- 2 Requirements to start a small business are proper licensing, registering a business name and getting one of these
- 5 improving this can lead to higher wages
- 6 compellition depresses wages because companies are offshoring to other countries with lower wages
- 10 Joining one of these is a way to develop a network of friends and colleagues
- 14 women, minorities and elderly have increased in this. It does not include people who are not paid (homemakers, volunteers), active duty military and prison inmates
- 15 the NewDeal period in US History was very supportive of this. Unions use this to improve wages and working conditions.
- 16 these laws prohibit employers from requiring employees to join unions

17 This post war act limited the power of unions

DOWN

- 18 these increase costs to employers and lower wages
- 19 owners have some control but also benefit from the support and recognition of the parent company
- 21 when companies move operations to facilities outside of US. It can lead to lower wages for Americans because they are competing for jobs with lower wage workers on other countries.
- 22 workers that can read and write and do basic math are considered this

- 1 this group often earns less because they lose experience when they leave the workforce to take care of their family
- 3 manufacturing jobs have declined because of these two things

historically underrepresented groups.

- 5 workers take these to build experience in their field
- 7 this law required employers to recognize unions and bargain with them
- 8 harsh working conditions and a higher cost of living can lead to these
- 9 the first step to building this is to identify aptitudes, interests and aspirations. One can also get more education and build a personal network.
- 11 with some exceptions, these two things determine wages
- 12 the process by which people around the world are becoming increasingly interconnected. It also causes job loss in some industries.
- 13 using outside contractors
- 20 the shift of jobs toward this sector can be explained by innovations that increase gains in productivity but reduce the need for workers.

9. The goal of this is to increase the representation of historically underrepresented groups
