

# BRENTWOOD BULLETIN

PUBLISHED BY THE BOARD OF EDUCATION

WINTER 2025

## A NEW CHAPTER FOR BRENTWOOD SCHOOLS BUILDING THE FUTURE TOGETHER:

At Brentwood, our schools are more than just buildings – they're the heart of our community, where generations of families have found inspiration, education and the foundation for their futures. This summer and fall, the district took major steps to enhance and modernize our school facilities, ensuring that our students have access to safe, welcoming and innovative spaces that support their growth.

These projects are not just about today – they are investments for generations to come, reflecting the deep pride our community has in our schools.

Many Brentwood families have personal ties to our district, with parents who once walked these same halls now watching their children do the same. This sense of legacy and connection drives our commitment to providing the very best for our students, preparing them for success not only in the classroom but in life.

These improvements support the district's Graduation Plus+ initiative, which empowers students to graduate with more than just a diploma – offering opportunities to earn college credits, industry certifications and workforce readiness skills that open doors to their future.

### MODERNIZING OUR SCHOOLS FOR SUCCESS

This year, the district completed significant capital improvement projects across various school buildings and grounds. These updates included critical infrastructure upgrades, ensuring our schools are safe, efficient and equipped to meet the needs of today's learners. From enhanced classrooms to improved common areas, every project is designed to foster creativity, collaboration and academic achievement.

By focusing on modernizing facilities, the district is laying the foundation for long-term success. These updates are creating environments where students and staff can thrive, providing the tools they need to achieve excellence.

### FISCAL RESPONSIBILITY AND EFFICIENCY

The district worked hard to fund these projects responsibly, utilizing a combination of federal stimulus allocations, general budget funds, and transfer-to-capital monies specifically earmarked for construction. These efforts ensured that the projects were completed without impacting taxpayers while maximizing the resources available to us. This careful planning demonstrates our commitment to fiscal responsibility while delivering on our promise to improve our schools.

### A LEGACY FOR GENERATIONS

The positive impact of these projects extends beyond the classroom, fostering a sense of pride and ownership among students, staff and the broader Brentwood community. For many, these schools represent a shared legacy, with improvements that honor the past while preparing for the future. By enhancing our facilities today, we are creating opportunities that will benefit not just current students but generations to come.

### THANK YOU, BRENTWOOD

To our Brentwood families and community members: Thank you for your unwavering support and trust. These projects reflect our shared belief in the boundless potential of our students. Together, we are building a brighter future, one where every child has the opportunity to succeed.

Included in this publication, you will find examples of the incredible work completed across the district. These updates are just the beginning of what we can achieve together as we continue to build, grow and thrive as one Brentwood community.

*This publication is designed to inform residents of the Brentwood School District community of news about your schools. For further information, call 434-2334.*
