

NAMES ON BALLOTS

The election ballot shall contain the names of all candidates who have successfully submitted nomination petitions to serve candidates in the election. The description shall include the name of the candidate, length of the term of office and direction as to how many votes may be cast in the at-large contest.

The names of the candidates as taken from the petitions of nomination shall be listed in the order as determined by a drawing by lot. The drawing shall be conducted by the district clerk on the day following the final date for filing of petitions for the nomination of candidates.

Candidates may designate a representative to accomplish the drawing by lot by submitting written proxy to the district clerk at the time the drawing is to take place. If the candidate is not in attendance and fails to designate a proxy in the prescribed manner, the district clerk shall be authorized to act as the candidate's proxy to accomplish the drawing.
