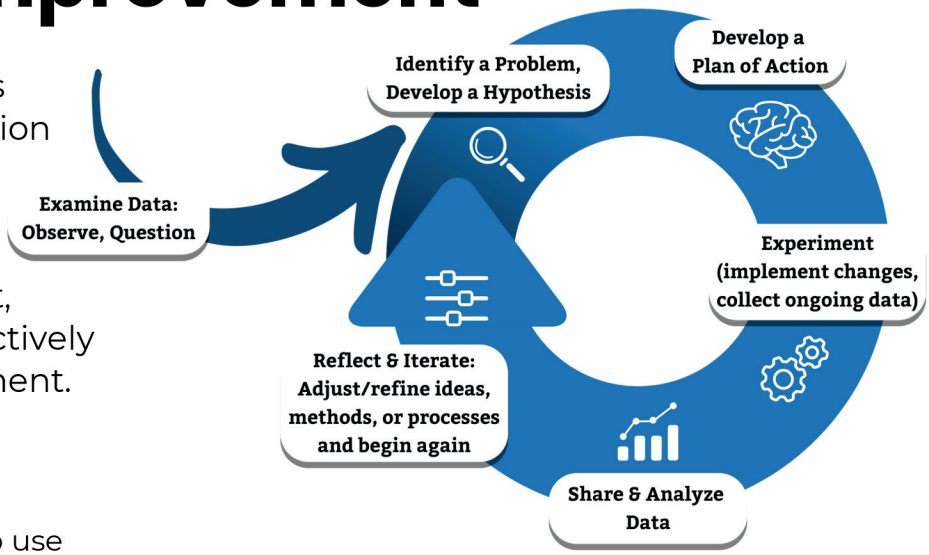
School Data Bank Services

Eastern Suffolk BOCES

Educational Support Services • Working Together for Excellence

Leveraging Evidence to Drive Continuous Improvement

School Data Bank Services offers schools support in data compilation and analysis. Our customizable services are designed to assist in the development of data literacy for educators to interpret, analyze, and utilize data constructively to support continuous improvement.



ESSA Support

Our program empowers educators to use data effectively under the New York State's Every Student Succeeds Act (ESSA) Plan. We offer customized support through a tailored, collaborative approach to analyzing school data. We also facilitate data reviews and professional development to support the data inquiry cycle and cultivate data literacy skills. These powerful sessions help educators understand the impact student data can have on accountability, curricular and instructional practices, resource allocation, and policy adjustments.

With a focus on equity, accountability, and evidence-informed continuous improvement for ALL schools, our team can support you in using data to address disparities in order to ensure all students thrive.

WAYS WE CAN HELP

Understanding ESSA

- Address accountability requirements
- Assist your team in understanding the NYS ESSA support model identification criteria

Data as Evidence

- Triangulate and analyze data to identify students' strengths and needs
- Customize visualizations to guide planning

Support for All Schools

- Support progress monitoring
- Guide teams through the data inquiry process
