Subject: Physical Education and Activity

Definitions

Physical education is a sequential educational program that teaches students to understand and participate in regular physical activity that assists in developing and maintaining physical fitness throughout their lifetime, understand and improve their motor skills, enjoy using their skills and knowledge to establish a healthy lifestyle, and understand how their bodies work.

Physical activity is bodily movement that is produced by the contraction of skeletal muscle and that substantially increases energy expenditure, including exercise, sport, dance, and other movement forms.

Moderate physical activity is any activity which generally requires sustained, rhythmic movements and refers to a level of effort a healthy individual might expend while, for example, walking briskly, dancing, swimming, or bicycling on level terrain. A person should feel some exertion but should be able to carry on a conversation comfortably during the activity.

Vigorous physical activity is any activity which generally requires sustained, rhythmic movements and refers to a level of effort a healthy individual might expend while, for example, jogging, participating in high-impact aerobic dancing, swimming continuous laps, or bicycling uphill. Vigorous physical activity may be intense enough to result in a significant increase in heart and respiration rate.

Instructional Time

Instruction in physical education shall be provided for at least the following minimum period of time. (Education Code 51210, 51222, 51223)

- For students in grades 9-12, 400 minutes each 10 school days

If the instructional minute requirement cannot be met during any 10-day period due to inclement weather, a school assembly, field trip, student assessment, or other circumstance, the school shall make up those minutes on another day in order to satisfy the instructional minute requirement.

The Superintendent or designee shall determine a method to document compliance with the required number of instructional minutes. Such documentation may include, but not be limited to, a master schedule, bell schedule, weekly schedule for each teacher providing physical education instruction, district calendar, teacher roster, or log for staff or students to record the number of physical education minutes completed.

Any complaint alleging noncompliance with the instructional minute requirement may be filed in accordance with the district's procedures in AR 1312.3 - Uniform Complaint Procedures. A complainant not satisfied with the district's decision may appeal the decision to the California Department of Education (CDE). If the district or CDE finds merit in a complaint, the district shall provide a remedy to all affected students and parents/guardians. (Education Code 51210, 51222, 51223; 5 CCR 4600-4670)
