Subject:	Graduation Requirements/ <u>Standards of Proficiency</u>	Effective	12/11/80
		Revised	3/16/88

---

Graduation from our public schools implies that students have satisfactorily completed the prescribed course of study for the several grade levels in accordance with their respective abilities to achieve and that they have satisfactorily passed any examinations and other requirement set forth by the faculty and standards of proficiency as required by law.

The faculty will submit their detailed requirements and standards of proficiency to agree with the goals of our school(s) as adopted by the governing board in accord with law. It is expected that the faculty will apply measures of achievement to provide evidence that each student has progressed far enough toward school goals to warrant graduation according to the terms of paragraph number one above.

The Governing Board, in recognition of its responsibility for the education of all youths in the school system, including those who drop out of school, may make available to all the school district's youths alternative programs for meeting standards that will enable them to acquire a high school diploma.
