

Trade School Information

Manual labor jobs that require a specific skill set or training are categorized as trade careers. Many trades provide on-the-job training, or you can go to a vocational school and hit the ground running in less than two years. A skilled trade is any occupation that requires a particular skill set, knowledge, or ability. Skilled trades generally fall into five broad categories: agricultural, construction, transportation, service, and manufacturing and industrial.

Erie 1 BOCES

- CNC Manufacturing and Machining
- Mechatronics

Technology Colleges

Alfred State

- Autobody Repair
- Automotive Service Technician
- Building Construction: Building Trades
- CNC Manufacturing and Machining
- Construction Engineering Technology
- Culinary Arts
- Culinary Arts: Baking Production & Management
- Electrical Construction & Maintenance Electrician
- Forest Technology
- HVAC
- Heavy Equipment Operations
- Heavy Equipment, Truck & Diesel Technician
- Welding Technology

SUNY Canton

- Apprentice Training: Industrial Trades
- Automotive Technology
- Forest Technology
- HVAC Engineering Technology
- HVAC Trades
- Mechanical Engineering Technology

SUNY Cobleskill

- Culinary Arts
- Diesel Technology
- Landscape Development

SUNY Delhi

- Automotive Mechanics
- Automotive Technology
- Baking & Pastry Arts
- Construction Technology
- Culinary Arts
- Electrical Construction & Instrumentation
- Electrical Construction & Plumbing
- Electrical Construction & Refrigeration
- Electrical Construction & Utility Operations
- HVAC
- Plumbing & Electrical Instrumentation
- Plumbing & Refrigeration
- Refrigeration & Instrumentation
- Residential Construction
- Welding Technology
- Welding Technology: Pipefitting

SUNY Morrisville

- Autobody Technology
- Automotive Technology
- Diesel Equipment Technology
- Diesel Technology
- Massage Therapy
