

Community Shared Composting Program

Brecksville Broadview Heights City School District
and Rust Belt Riders have teamed-up to provide the
community with **two new Drop-Off Sites!**

Why Compost?

Reduce Landfill Waste

Composting food scraps instead of sending them to the landfill minimizes greenhouse gas emissions released into the atmosphere.

Heal Soil

Adding compost to the soil remediates damage done and reduces the need for artificial fertilizers.

Help the Community

Compost can help create a stable soil structure for future generations!
