- Good morning everybody, this is Andrea Jimenez, the current Club Editor of Key Club, and I'd like to share some important information about suicide that can help us understand it better. Suicide is a significant mental health issue that touches millions of people across America. Knowing the warning signs and risk factors of suicide is an important way to take part in suicide prevention and could help others in crisis or at risk of suicide. Some signs may look like; isolation from friends and family, withdrawing from activities, sleeping too much or too little, giving away prized possessions, loss of interest or motivation, fatigue or aggression, and increased use of alcohol or drugs. If you or someone you know exhibits any of these signs, seek help by reaching out to the #988 lifeline.
- Hey Juniors! Check your email for a google form from Ms. Rivera regarding the Junior Homecoming hallway decorations. Make sure to fill it out as soon as possible so your contribution can be included!
