Tuberculosis Tests

No applicant shall be initially employed in a classified or certificated position unless, within the past 60 days, he/she has submitted to an intradermal tuberculin skin test or other approved tuberculin test and, if that test was positive, has subsequently obtained an x-ray of the lungs. The applicant shall submit to the district a certificate signed by an authorized health care provider indicating that he/she is free of active tuberculosis. (Education Code 49406; 5 CCR 5503)

The cost of the pre-employment tuberculosis examination shall be paid by the applicant.

Prior to employment by the district, an applicant shall submit a certificate from an authorized health provider stating that the applicant was assessed and/or examined and found to be free of infectious tuberculosis. (Education Code 49406)

An applicant who was previously employed in another school district or private or parochial school shall be deemed to have fulfilled the tuberculosis testing requirement if he/she produces a certificate showing that he/she was found to be free of infectious tuberculosis within 60 days of initial hire or if his/her previous employer verifies that it has a certificate on file showing that the applicant is free from infectious tuberculosis. (Education Code 49406)

Thereafter, each district employee who was found free of infectious tuberculosis shall undergo a tuberculosis risk assessment, and an examination whenever risk factors are identified, at least once every four years or more often when required by the Governing Board upon recommendation of the county health officer. However, once an employee has a documented positive test for tuberculosis infection followed by an x-ray, he/she shall no longer be required to submit to the tuberculosis risk assessment but shall be referred to the county health officer within 30 days of the examination to determine the need for follow-up care. (Education Code 49406)

Whenever the district contracts for the transportation of students, the contract shall require that all drivers who will be transporting students complete the tuberculosis risk assessment and, if indicated, the examination for infectious tuberculosis within 60 days of initial hire. (Education Code 49406)

The following applicants or employees shall be exempted from the requirement to submit to a tuberculosis risk assessment and/or examination: (Education Code 49406)

1. An applicant/employee who files an affidavit stating that he/she adheres to the faith or teachings of a well-recognized religious sect, denomination, or organization and, in accordance with its creed, tenets, or principles, depends for healing upon prayer in the practice of religion and that, to the best of his/her knowledge and belief, he/she is free from infectious tuberculosis

Such an exemption shall be allowed only if the Board determines by resolution, after a hearing, that the health of students would not be jeopardized. If at any time there is probable cause to believe that the applicant/employee is afflicted with infectious tuberculosis, he/she may be excluded from service until the Board is satisfied that he/she is not afflicted.

(cf. 4030 - Nondiscrimination in Employment)

2. A classified employee who is employed for less than a school year and whose functions do not require frequent or prolonged contact with students

Subject:	<u>Health Examinations</u>	Revised	09/23/15

3. A pregnant employee who has positive results on a tuberculosis skin test, in which case she shall be exempted from the requirement to follow up with an x-ray of the lungs for a period not to exceed 60 days after the end of the pregnancy

4. A private contracted driver who transports students infrequently without prolonged contact with students.

Medical Certification for Communicable Diseases for Certificated Employees

The Board shall not fill a position requiring certification with an applicant who has not previously been employed in a certificated position in California or a retirant who has not been employed as a retirant, unless the district has on file a medical certification completed and submitted directly to the district by an authorized health care provider. (Education Code 44839, 44839.5)

(cf. 4117.14/4317.14 - Postretirement Employment)

The medical certification shall certify that the applicant or retirant is free from any disabling disease which would render him/her unfit to instruct or associate with children. The medical examination referred to in the certificate must have been conducted within six months of the date that the certificate is filed. (Education Code 44839, 44839.5; 5 CCR 5503)

(cf. 4119.41/4219.41/4319.41 - Employees with Infectious Disease)

Applicants and retirants shall pay for the cost of obtaining the medical certification. (Education Code 44849, 44839.5)

The Board may require certificated employees and/or retirants to undergo, at district expense, a periodic medical examination pursuant to Education Code 44839 or 44839.5 to determine that they are free from any communicable disease making them unfit to instruct or associate with children. (Education Code 44839, 44839.5)

Mental Examination for Certificated Employees

A certificated employee may be suspended or transferred to other duties if the Board has reasonable cause to believe that the employee is suffering from mental illness of such a degree as to render him/her incompetent to perform his/her duties. In such a case, the district shall follow the process specified in Education Code 44942 and the district's collective bargaining agreement, including the opportunity for the employee to be examined by a panel of psychiatrists or psychologists.

(cf. 4032 - Reasonable Accommodation)

(cf. 4118 - Suspension/Disciplinary Action)
