols (notes, rest, rhythm).
4. Engage in creative group activities to make music together.

**Inclusive concepts**

**• Diverse Musical Repertoire**

- **Incorporate Music from Different Cultures:** Include a wide range of musical styles, genres, and traditions from around the world (e.g., African drumming, Latin rhythms, classical music, folk songs, indigenous music). This helps students understand and appreciate the global nature of music.
- **Highlight Underrepresented Composers and Musicians:** Introduce music by composers from diverse ethnicities, genders, and backgrounds. For instance, feature works by women composers, Black composers, and composers from marginalized communities.
- **Representation Across Genres:** Provide exposure to both popular and classical music, as well as contemporary genres like hip hop, jazz, reggae, and electronic music. This helps cater to students' varied interests.

**Accessible Instruments and Technology**

- **Adaptive Instruments:** Offer a variety of adaptive instruments to accommodate students with physical disabilities. For example, electronic keyboards with adjustable sizes or drums that can be played using switches or voice commands.
- **Assistive Technology:** Utilize music technology such as music notation software, virtual instruments, and apps that can support students with physical or learning disabilities (e.g., students with dyslexia or visual impairments).
- **Movement-Based Activities:** For students who might find playing traditional instruments challenging, incorporate movement activities that allow them to express

themselves musically. This could include dance, rhythmic clapping, or body percussion.

## Encouraging Student Voice and Choice

- **Student-Centered Learning:** Allow students to choose songs or compositions to learn and perform, ensuring that their interests and preferences are respected. This can increase engagement and motivation.
- **Create Opportunities for Improvisation and Composition:** Allow students to create their own music or explore improvisation. This fosters creativity and gives students autonomy in their musical expression.

## 7. Culturally Responsive Pedagogy

- **Incorporate Students' Cultural Backgrounds:** Invite students to share music from their cultures and incorporate these into classroom activities. This not only fosters pride in their heritage but also enriches the learning experience for all.
- **Addressing Historical Contexts:** Teach music in context, including the history and social significance of different genres. For example, discussing how African American spirituals or protest songs influenced social change can deepen students' understanding of both music and history.

## 8. Fostering Collaboration and Teamwork

- **Inclusive Ensemble Activities:** Encourage group projects where students with different skill levels can collaborate and learn from each other. For instance, pairing students who are proficient in reading music with others who are more comfortable playing by ear.
- **Peer Mentoring:** Create opportunities for peer teaching and support, where students can help each other learn new skills or explain concepts in their own words, reinforcing a culture of mutual respect and support.

## 9. Safe and Supportive Classroom Environment

- **Promote a Growth Mindset:** Foster an environment where students feel safe to take risks and make mistakes without fear of judgment. Celebrate effort and progress, not just achievement.
- **Positive Reinforcement:** Provide praise and encouragement for all students, emphasizing their individual growth rather than comparison to others. This creates a positive, inclusive atmosphere where everyone feels motivated to participate.

Grade: Kindergarten	Subject Area: General Music
Adoption Date:	Revision Date: June, 2024

<b>Mission and Vision Statements</b>
<p><i>Mission:</i> To empower students to develop creative and critical thinking, social-emotional competencies, and intellectual and expressive abilities that will allow them to become active, contributing members of a global society.</p> <p><i>Vision:</i> All students will have equitable access to a quality, arts education that leads to artistic literacy and fluency in the artistic practices of the five art disciplines as a mechanism for: ● Performing, presenting or producing, as artistically literate individuals, by expressing and realizing creative ideas and implementing essential technical skills and cognitive abilities significant to many aspects of life and work in the 21st century; ● Responding to artistic ideas and work with personal meaning and cognizance of the ability of the arts to address universal themes, including climate change; ● Creating new artistic work reflective of a variety of ethnic, racial, and cultural perspectives; and ● Connecting and evaluating how the arts convey meaning through all arts and non-arts disciplines and contexts of our global society. The New Jersey Student Learning Standards for Visual and Performing Arts (NJSLs-VPA) describe the expectations for literacy and fluency in five artistic disciplines: dance, music, theatre, visual arts, and media arts. Each artistic discipline has independent skills, knowledge, and content. However, as a field, the arts are interdependent, connected, and inclusive. The NJSLs-VPA are designed to guide the delivery of arts education in the classroom with new ways of thinking, learning, and creating. The vision of all students having equitable access to a quality arts education is only achieved when the five arts disciplines are offered continuously throughout the K-12 spectrum.</p>

<b>Pacing Guide</b>	
<b>Unit 10: Music Evaluating and Reflection</b>  Week 1: <b>Sing familiar songs:</b> Ask the kids what songs they remember from the year. For example, songs like “Twinkle, Twinkle, Little Star,” “If You're Happy and You Know It,” or “The Wheels on the Bus” are likely to be favorites. Sing together and encourage hand motions or actions that go with the song.	Week 2/ 2 Days
Week 2. <b>Music Concept Review:</b> <ul style="list-style-type: none"> <li>● <b>Loud and soft: Play a song and ask the children to make loud and soft noises with their instruments.</b></li> <li>● <b>Fast and slow: Play a song and have the children move or clap fast or slow depending on the tempo.</b></li> </ul>	Week 2/ Day 2
●	

<b>Unit Learning Goals</b>
<b>Objective:</b> <ul style="list-style-type: none"> <li>● <b>Review key concepts learned throughout the year.</b></li> </ul>

- Celebrate the end of the school year with a fun, interactive music session.
- Encourage creativity, cooperation, and self-expression.
