

Trustee Boundary Maps

Liberty Union High School District

Presented by Ken Reynolds

President, SchoolWorks, Inc.

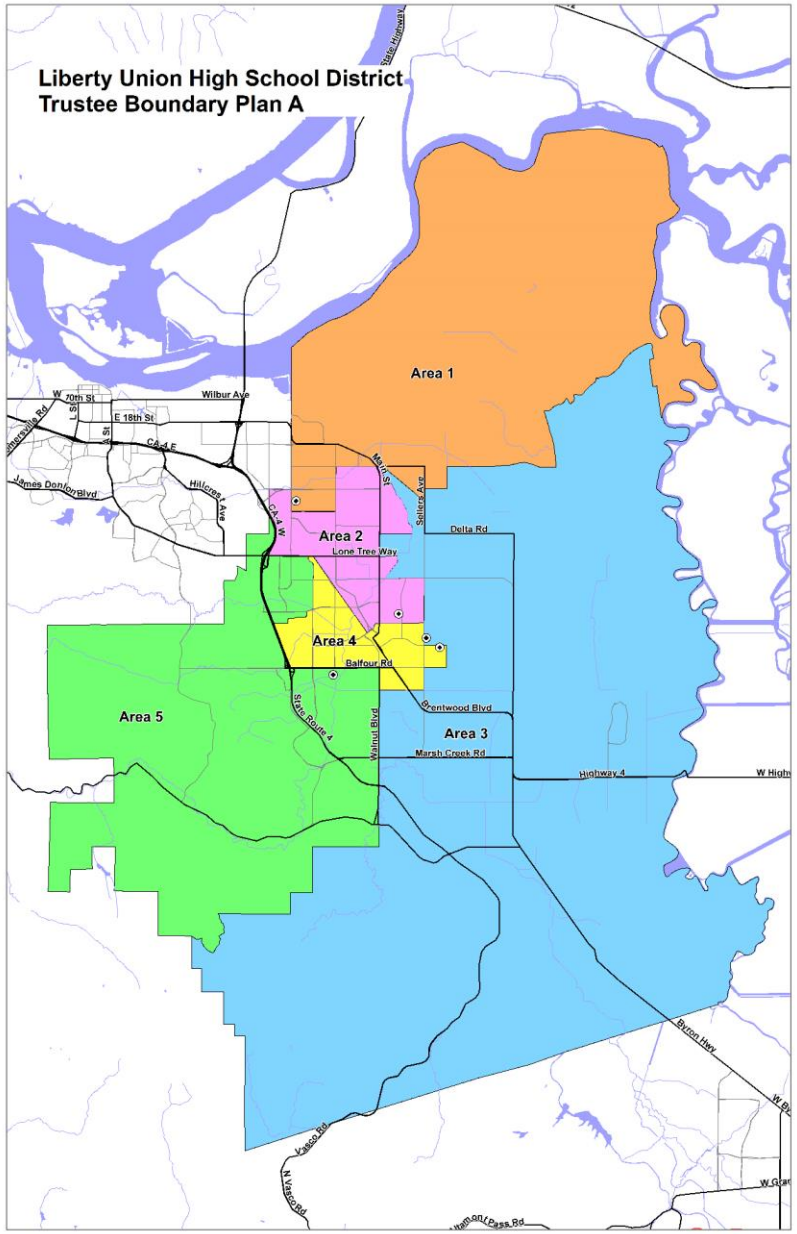

INTRODUCTION

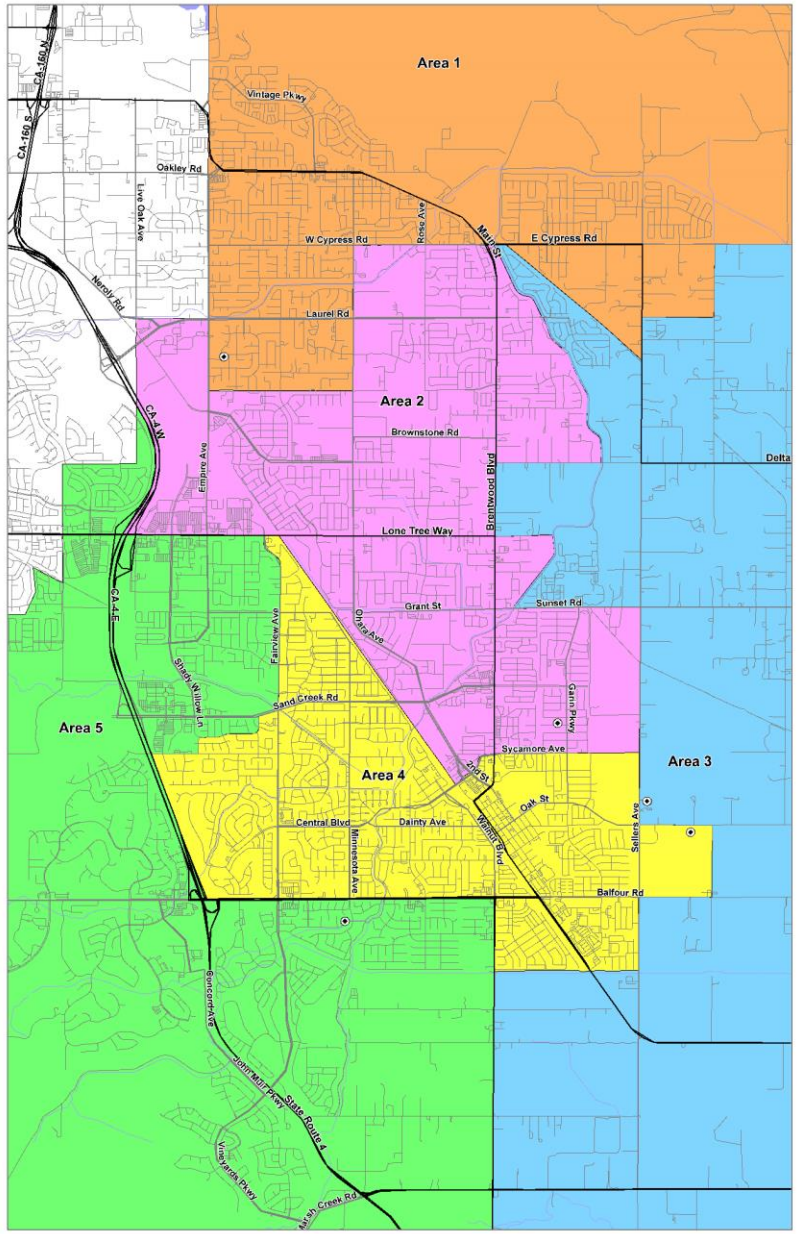

This presentation illustrates options for the District to draw maps that balance the total population for each of the trustee areas..

- The general guidelines for drawing trustee boundaries include:
  - Topography & Geography
  - Communities
  - Cohesiveness & Contiguous
  - Location of Current Trustees
  - Equal Population

- For each scenario, there are maps showing the boundaries for each trustee area, a table showing the population in each trustee area and the variance from the ideal population. The peak deviation must be less than 10% for the maps to meet the legal requirements. Finally, details of the racial/ethnic populations are provided.

SUMMARY OF PLANS

The plans in this report were created by considering all of the guidelines for drawing trustee areas with a requirement to balance the population in each trustee area. If the peak deviation has a value of less than 10% then it is a viable option. Each scenario includes one trustee in each boundary.

- Plan A = 7.05% peak deviation, elementary boundary lines were considered in this map, better balanced at ages 0-17
- Plan B = 2.42% peak deviation, high school boundary lines were considered in this map

CONCLUSION / NEXT STEPS

These Maps show possible solutions for the board to consider when establishing trustee areas for each of its trustees.

Additional maps can be generated based on input from the board and the community.

Once a final decision is made to approve a boundary map, the map will need to be submitted to the County Committee for review and approval.

THANK YOU
