HEALTH OFFICE FAQ

Q. Why was my registration not approved?

Your registration wasn't approved because of a few missing or incorrect details. Here's what you need to fix:

1. **Documents must be in PDF:** Upload your documents as PDFs.
2. **Expired Physical:** If your child's physical exam is out of date, you'll need to submit a new one.
3. **Vaccinations Needed:**
 - 7th Grade: First Meningococcal and Tdap booster shots.
 - 12th Grade: Second Meningococcal shot.
4. **Use the Correct Physical Form:** Make sure the physical is on the right form, available on the school's website under Parents/Community → Health Services → [Required NYS School Health Exam Form](#)
5. **Emergency Medication Order:** If your child has asthma requiring albuterol or an allergy requiring an epi-pen, please provide a doctor's order that states your child can self-carry the medication.
6. **Incomplete Doctor Information:**
 - The doctor must check "Family cardiac history reviewed."
 - The doctor must check that your child can "participate in all activities without restrictions."
7. **Doctor's Signature and Stamp:** The doctor needs to sign and stamp the physical form.

Q. I sent in a hard copy of my child's physical. Do I still need to upload it on Arbiter?

Yes, upload a copy of the most recent physical and immunization records with *each* registration. This is the fastest way to get your child approved.
