OFFICE OF EDUCATION

# PROJECT WET WORKSHOP WEATHER, WATER & OUR ENVIRONMENT

## CLIMATE CHANGE FOR ELEMENTARY

Project Wet and the San Joaquin County Office of Education in collaboration with the CAL-MSCS and the CREEC Network invite elementary educators to join us for a special workshop in which we will dive into climate change from an elementary perspective focusing on weather, water and our environment.

Understanding climate change and its connection to weather, water and the environment are important building blocks to help young learners become stewards of our planet.

Project Wet activities are designed to engage students in the study of water through hands-on activities, use of models, and reality-based scenarios. The interdisciplinary activities supplement existing curriculum, are correlated to Common Core and Next Generation Science Standards, and provide strong foundations for STEAM, Project-Based, and Service Learning Programs.

**Saturday March 1, 2025**

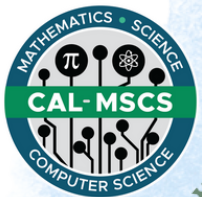

9:00 am - 3:00 pm

**Teachers College of San Joaquin**

2721 Transworld Dr,  
Stockton CA, 95206
