The district ensures there are ample and appropriate scheduling procedures for assessments and reassessment:

Referral

Children may be referred in writing on an ongoing basis, based on the following:

- Child request (self-referral);
- Teacher recommendation;
- Parent/guardian request;
- Child referral of peer; and
- Other (e.g., psychologist, community members, principal, gifted coordinator, etc.)

Upon receipt of a referral, the district will:

Follow the process as outlined in this brochure; and

Notify parents of results of screening or assessment and identification within 30 days.

Screening

The district ensures equal access to screening and further assessment of all district children, including culturally or linguistically diverse children, children from low socio-economic backgrounds, children with disabilities and children for whom English is a second language.

Identification

When the screening assessment has been completed, if the data obtained is from an approved identification instrument and the score meets cut-off scores specified in department of education guidance, the identification decision is made and the student's educational needs are determined. Identification scores remain in effect for the remainder of the student's K-12 school experience.

Reassessment

When the screening assessment has been completed, if the data is from an approved screening instrument or from an identification instrument on which the student is within a district-specified range below the identification score, re-assessment for possible identification occurs.

Out of District Scores

The district accepts scores, completed within the preceding 24 months on assessment instruments approved for use by the Ohio Department of Education, provided by other schools and/or trained personnel outside the school district.

Transfer

The district ensures that any child transferring into the district will be assessed within 90 days of the transfer at the request of the parent. Parents shall contact the building principal.

Appeal Procedure

An appeal by the parent is the reconsideration of the result of any part of the identification process which would include:

- Screening procedure or assessment instrument (which results in identification);
- The scheduling of children for assessment;
- The placement of a student in any program; and
- Receipt of services.

Parents should submit a letter to the superintendent or designee outlining the nature of the concern.

The superintendent or designee will convene a meeting with the parent/guardian, which may include other school personnel. The superintendent or designee will issue a written final decision within 30 days of the appeal. This written notice should include the reason for the decision(s).

WITHDRAWAL

If at any time a student wishes to withdraw from gifted programs or services the request should be written by the parent or child to the building administrator. If children request to withdraw, parents will be notified.

DISTRICT ENRICHMENT PLAN

Enrichments are activities purposely designed to expose students to a wide variety of disciplines, issues, occupations, hobbies, persons, places and/or events. They may expand the scope of the regular curriculum or introduce topics not covered in the general education program. Any staff member may be the originator of enrichment, and the student audience will vary depending on interest and ability. **Enrichments are not reported to the Ohio Department of Education as gifted services.**

DISTRICT SERVICE PLAN

The district ensures equal opportunity for all district students identified as gifted to receive any services offered by the district for which the student meets the criteria.
