Dear Families,

We are writing to update you on a cybersecurity breach that has affected PowerSchool, the company that provides Sauk Centre Public Schools student information system. PowerSchool recently discovered unauthorized access to its systems and is working to address the situation. Sauk Centre Public Schools has been identified as a school potentially impacted by the breach.

Holy Family School receives internet access through the Public School, which also impacts students and families at HFS, even though you do not use the same student information system.

The data that may have been compromised includes parent and student contact information. It is worth noting that this breach is on PowerSchool's end and has not affected any of our other systems in the district. PowerSchool has notified us that they have contained the breach and are working to prevent any of the compromised data from further unauthorized access or misuse.

We will be continuing to monitor this situation and will update you with additional information as this matter develops. In the meantime, please be diligent about watching and securing your personal information.

Thank you for your attention to this important update.

Sincerely,

Don Peschel
Superintendent
Sauk Centre Public School
