

# MyIR Mobile

Get you and your family's official immunization records on your phone.

## MyIR Mobile

MyIR Mobile is free to all state residents, and allows them to securely view, download and print official copies of their immunization records on demand. These printed records are accepted by schools, employers, state agencies and other organizations that require proof of immunization.

It's also useful for anyone seeking to track their or their family's immunization boosters and yearly vaccines, like the flu shot, and is an efficient way to share vaccine information when visiting a new healthcare provider for the first time.
