Student Wellness & Success Plan (FY25)

The Fredericktown Local School District is coordinating their efforts with the Knox Public Health/Knox County Community Health Center, Freedom Center, and Family Life Counseling to provide support and engage students as well as their families in activities that promote student wellness and success. With the Student Success and Wellness funds made available to the school district by the State of Ohio, the district will collaborate to make available the following services as needed: mental health services, community liaisons, physical health care services, mentoring programs, family engagement/support services and other student services during or after the regularly scheduled school day or any time school is not in session.
