

Elizabethtown Area School District
Scope & Sequence - Quick Reference

Department: Science

Course: Environmental Science

Grade Level(s): 11-12

Course Description: This course will focus on environmental issues and finding solutions using S.T.E.M. (Science, Technology, Engineering, and Math) methodologies. Students will use inquiry, research, design and experiment to identify and try to find solutions for the problems that affect our local and global environment. Students enrolled in this course are expected to be curious, motivated and driven to solve real problems, such as the need for clean water, pollution, the human effect on our biosphere, and energy conservation and creation.
